

Experimental Agriculture

Contents Volume 47, Issue 6, 2007, 645–761

Review Feed conversion efficiency as a key determinant of dairy herd performance: a review.
D. E. Beever and P. T. Doyle 645–657

Animal Production Efficacy of a lasalocid supplement in the diet of dairy cows in early lactation in a pasture-based dairy system.
C. R. Stockdale 658–663

Effect of data collection methods on the availability of calving ease, fertility and herd health data for evaluating Australian dairy cattle.
M. Haile-Mariam, E. Schelfhorst and M. E. Goddard 664–671

Optimum inclusion and replacement value of boiled *Mucuna cochinchinensis* for soybean meal in broiler diets.
S. N. Ukachukwu 672–676

Bodyweight QTL on mouse chromosomes 4 and 11 by selective genotyping: regression v. maximum likelihood.
Beben Benyamin, Ian C. A. Martin, Carol C. Cheung, Michael F. Buckley, Peter C. Thomson, Peter M. Visscher and Chris Moran 677–682

Pasture, Fodder Crops Seed development in *Malva parviflora*: onset of germinability, dormancy and desiccation tolerance.
Pippa J. Michael, Kathryn J. Steadman and Julie A. Plummer 683–688

Field Crops Application of composted pig bedding litter on a Vertosol and Sodosol soil.
1. Effect on crop growth and soil water.
R. D. Armstrong, C. Eagle, V. Matassa and S. D. Jarwal 689–699

Long-term effects of NPK fertiliser and manure on soil fertility and a sorghum–wheat farming system.
M. C. Manna, A. Swarup, R. H. Wanjari and H. N. Ravankar 700–711

Impact of heavy metal toxicity on plant growth, symbiosis, seed yield and nitrogen and metal uptake in chickpea.
P. A. Wani, M. S. Khan and A. Zaidi 712–720

The ‘Landcare’ approach to soil conservation in the Philippines: an assessment of farm-level impacts.
R. A. Cramb, D. Catacutan, Z. Culasero-Arellano and K. Mariano 721–726

Effects of windbreak structure on shelter characteristics.
P. R. Bird, T. T. Jackson, G. A. Kearney and A. Roache 727–737

Horticulture Evaluation of garlic extract on bud dormancy release of ‘Royal Gala’ apple trees.
R. V. Botelho and M. M. L. Müller 738–741

Temperature and photoperiod effects on the growth and development of opium poppy (*Papaver somniferum*).
S. N. Lisson 742–748

Enhancement of low-temperature tolerance in watermelon (*Citrullus lanatus*) seedlings by cool-hardening germination.
Feng-Xia Guo, Yuan Chen, Xin-Rong Li, Shi-Jian Xu, Li-Zhe An and Dong-Shun Liu 749–754

Screening selected myrtaceous tree species for production of essential oils in northern Queensland.
J. C. Doran, J. E. Drinnan, P. F. Macdonell and K. M. Aken 755–761

Front cover: Opium poppies (*Papaver somniferum*) growing in the Meander Valley, Northern Tasmania. When mature (about February), the capsules are harvested for commercial morphine production (see Lisson, pp. 742–748). Photograph supplied by Dr Davina Gregory, Tasmanian Alkaloids.
