

THE 2001 APPEA CONFERENCE SPONSORS

Principal sponsors

BHP Petroleum Pty Ltd
J B Were & Son

Papers Committee

Esso Australia Ltd
Schlumberger Oilfield Australia Pty Ltd

Supporting sponsors

Conference Satchels	Shell Development (Australia) Pty Ltd
APPEA Journal	Texaco Australia Pty Ltd
APPEA Exhibition	Woodside Energy Limited
Conference Lunch	Fugro
Conference Dinner	Halliburton Australia Pty Ltd
Morning/Afternoon Tea Breaks	AGIP Australia Pty Ltd
Opening Presentation	Pan Canadian Petroleum Ltd
Monday Happy Hour	Chevron Australia Pty Ltd
Authors' Lunch	Novus Petroleum Ltd
Conference Writing Pads	Clayton Utz
Conference Pens	Tap Oil Limited
Continuous Tea and Coffee	Apache Energy Limited

Ice Breaker sponsors

Allens Arthur Robinson
Coastal Oil & Gas Australia Pty Ltd
Magellan Petroleum Australia Limited
Newfield Exploration Australia Limited
Nexen Petroleum International
Veritas DGC

Farewell cocktail party sponsors

Coastal Oil & Gas Australia Pty Ltd
University of New South Wales
Newfield Exploration Australia Limited
Nexen Petroleum International
Veritas DGC

Technical/Commercial session sponsors

AEC International (Australia) Pty Ltd
Allens Arthur Robinson
Australian Competitive Energy
Newfield Exploration Australia Limited
Nexen Petroleum International
Origin Energy Limited
PricewaterhouseCoopers
Santos Limited
Texaco Australia Pty Ltd
TGS Nopec Geophysical Company
WA Department of Resources Development

Miscellaneous sponsors

Safety Awards:

PricewaterhouseCoopers

Internet Café

Media Dynamics

Airline Official Carrier

Ansett Australia

Conference Travel Agent

Capital Travel Manuka

ABBREVIATIONS AND ACRONYMS

AAPG—American Association of Petroleum Geologists.
AATSE—Australian Academy of Technological Sciences and Engineering.
AmCS—American Chemical Society.
AGI—American Geological Institute.
AGU—American Geophysical Union.
ASLO—American Society for Limnology and Oceanography.
API—American Petroleum Institute.
AAP—Association of Australasian Palaeontologists.
AICD—Australian Institute of Company Directors.
AusIMM—Australasian Institute of Mining and Metallurgy.
ABARE—Australian Bureau of Agricultural and Resource Economics.
AGSO—Australian Geological Survey Organisation.
AGPS—Australian Government Publishing Service.
AIMS—Australian Institute of Marine Science.
AIP—Australian Institute of Petroleum.
AJES—Australian Journal of Earth Sciences.
AMC—Australian Manufacturing Council.
AMPLA—Australian Mining and Petroleum Law Association Limited.
AMSA—Australian Marine Science Association.
APCRC—Australian Petroleum Co-operative Research Centre.
ASEG—Australian Society of Exploration Geophysicists.
APPEA—Australian Petroleum Production and Exploration Association Limited.
ASME—American Society of Mechanical Engineering.
BMR—Bureau of Mineral Resources.
BRS—Bureau of Resource Sciences.
CSPG—Canadian Society of Petroleum Geologists.
CSIRO—Commonwealth Scientific and Industrial Research Organisation.
EIA—Environment Institute of Australia.
EAOG—European Association of Organic Geochemists.
FESA—Formation Evaluation Society of Australia.
FESWA—Formation Evaluation Society of Western Australia.
FTA—Finance and Treasury Association.
GBRMPA—Great Barrier Reef Marine Park Authority.
GSC—Geological Society of Canada.
GSPNG—Geological Survey of Papua New Guinea.
GSA_{Am}—Geological Society of America.
GSA—Geological Society of Australia.
GSL—Geological Society of London.
GSNSW—Geological Survey of New South Wales.
GST—Geological Survey of Tasmania.
GSNZ—Geological Society of New Zealand.

GSSA—Geological Survey of South Australia.
GSV—Geological Survey of Victoria.
GSWA—Geological Survey of Western Australia.
IAMG—International Association of Mathematical Geology.
ICA—Institute of Chartered Accountants.
ICE—Institution of Civil Engineers.
ICQS—International Committee on Quantitative Stratigraphy.
IEA—Institute of Engineers Australia.
IEEE—Institute of Electrical and Electronic Engineers Inc.
IPA—Indonesian Petroleum Association.
ISOPE—International Society of Offshore and Polar Engineering.
MESA—Department of Mines and Energy South Australia.
MCA—Minerals Council of Australia.
NELA—National Environmental Law Association.
NCPGG—National Centre for Petroleum Geology and Geophysics.
NGS—Norwegian Geological Society.
NNPGS—Norwegian Petroleum Geologists' Society.
NZGS—New Zealand Geological Survey.
NTGS—Northern Territory Geological Survey.
PEANZ—Petroleum Exploration Association of New Zealand.
PESA—Petroleum Exploration Society of Australia.
PESGB—Petroleum Exploration Society of Great Britain.
PASA—Pipelines Authority of South Australia.
QDME—Queensland Department of Mines and Energy.
QGS—Queensland Geological Survey.
RACI—Royal Australian Chemical Institute.
RMIT—Royal Melbourne Institute of Technology.
RSNZ—Royal Society of New Zealand.
RSSA—Royal Society of South Australia.
RST—Royal Society of Tasmania.
RSV—Royal Society of Victoria.
TIA—Taxation Institute of Australia.
SAA—Standards Association of Australia.
SIA—Securities Institute of Australia.
SCA—Society of Core Analysts.
SEPM—Society of Economic Paleontologists and Mineralogists.
SEG—Society of Exploration Geophysicists.
SOP—The Society of Organic Petrologists.
SPE—Society of Petroleum Engineers.
SPWLA—Society of Petroleum Well Log Analysts.
SUT—Society for Underwater Technology.
VIMS—Victorian Institute of Marine Science.
WAMPRI—Western Australian Mining and Petroleum Research Institute.

ON OUR WALLS YOU'LL FIND
OVER SIX THOUSAND PATENTS.
IN OUR HALLS PEOPLE FROM
OVER ONE HUNDRED COUNTRIES.

IN OUR MINDS,
A CONNECTION.

The connection is this: diversity equals success. Real, bottom-line success. For our clients. And ourselves. At least, it has been our experience that great ideas can come from anyone, anywhere. And for the world's leading technical services company the best ideas are everything.

From oilfield services to smart cards to devices that test superfast microchips, Schlumberger is only as good as its next idea. Which explains we found ideas like diversity to be very good indeed.

Schlumberger

A large, complex offshore oil and gas platform stands in the middle of a deep blue ocean under a clear sky. The platform features a yellow crane and various structural elements. In the foreground, a yellow buoy floats on the water, crowded with numerous dark-colored seals.

In 1965 Esso discovered Australia's first offshore oil and gas field. Today, Esso remains one of Australia's largest oil and gas producers.

Esso is proud to support the APPEA Conference in 2001.
