Perspectives on Animal Biosciences

Indicators of functional integrity in production animals

I. G. Colditz, E. G. Smith, A. B. Ingham and S. Dominik

825–843

Genetics and Genomics

Effect of minor allele frequency and density of single nucleotide polymorphism marker arrays on imputation performance and prediction ability using the single-step genomic Best Linear Unbiased Prediction in a simulated beef cattle population

Juan Diego Rodríguez, Elisa Peripolli, Marisol Londoño-Gil, Rafael Espigolan, Raysildo Barbosa Lôbo, Rodrigo López-Correa, Ignacio Aguilar and Fernando Baldi

844–852

Physiology, Endocrinology and Reproduction

Effects of supplementation with different concentrations of L-citrulline on the plasma amino acid concentration, reproductive hormone concentrations, antioxidant capacity, and reproductive performance of Hu ewes

Yan Ma, Guodong Zhao, Caidie Wang, Min An, Chen Ma, Zhiqiang Liu, Jianguo Wang and Kailun Yang

853–861

Feed Quality and Nutritional Value

Partial replacement of maize with cassava root–moringa leaf and vegetable oil concentrates in broiler finisher diets

Tigris Havea, Siaka Diarra and Robert A. E. Pym

862–868

Health and Biosecurity

Acclimation of replacement gilts to *Mycoplasma hyopneumoniae*: a case study of fogging with an aerosol inoculum

Ricardo Y. Nagae, David D. E. S. N. Barcellos, Rafael R. Ulguim, Taís R. Michaelsen, João P. Zuffo, Mariana S. Goslar, Giovanni R. Michelleto, Jonatas Wolf, Fernando P. Bortolozzo and Karine L. Takeuti

869–877

Production Systems, Environment and Management

Lime, phosphorus and stocking rate of an extensively managed permanent pasture affect feed-on-offer, sheep growth rate, carrying capacity and wool production

Mark R. Norton, Denys L. Garden, Maheswaran Rohan, Beverley A. Orchard, Philip Armstrong and Trent Brassil

878–894

Meat Science and Product Quality

Cumin oil as a natural preservative for prolonging shelf-life of chicken meat emulsion at refrigeration temperature

Shardanand Verma, Akhilesh K. Verma, Pramila Umaraw, V. P. Singh, Varsha Vihan and Chirag Singh

895–908

Technology and Education

Deep learning method for rapidly estimating pig body size

Yue Wang, Gang Sun, Xiaoyue Seng, Haibo Zheng, Hang Zhang and Tonghai Liu

909–923

Corrigendum

Corrigendum to: Effects of supplementation with different concentrations of L-citrulline on the plasma amino acid concentration, reproductive hormone concentrations, antioxidant capacity, and reproductive performance of Hu ewes

Yan Ma, Guodong Zhao, Caidie Wang, Min An, Chen Ma, Zhiqiang Liu, Jianguo Wang and Kailun Yang

924–924
