APEA annually invites drafting personnel in member companies to submit a design for the APEA Journal cover. In this year’s cover design the new age and new technologies of the oil industry are represented by both the 3-D Seismic Image and the concrete gravity structure. The rest of the design highlights areas within the industry that have been restructured over the past decade to gain new opportunities. The winner receives a free trip to the APEA Conference. The design is the work of Chris Duke of the Computer Graphics Group, Esso Australia Limited. Chris has had 10 years experience in the oil industry. He trained as a draftsman with Santos in South Australia and Delhi in Brisbane and transferred to Esso on the Delhi buy-out. He developed his computer skills and moved into Esso’s Graphics Section where he is involved in the production of a wide range of material for administrative, technical and geoscience clients.

R.C. Wells

TECHNICAL PAPERS COMMITTEE
Chairman: A.J. Rigg
J.M. Beck, B.J. Burns, D.A. Falvey, G.S. Foley, I.J. Grierson, P.J. Hamilton, M.H. Johnstone,
A.K. Khurana, A.J. Mebberson, G.B. Moffett, D.J. Morton, P.C. Reid, R. Roberts,

ISSN 0084-7534
CONTENTS

Section 1—Reservoir and development technology

Wellbore instability in the North West Shelf of Australia 3

Planning and drilling of sinuous horizontal wells for the Griffin area development 19

The Tirrawarra oil field: Field revitalisation through reservoir description and characterisation 33

R. G. Robinson
Surface facilities for the South West Queensland Gas Project 55

H.R. Irrgang
Evaluation and management of thin oil column reservoirs in Australia 64

M.M. Rahman, F.A. Khan and S.S. Rahman
Development of wellbore treatment technology for improving production efficiency from Australian oil and gas wells 79

G.B. Salter and W.P. Kerckhoff
Development Planning for the Cossack and Wanaea fields 92

Section 2—Advances in engineering technology

Trials of a Multiphase Flow Meter on production pipelines from oil wells 103

M.D. Stevenson, W.V. Pinczewski, K. Meaney and L. Paterson
Coal seam reservoir simulation 114

I. Rees
BHP Petroleum’s new technology methanol research plant 121

C.A. Bottomley
Metal seal wellhead completion for the Roller and Skate development 127
Section 3—Safety

D.C. Kratzing, D. Moorefield, P. Coghlan
Australia’s first Safety Case

R.S. Gill
Esso Australia approach to offshore Safety Cases

B. Wheelahan
Accident investigation using the Tripod Method

P.J. Pike, M.G. Smith, R.S. Gill, S. Savva and A.J. Fisher
Esso/BHPP Bass Strait safety—achieving world class performance

R.J. Gillett
Rehabilitation of offshore-based employees—A cost effective approach

A. Stock
Safety at SAGASCO—A way of life

R.C. Gehling, M.P. Lane and R.M. Thornton
Floating Production, Storage and Offloading (FPSO) facilities
—impact of the new oil tanker construction rules

Section 4—Exploration technology

T.L. Burnett
New directions in geoscience technology for petroleum exploration in the new age

M.A. Wilson, E. La Fargue and D. Gizachew
Solid state $^{13}$C NMR for characterising source rocks

M.V. Ellacott, N.J. Russell and R.W.T. Wilkins
Troubleshooting vitrininte reflectance problems using FAMM:
A Gippsland and Otway Basin case study

J.W. Smith, S.C. George and B.D. Batts
Pyrolysis of aromatic compounds as a guide to synthetic reactions in sediments

S.C. George, J.W. Smith and D.R. Jardine
Vitrinite reflectance suppression in coal due to a marine transgression: a case study of the organic geochemistry of the Greta Seam, Sydney Basin
B.J. Katz
*An alternative view on Indo-Australian coals as a source of petroleum* 256

A.S. Andrew, P.J. Hamilton, R. Mawson, J.A. Talent and D.J. Whitford
*Isotopic correlation tools in the mid-Palaeozoic and their relation to extinction events* 268

