

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 58, Issue 2, 2018, 207–402

Genetics and Genomics

Genetic and phenotypic parameters for reproduction, production and bodyweight traits in Australian fine-wool Merino sheep
S. Dominik and A. A. Swan 207–212

Genetic analysis of docility score of Australian Angus and Limousin cattle
S. F. Walkom, M. G. Jeyaruban, B. Tier and D. J. Johnston 213–223

Detection of candidate genes for growth and carcass traits using genome-wide association strategy in Chinese Simmental beef cattle
Wengang Zhang, Lingyang Xu, Huijiang Gao, Yang Wu, Xue Gao, Lupei Zhang, Bo Zhu, Yuxin Song, Jinshan Bao, Junya Li and Yan Chen 224–233

Genetic parameters for fatty acids in intramuscular fat from feedlot-finished Nelore carcasses
Carolyn Aboujaoude, Angélica Simone Cravo Pereira, Fabieli Louise Braga Feitosa, Marcos Vinicius Antunes de Lemos, Hermenegildo Lucas Justino Chiaia, Mariana Piatto Berton, Elisa Peripolli, Rafael Medeiros de Oliveira Silva, Adrielle Mathias Ferrinho, Lenise Freitas Mueller, Bianca Ferreira Olivieri, Lucia Galvão de Albuquerque, Henrique Nunes de Oliveira, Humberto Tonhati, Rafael Espigolan, Rafael Tonussi, Daniel Mansan Gordo, Ana Fabricia Braga Magalhaes and Fernando Baldi 234–243

Physiology, Endocrinology and Reproduction

Priming anoestrous Corriedale ewes with progesterone and gonadotrophin-releasing hormone causes cervical tissue remodelling due to metalloproteinase-2 (MMP-2) activity
M. Rodríguez-Piñón, C. Tasende, P. Genovese, A. Bielli, D. Casuriaga and E. G. Garófalo 244–251

Effects of boar variability on comet-detected sperm-DNA damage following cryopreservation
L. Fraser, Ł. Zasiadczyk and C. S. Pareek 252–261

Nutrition and Metabolism

Nitrate supplementation has marginal effects on enteric methane production from *Bos indicus* steers fed Flinders grass (*Iseilema* spp.) hay, but elevates blood methaemoglobin concentrations
N. Tomkins, A. J. Parker, G. Hepworth and M. J. Callaghan 262–270

Feed Quality, Nutritional Value and Toxicology

Effects of phytase, calcium source, calcium concentration and particle size on broiler performance, nutrient digestibility and skeletal integrity
E. J. Bradbury, S. J. Wilkinson, G. M. Cronin, C. L. Walk and A. J. Cowieson 271–283

Utilisation of giant taro (*Alocasia macrorrhiza*) root meal with or without coconut oil slurry by layers and broilers
Siaka S. Diarra 284–290

The impacts of dietary *Nigella sativa* meal and Avizyme on growth, nutrient digestibility and blood metabolites of meat-type quail
M. E. Abd El-Hack, A. I. Attia, M. Arif, R. N. Soomro and M. A. Arain 291–298

Effects of substituting corn with steam-flaked sorghum on growth, digestion and blood metabolites in young cattle fed feedlot diets
C. Wang, Q. Liu, G. Guo, W. J. Huo, Y. L. Zhang, C. X. Pei, S. L. Zhang, W. Z. Yang and H. Wang 299–306

Behaviour, Well-being and Health

Frequent handling of grazing beef cattle maintained under the rotational stocking method improves temperament over time
Maria C. Ceballos, Karen Camille R. Góis, Aline C. Sant'Anna and Mateus J. R. Paranhos da Costa 307–313

Continued on next page

Effect of weaning age and milk feeding level on pre- and post-weaning growth performance of Sahiwal calves

Ahsan Tasawar Cheema, Shaukat Ali Bhatti, Ghulam Akbar, Peter C. Wynn, Ghulam Muhammad, Hassan Mahmood Warriach and David McGill 314–321

Effects of a single injection of Flunixin meglumine or Carprofen postpartum on haematological parameters, productive performance and fertility of dairy cattle

M. Giammarco, I. Fusaro, G. Vignola, A. C. Manetta, A. Gramenzi, M. Fustini, A. Palmonari and A. Formigoni 322–331

Environment, Production Systems and Management

Productivity and profitability of forage options for beef production in the subtropics of northern Australia

M. K. Bowen, F. Chudleigh, S. Buck and K. Hopkins 332–342

Predicting nuisance fly outbreaks on cattle feedlots in subtropical Australia

R. M. Godwin, D. G. Mayer, G. W. Brown, D. M. Leemon and P. J. James 343–349

Meat Science and Product Quality

Differences between sexes, muscles and aging times on the quality of meat from Wagyu × Angus cattle finished in feedlot

R. M. S. Carvalho, C. A. Boari, S. D. J. Villela, A. V. Pires, M. H. F. Mourthé, F. R. Oliveira, M. A. Dumont, R. P. Gontijo, A. R. Lobo-Jr and P. G. M. A. Martins 350–357

Fatty acid profile of ghee derived from two genotypes (cattle–yak vs yak) grazing different alpine Himalayan pasture sites

S. Marquardt, S. R. Barsila, S. L. Amelchanka, N. R. Devkota, M. Kreuzer and F. Leiber 358–368

The effects of rearing diet, sex and age on the fatty acid profile of Chios lambs

E. Tsiplakou, G. Papadomichelakis, D. Sparaggis, K. Sotirakoglou, M. Georgiadou and G. Zervas 369–375

Quality of meat from three muscles of farmed fallow deer (*Dama dama*)

Marta Bykowska, Marek Stanisiz, Agnieszka Ludwiczak, Joanna Składanowska and Piotr Ślósarz 376–384

Pre-slaughtering factors related to bruises on cattle carcasses

F. S. Mendonça, R. Z. Vaz, F. F. Cardoso, J. Restle, F. N. Vaz, L. L. Pascoal, F. A. Reimann and A. A. Boligon 385–392

Rural Development

Socioeconomic impact of forage-technology adoption by smallholder cattle farmers in Cambodia

K. Ashley, J. R. Young, P. Kea, S. Suon, P. A. Windsor and R. D. Bush 393–402
