

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 57, Issue 5, 2017, 801–1000

Review

Electro-analgesia for sheep husbandry practices: a review

P. I. Hynd 801–810

Genetics and Genomics

Crossbreeding in beef production: meta-analysis of breed means to estimate breed-specific effects on leather properties

M. D. MacNeil, M. M. Scholtz, A. Theunissen, J. F. De Bruyn and F. W. C. Naser 811–814

Physiology, Endocrinology and Reproduction

Effects of ovariectomy on body measurements, carcass composition, and meat quality of Huainan chickens

Xing Guo, Chendong Ma, Qi Fang, Bangyuan Zhou, Yi Wan and Runshen Jiang 815–820

Nutrition and Metabolism

Effects of dietary supplementation of cinnamaldehyde and formic acid on growth performance, intestinal microbiota and immune response in broiler chickens

M. Pathak, G. P. Mandal, A. K. Patra, I. Samanta, S. Pradhan and S. Haldar 821–827

Feed Quality, Nutritional Value and Toxicology

Comparative performance of broiler chickens offered nutritionally equivalent diets based on six diverse, ‘tannin-free’ sorghum varieties with quantified concentrations of phenolic compounds, kafirin, and phytate

Ha H. Truong, Karlie A. Neilson, Bernard V. McInerney, Ali Khoddami, Thomas H. Roberts, David J. Cadogan, Sonia Yun Liu and Peter H. Selle 828–838

Effect of feeding different levels of palm kernel cake fermented by *Paenibacillus polymyxa* ATCC 842 on broiler growth performance, blood biochemistry, carcass characteristics, and meat quality

M. I. Alshelmani, T. C. Loh, H. L. Foo, A. Q. Sazili and W. H. Lau 839–848

Replacement of mustard oil cake by urea in short-term strategic feeding of cull ewes to improve body condition and carcass traits

R. S. Bhatt, A. Sahoo and S. A. Karim 849–857

Nutritive characteristics, mineral concentrations and dietary cation–anion difference of feeds used within grazing-based dairy farms in Australia

Innocent Rugoho, Cameron J. P. Gourley and Murray C. Hannah 858–876

Feed intake, liveweight gain and carcass traits of lambs offered pelleted annual pasture hay supplemented with flaxseed (*Linum usitatissimum*) flakes or algae (*Schizochytrium* sp.)

V. F. Burnett, J. L. Jacobs, S. Norng and E. N. Ponnampalam 877–883

The tolerance of steers (*Bos taurus*) to sorghum ergot (*Claviceps africana*) in a feedlot during the cooler months in subtropical Queensland

Stuart R. McLennan, Barry J. Blaney, Vivienne J. Doogan and Jeff A. Downing 884–895

Behaviour, Well-being and Health

Social interaction patterns according to stocking density and time post-mixing in group-housed gestating sows

Jean-Loup Rault 896–902

Effect of residual leaf area index on spatial components of Tifton 85 pastures and ingestive behaviour of sheep

W. L. Silva, J. P. R. Costa, G. P. Caputti, A. L. S. Valente, D. Tsuzukibashi, E. B. Malheiros, R. A. Reis and A. C. Ruggieri 903–911

Continued on next page

Effect of probiotic *Bacillus amyloliquefaciens* strain H57 on productivity and the incidence of diarrhoea in dairy calves

Oanh T. Le, Peter J. Dart, Karen Harper, Dagong Zhang, Benjamin Schofield, Matthew J. Callaghan, Allan T. Lisle, Athol V. Klieve and David M. McNeill 912–919

Effect of a dietary probiotic, *Lactobacillus johnsonii* BS15, on growth performance, quality traits, antioxidant ability, and nutritional and flavour substances of chicken meat

Lei Liu, Xueqin Ni, Dong Zeng, Hesong Wang, Bo Jing, Zhongqiong Yin and Kangcheng Pan 920–926

The effects of different protein levels in laying hens under hot summer conditions

Mehran Torki, Masoomeh Nasiroleslami and Hossein Ali Ghasemi 927–934

Pigs experimentally infected with an enterotoxigenic strain of *Escherichia coli* have improved feed efficiency and indicators of inflammation with dietary supplementation of tryptophan and methionine in the immediate post-weaning period

M. M. Capozzalo, J. C. Kim, J. K. Htoo, C. F. M. de Lange, B. P. Mullan, C. F. Hansen, J. W. Resink and J. R. Pluske 935–947

Effects of dietary supplementation of oriental herbal medicine residue and methyl sulfonyl methane on the growth performance and meat quality of ducks

Jin-Woo Hwang, Sun Hee Cheong, Yon-Suk Kim, Jae-Woong Lee, Bo-Im You, Sang-Ho Moon, Byong-Tae Jeon and Pyo-Jam Park 948–957

Environment, Production Systems and Management

Integrated parasite management improves control of gastrointestinal nematodes in lamb production systems in a high summer rainfall region, on the Northern Tablelands, New South Wales

M. L. Dever, L. P. Kahn and E. K. Doyle 958–968

Growth is impeded by gastrointestinal nematodes in weaned rather than suckling meat-breed lambs in a high summer rainfall region, on the Northern Tablelands, New South Wales

M. L. Dever, L. P. Kahn and E. K. Doyle 969–974

In situ and *ex situ* assessment of a native Hungarian chicken breed for its potential conservation and adaptation in the subtropics

K. D. T. Dong Xuan, T. N. Lan Phuong, P. D. Tien, P. T. M. Thu, N. Q. Khiem, D. T. Nhung, N. T. Muoi, N. T. K. Oanh, P. T. K. Thanh and I. T. Szalay 975–980

Meat Science and Product Quality

Effect of marbling and chilled ageing on meat-quality traits, volatile compounds and sensory characteristics of beef *longissimus dorsi* muscle

Hoa Van Ba, Cynthia M. Oliveros, KyoungMi Park, Dashmaa Dashdorj and Inho Hwang 981–992

Thermal and physicochemical properties of red tilapia (*Oreochromis niloticus*) surimi gel as affected by microbial transglutaminase

Fariba Zad Bagher Seighalani, Jamilah Bakar, Nazamid Saari and Ali Khoddami 993–1000