D. Taylor, A.E. Kontorovich, A. Larichev, M. Glikson
*Petroleum source rocks in the Roper Group of the McArthur Basin: Source characterisation and maturity determinations using physical and chemical methods* 279

E.L. Horstman
*The effect of inertinite on kerogen appraisal by programmed pyrolysis, North West Shelf, Australia* 297

J.L. Lin and H.A. Salisch
*Determination from well logs of the total organic carbon content in potential source rocks* 307

D.J. Whitford, P.J. Hamilton and J. Scott
*Sedimentary provenance studies in Australian basins using Neodymium model ages* 320

R. Morante, J.J. Veevers, A.S. Andrew and P.J. Hamilton
*Determination of the Permian-Triassic boundary in Australia from carbon isotope stratigraphy* 330

P.M. Wong, I.J. Taggart and F.X. Jian
*Integration of seismic, wireline logs and core data into a genetic characterisation framework* 337

Keyu Liu, Lincoln Paterson and Feng Xu Jian
*Depositional modelling of the Gippsland Basin and the Barrow-Exmouth Sub-basins* 350

J.C. Baker, P.J.R. Uwins and I.D.R. Mackinnon
*Swelling behaviour of mixed-layer clays in hydrocarbon reservoirs* 366

I. Wyld and B. Godfrey
*Research with a purpose in the Australian petroleum industry* 371

B.A. Goldstein
*Explicating a gut feel—Benchmarking the chance for exploration success* 378

G. Khavari Khorasani and J.K. Michelsen
*The effects of overpressure, lithology, chemistry and heating rate on vitrinite reflectance evolution, and its relationship with oil generation* 418
Section 5a—Exploration of specific basins—Southeast Australia

K. Mehin and A.G. Link
Source, migration and entrapment of hydrocarbons and carbon dioxide in the Otway Basin, Victoria 439

D. Perincek, B. Simons and G.R. Pettifer
The tectonic framework and associated play types of the western Otway Basin, Victoria, Australia 460

M.A. Trupp, K.W. Spence and M.J. Gidding
Hydrocarbon prospectivity of the Torquay Sub-basin, offshore Victoria 479

M.B. Gilbert and K.A. Hill
Gippsland, a composite basin—A case study from the offshore northern Strzelecki Terrace, Gippsland Basin, Australia 495

P.V. Hinton, M.G. Cousins and P.E. Symes
The integration of modern technology in Gippsland's Central Fields study 513

New ideas on the rifting history and structural architecture of the western Otway Basin: evidence from the integration of aeromagnetic, gravity and seismic data 529

Section 5b—Exploration of specific basins—Northern Australia

N.M. Lemon and T. Mahmood
Two and three dimensional analogue modelling of extensional fault systems with application to the North West Shelf, Western Australia 555

P. Barber
Late Jurassic-Early Cretaceous depositional systems of the Dampier Sub-basin—Quo Vadis? 566

E. Delfos and M. Boardman
Wandoo—a new trend 586

G. Hill
The role of pre-rift structure in the architecture of the Dampier Basin area, North West Shelf, Australia 602

B.A. McConachie, P.W. Stainton, M.G. Barlow and J.N. Dunster
The offshore Carpentaria Basin—Gulf of Carpentaria, North Queensland 614

viii—APEA JOURNAL 1994
B.G. West and V.L. Passmore
Hydrocarbon potential of the Bathurst Island Group, northeast Bonaparte Basin: Implications for future exploration 626

Section 5c—Exploration of specific basins—Onshore Australia

J.D. Gorter
Sequence stratigraphy and the depositional history of the Murta Member (Upper Hooray Sandstone), southeastern Eromanga Basin, Australia: Implications for the development of source and reservoir facies 644

K. Lanigan, S. Hibbird, S. Menpes and J. Torkington
Petroleum exploration in the Proterozoic Beetaloo Sub-basin, Northern Territory 674

