Perspective

A regional-scale assessment of nutritional-system strategies for abatement of enteric methane from grazing livestock

A. K. Almeida, F. C. Cowley and R. S. Hegarty 1461–1472

Genetics and Production

Phenotypic and genetic relationships for feed intake, feed efficiency, body composition and cow milk yield measured postweaning and in mature beef cows

J. A. Archer, A. Reverter, R. M. Herd and P. F. Arthur 1473–1482

Feed Quality and Metabolism

Evaluation of a dietary blend of essential oils and polyphenols on methane emission by ewes

A. S. Atzori, M. A. Porcu, F. Fulghesu, A. Ledda and F. Correddu 1483–1493

Effects of dietary *Sanguisorba minor*, *Plantago lanceolata*, and *Lotus corniculatus* on urinary N excretion of dairy cows

A. N. Kapp-Bitter, J. Berard, S. L. Amelchanka, C. Baki, C. Kunz, A. K. Steiner, M. Kreuzer and F. Leiber 1494–1504

Effects of the organic selenium sources with/without probiotics on broiler chicken growth, meat quality and meat selenium content

A. Shokrinejad Gerdin, M. Afsharmanesh, M. Salarmoini and M. Khajeh Bami 1505–1514

Effect of coated sodium butyrate in diet on performance, gut microbiota, ileal digestibility, serum nutrient fractions, immune responses and bone mineral variables in broiler chicken fed antibiotic-free diet

Savaram V. Rama Rao, V. L. N. Raju Mantena, Shyam Sunder Paul, Nagalakshmi Devanaboyina, Srilatha Thota, Prakash Bhukya and Santosh Phani Kumar Prakki 1515–1524

Behaviour, Well-being and Production

Post-weaning performance of Nellore calves subject to different weaning methods

Poliana Ramos Silva, Rafael Mezzomo, Ernestina Ribeiro Santos Neta, Thamiris Silva Sousa, Letícia da Silva Sousa, Mikaelly Rodrigues Almeida, Thaynara Ribeiro Carneiro da Silva, Amanda Duarte Vasconcelos, Erick Darlison Batista, Kalandra Souza Alves, Luis Rennan Sampaio de Oliveira and Daiany Iris Gomes 1525–1533

Production Systems in Transition

Nutrient intake, body weight changes, digestibility and nitrogen utilisation of West African dwarf goats fed *Pleurotus tuber-regium* treated cassava root sievate based diets

P. C. Jiwuba, L. C. Jiwuba, K. Ikwunze, R. C. Akazue, U. Okah and F. O. Ahamefule 1534–1544

Animal Health Systems

Estimating potential farm economic benefits of advanced microbiological diagnostics in veterinary medicine

Jørgen Dejgård Jensen, Tove Christensen, Potjamas Pansri and John Elmerdahl Olsen 1545–1558
