AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

Published by the Commonwealth Scientific and Industrial Research Organization under the general direction of the Editorial Board (Dr. N. S. Noble (Chairman), Professor J. S. Anderson, Professor Sir Macfarlane Burnet, Professor L. H. Martin, and Professor J. G. Wood). A medium for the publication of results of original scientific research in the biological sciences with special emphasis on the experimental phases. Volumes 1 to 5 issued as the Australian Journal of Scientific Research, Series B: Biological Sciences

Issued quarterly, 30/- per annum

EDITORIAL ADVISORY COMMITTEE

Chairman and Editor: Dr. N. S. Noble
Members: Professor Sir Macfarlane Burnet
          Professor W. P. Rogers
          Professor J. G. Wood

All enquiries and manuscripts should be forwarded to:

The Editor,
Australian Journal of Biological Sciences,
Commonwealth Scientific and Industrial Research Organization,
314 Albert Street, East Melbourne, C.2., Victoria

</tr>
<tr>
<td>Subspeciation in <em>Trifolium subterraneum</em>. By F. H. W. Morley, R. D. Brock, and C. I. Davern</td>
<td>1</td>
</tr>
<tr>
<td>Linkage in <em>Linum usitatissimum</em> and in <em>Melampsora lini</em> between Genes Controlling Host-Pathogen Reactions. By G. M. E. Mayo</td>
<td>18</td>
</tr>
<tr>
<td>Host Pathogen Relations in Powdery Mildew of Barley. II. Changes in Respiratory Pattern. By Adele Millerd and K. Scott</td>
<td>37</td>
</tr>
<tr>
<td>Some Interactions between Plant Roots and Pathogenic Soil Fungi. By A. Kerr</td>
<td>45</td>
</tr>
<tr>
<td>The Electric Properties of Plant Cell Membranes. I. The Electric Capacitance of Suspensions of Mitochondria, Chloroplasts, and <em>Chlorella</em> Sp. By A. B. Hope</td>
<td>53</td>
</tr>
<tr>
<td>Effect of NaCl in Water Culture on the Ion Uptake and Growth of <em>Atriplex hastata</em> L. By R. F. Black</td>
<td>67</td>
</tr>
<tr>
<td>Enzymic Activities of Sub-cellular Particles from Leaves. I. The Occurrence of Mitochondria in Green Leaves of the Pea Plant. By R. M. Smillie</td>
<td>81</td>
</tr>
<tr>
<td>The Oxidation of Hydrocarbons by Soil Bacteria. I. Morphological and Biochemical Properties of a Soil Diphtheroid Utilizing Hydrocarbons. By J. N. Ladd</td>
<td>92</td>
</tr>
<tr>
<td>The Role of Serum in the Nutrition of <em>Asterococcus mycoides</em>. By A. W. Rodwell</td>
<td>105</td>
</tr>
<tr>
<td>The Rate of Digestion of Human Blood by Certain Species of Mosquitoes. By A. K. O’Gower</td>
<td>125</td>
</tr>
<tr>
<td>The Influence of Environmental Temperature on the Level of Plasma Antidiuretic Substances in the Rat. By Kathleen W. Robinson and W. V. MacFarlane</td>
<td>130</td>
</tr>
<tr>
<td>Micromethod for the Estimation of Glycogen in the Genital Organs of the Mouse. By Judith H. Balmain, J. D. Biggers, and P. J. Claringbold</td>
<td>139</td>
</tr>
<tr>
<td>Glycogen, Wet Weight, and Dry Weight Changes in the Vagina of the Mouse. By Judith H. Balmain, J. D. Biggers, and P. J. Claringbold</td>
<td>147</td>
</tr>
<tr>
<td>Non-utilization of Acetate and Utilization of Glucose by the Brain of the Sheep. By G. L. McClymont and B. P. Setchell</td>
<td>184</td>
