## CONTENTS

### Historical Perspective

*T. O'Sullivan, D.J. McGarry A.M., A. Kamenar and R.S. Brown*
The discovery and development of Moonie — Australia's first commercial oilfield ................................................................. 1

*Rick Wilkinson*
In pursuit of a dream — some achievements, failures, hopes and disappointments in Australia’s upstream petroleum industry .................. 13

### Discoveries

*A.N. Bint*
Discovery of the Wanaea and Cossack Oil Fields .................................................. 22

*M.K. McLerie, A.M. Tait and M.J. Sayers*
The Yammaderry, Cowle and Roller discoveries in the Barrow Sub-basin, Western Australia .......................................................... 32

*J.D. Bourne and P.A. Faehrmann*
The Talbot Oilfield, Vulcan Sub-basin, Timor Sea: a Triassic oil discovery ........ 42

*S. Taylor, G. Solomon, N. Typper, J. Evanochko, G. Horton, R. Waldeck and S. Phillips*
Flank plays and faulted basement: new directions for the Cooper Basin ............... 56

### Geology

*M.R. Bendall, J.K. Volkman, D.E. Leaman and C.F. Burrett*
Recent developments in exploration for oil in Tasmania ........................................ 74

*Peter W. Baillie, Peter R. Tingate and William J. Stuart*
Reservoir development and diagenesis in the Bass Basin, Tasmania ...................... 85

*P. Featherstone, T. Aigner, L. Brown, M. King and W. Leu*
Stratigraphic modelling of the Gippsland Basin ............................................... 105

*B.A. Duff, N.G. Grollman, D.J. Mason, J.M. Questiaux, D.S. Ormerod and P. Lays*
Tectonostratigraphic evolution of the south-east Gippsland Basin ....................... 116

Fission track thermochronology: application to continental rifting of south-eastern Australia ......................................................... 131

*D.C. Lowry and I.M. Longley*
A new model for the mid-Cretaceous structural history of the northern Gippsland Basin ............................................................. 143

*R.J. Malcolm, M.C. Pott and E. Delfos*
A new tectono-stratigraphic synthesis of the North West Cape area ................... 154

*D.I. Gravestock and J.E. Hibburt*
Sequence stratigraphy of the eastern Officer and Arrowie Basins:
a framework for Cambrian oil search .............................................................. 177

*D.A. Falvey, J.B. Colwell, P.J. Coleman, H.G. Greene, J.G. Vedder and T.R. Bruns*
Petroleum prospectivity of Pacific Island arcs: Solomon Islands and Vanuatu ........ 191
Geophysics and Surveying

G. Pettifer, A. Tabassi and B. Simons
A new look at the structural trends in the onshore Otway Basin, Victoria, using image processing of geophysical data ......................................................... 213

P.M. Smith and N.D. Sutherland
Discovery of salt in the Vulcan Graben: a geophysical and geological evaluation ................................................................. 229

J. Pinchin and A.B. Mitchell
Seismic AVO studies assist in the mapping of a Permian gas sand at Kerna Field, Cooper Basin ......................................................... 244

A. Sutherland and P.M. Smith
Recent developments in borehole seismic surveys, offshore northern Australia ......................................................... 250

C.D.N. Collins, J.P. Cull, J.B. Colwell, J.B. Willcox and P.E. Williamson
Deep structural imaging from onshore recording of a marine air-gun source in the Gippsland and Bass Basins ......................................................... 261

Giles Mack and Peter Daly
The potential of the Global Positioning System (GPS) in petroleum exploration ......................................................... 275

Petroleum Geochemistry

P.J. Eadington, P.J. Hamilton and G.P. Bai
Fluid history analysis — a new concept for prospect evaluation ......................................................... 282

T.G. Powell and C.J. Boreham
Petroleum generation and source rock assessment in terrigenous sequences: an update ......................................................... 297

Peter J. Ypma and Mark B.M. Hochman
Thermoluminescence geothermometry — a case study of the Otway Basin ......................................................... 312

R. Alexander, P.J. Kralert, R. Marsi, R.I. Kagi and E.J. Evans
A geochemical method for assessment of the thermal histories of sediments: a two-well case study from the Gippsland Basin, Australia ......................................................... 325

B.A. Martin and S.J. Cawley
Onshore and offshore petroleum seepage: contrasting a conventional study in Papua New Guinea and Airborne Laser Fluorosensing over the Arafura Sea ......................................................... 333

Engineering and Gas Supply

Russell McNicoll
Horizontal drilling in Australia: three case histories ......................................................... 354

G.E. Aberle and D.G. Markwell
The Yammaderry and Cowle small offshore field developments ......................................................... 359

Michael Hill and Michael Armstrong
Coal seam methane: the future of operations in New South Wales ......................................................... 367

I.J. Taggart and H.A. Salsch
Fractal geometry, reservoir characterisation and oil recovery ......................................................... 377
Alan J. Sheehy
Development and field evaluation of a new microbial EOR concept ........................................ 386

C.A. Bottomley
A simple subsea completion on a new hybrid mudline suspension system ................................ 391

W.C. Henry
Control system for remote subsea completions ............................................................................ 396

Ian Bishop and Steve Martucci
Well tubular corrosion in the Cooper/Eromanga Basin .................................................................. 404

Alan Baker
The development of natural gas in Victoria ...................................................................................... 413

Environment and Safety

Ian LeProvost
Marine environmental management of three offshore oilfields in tropical waters of north-west Australia ................................................................. 423

R.D. Lagdon
Barrow Island Oilfield environmental review — 25 years of learning ........................................... 431

Greg Hogan
Occupational health and safety laws in the petroleum exploration industry .................................... 442

Denys Goggin
The development of a total hazard control plan for an LNG site .................................................. 448

Finance, Legal and Industrial Relations

Mark Epper and John Charters
The environment for raising funds for petroleum exploration in the 1990s .................................... 454
