

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 53, Issue 4, 2013, 275–367

Liveweight prediction from hip height, condition score, fetal age and breed in tropical female cattle

Geoffry Fordyce, Angela Anderson, Kieren McCosker, Paul J. Williams, Richard G. Holroyd, Nick J. Corbet and Michael S. Sullivan 275–282

Reproductive and productive response to suckling restriction and dietary flushing in primiparous grazing beef cows

P. Soca, M. Carriquiry, D. H. Keisler, M. Claramunt, M. Do Carmo, J. Olivera-Muzante, M. Rodríguez and A. Meikle 283–291

In sacco evaluation of ruminal degradability of waste vinegar residue as a feedstuff for ruminants

Zengting Song, Xiaofang Dong, Jianming Tong and Zhihong Wang 292–298

The influence of diet type (dairy versus intensive fattening) on the effectiveness of garlic oil and cinnamaldehyde to manipulate *in vitro* ruminal fermentation and methane production

I. Mateos, M. J. Ranilla, M. L. Tejido, C. Saro, C. Kamel and M. D. Carro 299–307

Effects of feeding different levels of chromium-enriched live yeast in hairy lambs fed a corn-based diet: effects on growth performance, dietary energetics, carcass traits and visceral organ mass

A. Estrada-Angulo, Y. S. Valdés, O. Carrillo-Muro, B. I. Castro-Perez, A. Barreras, M. A. López-Soto, A. Plascencia, H. Dávila-Ramos, F. G. Rios and R. A. Zinn 308–315

The effects of sodium gluconate and microbial phytase on performance and mineral utilisation in broiler chicks

M. Günal 316–321

Performance and immune response of broiler chicks as affected by different levels of total dissolved solids in drinking water under hot arid environments

A. S. Ahmed 322–327

The influence of drinker device on water use and fertiliser value of slurry from growing-finishing pigs

J. Alvarez-Rodriguez, B. Hermida, J. Parera, H. Morazán, J. Balcells and D. Babot 328–334

Construction of Foot-and-mouth disease virus 2A-based bicistronic expression vector and coexpression of two genes in goat mammary epithelial cells

X. Q. Liu, H. Y. Liu, Q. J. Chen, M. M. Yang, H. Y. Xin, L. Bai, J. Y. Peng, H. B. Zhao and B. Y. Cao 335–341

Comparative costs, chemical treatments and flystrike rates in mulesed and unmulesed sheep flocks as predicted by a weather-driven model

Peri Lucas and Brian Horton 342–351

A comparison of the quality of dry-cured loins obtained from the native pig breed (Chato Murciano) and from a modern crossbreed pig

E. Salazar, J. M. Cayuela, A. Abellán, A. Poto, B. Peinado and L. Tejada 352–359

What do domestic livestock eat in northern Patagonian rangelands?

Edgar Sebastián Villagra, Alicia Pelliza, Priscila Willems, Guillermo Siffredi and Griselda Bonvissuto 360–367