R.E. Summons, D. Taylor and C.J. Boreham
Geochemical tools for evaluating petroleum generation in the Middle Proterozoic sediments of the McArthur Basin, Northern Territory, Australia 692

Section 5d—Exploration of specific basins—Overseas

Petroleum potential of Ragay Gulf, southeast Luzon, Philippines 707

Section 6—The oil industry and the environment

G.W. Terrens and R.D. Tait
Effects on the marine environment of Produced Formation Water discharges from offshore development in Bass Strait, Australia 730

M.L. Williams, A.J. Boulton, M. Hyde, A.J. Kinnear, C.D. Cockshell
Environmental impact of seismic operations in the Otway Basin, South Australia 741

B. Smith, J. Martin, G.D. Hubbert
Environmental studies for a permit-wide drilling program in a sensitive marine environment 750

O. Morozow
Environmental auditing: The dynamics of planning, managing and gaining value from this key activity 765
R.A.D. Wright
*Environmental Management Systems: A quantum leap forward or nothing new for the E&P industry* 771

H.B. Goff and P.D. Farrell
*The evolution of an environmental monitoring program* 777

R. Alexander, T.J. Currie and R.I. Kagi
*The origins of coastal bitumens from Western Australia* 787

K. Black
*Practical developments in predictive oceanography of benefit to the oil and gas industry* 799

L.H. Evans, J.T. Spickett, J.R. Bidwell, R.J. Rippingale and H.L. Brown
*Application of ecotoxicology to environmental management in the Australian offshore oil and gas industry* 809

**Section 7—Corporate and legal**

B. Mackenzie, S. Ashton, A. Larking and Zhikai Cai
*Current outlook economic assessment of petroleum exploration in Australia* 823

J.G. Charters and M.S. Epper
*The main chances for new equity* 835

R. Laws and T. Aust
*The changing face of government regulation* 845

E. Grossman
*Industry and education—A partnership for learning* 853

L. Holmes, S.L. Mander and B.S. Fisher
*Competitive access to Australian gas markets—implications for exploration and development* 854

S. Lambert
*Oil price risk management in the 1990s—Issues for producers and lenders* 872

R.H. Caldwell
*Strategy and valuation pitfalls in North America* 876

B.E. Wells
*Venturing abroad—Setting up operations overseas* 882
G. Allinson and M. Elliston
Economics of petroleum exploration offshore Australia and southeast Asia 887

M. Sharwood and K. Seman
Fund raising and the prospectus 897

Section 8—Abstracts of papers in preparation

Safety

- Safety in the offshore petroleum industry: the new regime 906

Exploration

- Structural and tectonic evolution of the Western Australian margin basin system 906
- New seismic data from the eastern Officer Basin, South Australia 908
- Crustal transects of the northern Carnarvon Basin: Implications for basin development 909
- Browse Basin petroleum system and regional structure 909
- Fault interpretation problems in the southeastern Barrow Sub-basin 910
- Petroleum systems in the Canning Basin 911
- Global implications of a quantitative analysis of North American–South American plate kinematics since chron 34 (83 Ma) 913

Environment

- Strategic environmental management the way forward 913
- International climate change: policy and action—a business perspective 914

Corporate and Legal

- World and Australian trends in natural gas 915
- The dynamics of risk perception and the role of strategic communications 915
- Good faith and economic reality 915
- Prospectivity: is it the real reason for the decline in onshore exploration? 916
- Is there life after Lloyds? 916
- Exploration and the PRRT using the UK experience 916
- The Cultus Story 917
- A stockbroker's view of different investors' requirements 918
- Energy Equity—a niche player's story 918
- Mabo: native title—where it came from, what it means for the petroleum industry 919
- Timor Gap—valuation of cancelled permits and security of current permits 919
APEA thanks the following Conference Sponsors (at the time the Journal went to press) for their generous contributions and services, and advertisers in this publication for their support:
