The oral administration of meat and bone meal-derived protein fractions improved the performance of young broiler chicks

Steam-pelleting temperatures, grain variety, feed form and protease supplementation of mediumly ground, sorghum-based broiler diets: influences on growth performance, relative gizzard weights, nutrient utilisation, starch and nitrogen digestibility

Optimal dietary zinc levels of broiler chicks fed a corn–soybean meal diet from 22 to 42 days of age
Xuodong Liao, Ang Li, Lin Lu, Songbai Liu, Sufen Li, Liyang Zhang, Guangying Wang and Xugang Luo 388–394

Genetic parameters and phenotypic trends in the mean and variability of number of stillborn piglets and changes in their relationships with litter size and gestation length
Craig R. G. Lewis and Susanne Hermesch 395–402

Genetic polymorphism at the CSN1S1 gene in Girgentana dairy goat breed

A survey of free and conjugated deoxynivalenol in the 2009, 2010 and 2011 cereal crops in Australia
S. T. Tran and T. K. Smith 407–412

Effects of increasing supplementation levels of rice bran on milk production and fatty acid composition of milk in Saanen dairy goats
J. K. Park, E. G. Kwon and C.-H. Kim 413–418

Effect of inclusion of grasses and wet hulless-barley distillers’ grains on the fermentation and nutritive quality of oat straw- and straw-grass silages in Tibet
XianJun Yuan, ChengQun Yu, ZhiHua Li, M. Shimojo and Tao Shao 419–426

Effect of cereal and pea monocultures and combinations and silage additives on whole-crop cereal silage nutritive and fermentation characteristics
J. L. Jacobs and G. N. Ward 427–436

Potential impacts of negative associative effects between concentrate supplements, pasture and conserved forage for milk production and dairy farm profit
C. K. M. Ho, B. Malcolm and P. T. Doyle 437–452

Effect of Stylosanthes guianensis supplementation on intake and nitrogen metabolism of Bos indicus cattle offered a basal diet of mixed rice straw and tropical grass
Miranda Pen, Darryl B. Savage, John Y. Nolan and Mom Seng 453–457

Factors involved in high ewe losses in winter lambing flocks grazing dual-purpose wheat in southern New South Wales: a producer survey

A higher proportion of female lambs when ewes were fed oats and cottonseed meal prior to and following conception

Evaluation of semen characteristics of the species Mazama americana in captivity
Luciana Diniz Rola, Eveline dos Santos Zanetti and José Maurício Barbanti Duarte 472–477
