CICERONE PROJECT: EXPLORING PROFITABLE AND SUSTAINABLE GRAZING ENTERPRISES THROUGH PRODUCER-LED RESEARCH, EXTENSION AND ADOPTION

Foreword i

Creating the Cicerone Project: seeking closer engagement between livestock producers, research and extension

H. Sutherland, J. M. Scott, G. D. Gray and R. R. Woolaston 593–601

Surveying the management practices and research needs of graziers in the New England region of New South Wales

G. Kaine, B. Doyle, H. Sutherland and J. M. Scott 602–609

Producer-initiated field research leads to a new diagnostic test for footrot

C. A. Gaden, B. F. Cheetham, E. Hall, G. Green and M. E. Katz 610–617

Planning for whole-farm systems research at a credible scale: subdividing land into farmlets with equivalent initial conditions

J. M. Scott, M. Munro, N. Rollings, W. Browne, P. J. Vickery, C. Macgregor, G. E. Donald and H. Sutherland 618–627

Selection of experimental treatments, methods used and evolution of management guidelines for comparing and measuring three grazed farmlet systems

J. M. Scott, C. A. Gaden, C. Edwards, D. R. Paull, R. Marchant, J. Hoad, H. Sutherland, T. Coventry and P. Dutton 628–642

Statistical methodologies for drawing causal inference from an unreplicated farmlet experiment conducted by the Cicerone Project

R. Murison and J. M. Scott 643–648

Whole-farm management of soil nutrients drives productive grazing systems: the Cicerone farmlet experiment confirms earlier research

C. N. Guppy, C. Edwards, G. J. Blair and J. M. Scott 649–657

Comparing the climate experienced during the Cicerone farmlet experiment against the climatic record

K. Behrendt, J. M. Scott, D. F. Mackay and R. Murison 658–669

Changes in botanical composition on three farmlets subjected to different pasture and grazing management strategies

L. M. Shakhane, J. M. Scott, R. Murison, C. Mulcahy, G. N. Hinch, A. Morrow and D. F. Mackay 670–684

Pasture herbage mass, quality and growth in response to three whole-farmlet management systems

L. M. Shakhane, C. Mulcahy, J. M. Scott, G. N. Hinch, G. E. Donald and D. F. Mackay 685–698

Satellite derived evidence of whole farmlet and paddock responses to management and climate

G. E. Donald, J. M. Scott and P. J. Vickery 699–710

Estimating the balance between pasture feed supply and demand of grazing livestock in a farmlet experiment

L. M. Shakhane, J. M. Scott, G. N. Hinch, D. F. Mackay and C. Lord 711–726

Livestock weights in response to three whole-farmlet management systems

G. N. Hinch, J. Hoad, M. Lollback, S. Hatcher, R. Marchant, A. Colvin, J. M. Scott and D. Mackay 727–739

Effects of three whole-farmlet management systems on Merino ewe fat scores and reproduction
*G. N. Hinch, M. Lollback, S. Hatcher, J. Hoad, R. Marchant, D. F. Mackay
and J. M. Scott* 740–749

The effects of pasture inputs and intensive rotational grazing on superfine wool production,
quality and income
D. Cottle, C. A. Gaden, J. Hoad, D. Lance, J. Smith and J. M. Scott 750–764

Grazing systems and worm control in sheep: a long-term case study involving three
management systems with analysis of factors influencing faecal worm egg count
*S. W. Walkden-Brown, A. F. Colvin, E. Hall, M. R. Knox,
D. F. Mackay and J. M. Scott* 765–779

Whole-farm returns show true profitability of three different livestock management systems
J. F. Scott, J. M. Scott and O. J. Cacho 780–787

Economic risk analysis of livestock management system options
J. F. Scott, O. J. Cacho and J. M. Scott 788–795

Optimising pasture and grazing management decisions on the Cicerone Project farmlets
over variable time horizons
K. Behrendt, O. Cacho, J. M. Scott and R. Jones 796–805

Simulating the impact of fertiliser strategies and prices on the economics of developing
and managing the Cicerone Project farmlets under climatic uncertainty
K. Behrendt, J. M. Scott, O. Cacho and R. Jones 806–816

Five-year survival and growth of farm forestry plantings of native trees and radiata pine
in pasture affected by position in the landscape
N. Reid, J. Reid, J. Hoad, S. Green, G. Chamberlain and J. M. Scott 817–826

Delivering extension and adult learning outcomes from the Cicerone Project by ‘comparing,
measuring, learning and adopting’
C. Edwards, C. Gaden, R. Marchant, T. Coventry, P. Dutton and J. M. Scott 827–840

Integrated overview of results from a farmlet experiment which compared the effects
of pasture inputs and grazing management on profitability and sustainability
*J. M. Scott, K. Behrendt, A. Colvin, F. Scott, L. M. Shakhane, C. Guppy, J. Hoad, C. A. Gaden,
C. Edwards, G. N. Hinch, O. J. Cacho, G. E. Donald, D. Cottle, T. Coventry, G. Williams
and D. F. Mackay* 841–855

Reflections on the concept, conduct and findings of the producer-led Cicerone Project
*T. Coventry, H. Sutherland, M. Waters, P. Dutton, B. Gream, R. Croft, E. Hall, D. R. Paull,
C. Edwards, R. Marchant, P. Smith, J. M. Scott, C. Gaden and J. Hoad* 856–868
