Perspectives on Animal Biosciences

Future application of an attention bias test to assess affective states in sheep

Jessica E. Monk, Dana L. M. Campbell and Caroline Lee

523–534

Genomics and Reproduction

Oxidative stability of milk and expression of oxidative stress response, lipogenic-related, and IGF-1 genes in early-lactation cows supplemented with peanut and sunflower oils

Marcelo de Oliveira Alves Rufino, Márcia Saladini Vieira Salles, João Alberto Negrão, Antonio Leandro Chaves Gurgel, João Luiz Pratti Daniel, Luciano Soares de Lima, Francilaine Eloise de Marchi, Luiz Carlos Roma Júnior and Geraldo Tadeu dos Santos

535–543

Nutrition and Reproduction

Phosphorus supplementation improves the growth and reproductive performance of female Brahman cattle grazing phosphorus-deficient pastures in the Victoria River District, Northern Territory, Australia

T. J. Schatz, K. D. McCosker and C. Heeb

544–559

Effects of maternal dietary selenium sources on growth performance, meat quality, antioxidant status and the immune response of broiler progeny

Shahzad Ashraf, Shaukat Ali Bhatti, Muhammad Yousaf, Najam Us Sahar and Muhammad Shoaib

560–569

Feed Additives and Metabolism

Nutrients digestibility, microbial protein synthesis and rumen and blood parameters in sheep feeding grape pomace treated with *Neurospora sitophila*

Mohammad Hasanzadeh, Omid Dayani, Reza Tahmasbi, Amin Khezri and Poorya Dadvar

570–578

Effect of diurnal feeding times and sources of energy supplementation to optimise rearing of F1 Angus × Nellore young bulls

Andressa Scholz Berça, Abmael da Silva Cardoso, Natália Vilas Boas Fonseca, Dennis P. Poppi, Luís Orlando Tedeschi, Isabela Rita Coletti Micheletti, Willi Rocha Meireles, Ana Cláudia Ruggieri and Ricardo Andrade Reis

579–595

Inclusion of guanidinoacetic acid in the diet of laying hens at late phase of feeding

Jeniffer G. F. Pimenta, Hítalo J. S. Barbosa, Matheus G. Fraga, Marcela V. Triginelli, Bruno T. A. Costa, Matheus A. Ferreira, Michele O. Mendonça, Silvana V. Cançado and Leonardo J. C. Lara

596–603

Meat Science and Product Quality

Relationship of pig carcass grade with the amount of pork belly estimated with AutoFom III

Eunyoung Ko, Yunhwan Park, Kwangwook Park, Changhyun Woo, Sanghun Park, Yun-a Kim, Gyutae Park, Sehyuk Oh, Jaeyoung Kim and Jungseok Choi

604–609

Physicochemical, volatile compounds, oxidative and sensory profiles of the *Longissimus* muscle of six South African sheep breeds

Bosede R. Olagbegi, Obert C. Chikwanha, Chenaimoyo L. F. Katiyatiya, Jeannine Marais, Annelin H. Molotsi, Kennedy Dzama and Cletos Mapiye

610–622
