

AUSTRALIAN JOURNAL OF BOTANY

A journal for papers in ecology and ecophysiology; conservation biology and biodiversity; forest biology and management; cell and molecular biology; palaeobotany; reproductive biology and genetics; mycology and pathology; and structure and development

Contents Volume 55 Issue 7 2007

Conservation Biology and Biodiversity

Chloroplast DNA phylogeography reveals the island colonisation route of *Eucalyptus urophylla* (Myrtaceae).
Kitt G. Payn, William S. Dvorak and Alexander A. Myburg 673–683

Floral- and leaf-character variation in waratah (*Telopea speciosissima*, family Proteaceae), with reference to conservation and horticultural improvement.
C. A. Offord 684–691

Ecology and Ecophysiology

Quantitative assessment of stand condition and its relationship to physiological stress in stands of *Eucalyptus camaldulensis* (Myrtaceae).
Shaun C. Cunningham, Jennifer Read, Patrick J. Baker and Ralph Mac Nally 692–699

A comparison of tree water use in two contiguous vegetation communities of the seasonally dry tropics of northern Australia: the importance of site water budget to tree hydraulics.
G. Kelley, A. P. O'Grady, L. B. Hutley and D. Eamus 700–708

Fire regime (recency, interval and season) changes the composition of spinifex (*Triodia* spp.)-dominated desert dunes.
Boyd R. Wright and Peter J. Clarke 709–724

Reproductive phenology of *Euterpe edulis* (Arecaceae) along a gradient in the Atlantic rainforest of Brazil.
E. R. Castro, M. Galetti and L. P. C. Morellato 725–735

Response of rock-outcrop and fringing vegetation to disturbance by fire and drought.
Andrew Benwell 736–748

Structure and Development

Morphological and developmental investigations of the underground system of *Erythroxylum* species from Brazilian cerrado.
Alexandre Antonio Alonso and Silvia Rodrigues Machado 749–758

Forest Biology and Management

Contrasting ecotypic differentiation for growth and survival in *Pinus canariensis*.
Rosana López, Ami Zehavi, José Climent and Luis Gil 759–769
