Perspective

Benchmarking to drive improvements in extensive beef cattle welfare: a perspective on developing an Australian producer-driven system

Hannah E. Salvin, Jessica E. Monk, Linda M. Cafe and Caroline Lee 1539–1547

Comment

Delineating the extra-nutritional properties of nutrients: characterisation with amino acids

Theo A. T. G. van Kempen and Michael R. Murphy 1548–1550

Genetics and Performance

Selection criteria for frame score and its association with growth-, reproductive-, feed efficiency- and carcass-related traits in Nellore cattle

M. P. Negreiros, E. Peripolli, R. Espigolan, M. Londoño-Gil, J. D. Rodriguez, L. Brunes, C. U. Magnabosco, N. C. Guimarães, R. D. Sainz, A. S. C. Pereira, R. B. Lobo and F. Baldi 1551–1562

Physiology, Endocrinology and Reproduction

Construction of the miRNA–mRNA regulatory networks for both the cartilage formation and remodel zones in the antler tip in sika deer (*Cervus nippon*)

Ke Wang, Ye Zhao, Lele Cong, Hongyan Sun, Hengxing Ba, Chunyi Li, Yimin Wang and Xianling Cong 1563–1572

Effects of melatonin in the maturation medium on developmental competence of bovine oocytes exposed to heat shock and on embryo quality

P. H. Lima, J. C. Souza, A. M. Borges, R. R. Lima, J. Jasmin, A. C. Leite, E. B. M. Silva, L. R. Faria and N. G. Alves 1573–1580

Effects of age at first breeding and dietary energy levels during the rearing period of replacement gilts on reproductive performance

Joseph Moturi, Abdolreza Hosseindoust, Sang Hun Ha, Habeeb Tajudeen, Jun Young Mun and Jin Soo Kim 1581–1589

Metabolism and Feed Additives

Partial cholecalciferol replacement with 1,25-dihydroxycholecalciferol glycoside in diets for piglets

Heloise Trautenmüller, Jansler Luiz Genova, Liliana Bury de Azevedo dos Santos, Isabela Ferreira Leal, Gleicianny de Brito Santos, Paulo Evaristo Rupolo, Ricardo Vianna Nunes, Eduardo Rael de Oliveira and Paulo Levi de Oliveira Carvalho 1590–1599

Production Systems

Effect of litter system and nest box type on egg production and performance of Ross 308 broiler breeders

Marcin Wegner, Dariusz Kokoszynski and Milena Biegniewska 1600–1606

Meat Science and Product Quality

Meat production traits of Angora goats. 2. Meat quality characteristics and fatty acid composition of meat from intact and castrated kids

Halil Erol and Necmettin Ünal 1607–1617

Feeding extruded linseed or soybean and hay free-choice to Rubia Gallega young heifers does not substantially alter health-enhancing fatty acids in meat

Laura González, Teresa Moreno, Esperanza Bispo and Michael E. R. Dugan 1618–1629

Modelling Technology

Comparison of two software programs for fitting one- and two-compartment age-dependent non-linear digestion models for ruminants: empirical data

S. A. Gunter, M. S. Gadberry, K. P. Coffey and C. A. Moffet

1630–1638
