

AUSTRALIAN JOURNAL OF BOTANY

A journal for papers in ecology and ecophysiology; conservation biology and biodiversity; forest biology and management; cell and molecular biology; palaeobotany; reproductive biology and genetics; mycology and pathology; and structure and development

Contents Volume 57 Issue 7 2009

Conservation Biology and Biodiversity

Long-term changes in understorey vegetation in the absence of wildfire in south-east dry sclerophyll forests.

Trent D. Penman, D. L. Binns, T. E. Brassil, R. J. Shiels and Ruth M. Allen 533–540

Forest Biology and Management

Historical forest survey data from Eucalyptus–Callitris forests: a valuable resource for long-term vegetation studies.

Robyn K. Whipp, Ian D. Lunt, Andrew Deane and Peter G. Spooner 541–555

Ecology and Ecophysiology

The early effects of fire and grazing on bryophytes and lichens in tussock grassland and hummock sedgeland in north-eastern Tasmania.

Anneka V. Ferguson, Emma J. Pharo, Jamie B. Kirkpatrick and Jon B. Marsden-Smedley 556–561

Effects of sudden exposure to high light levels on two tree fern species *Dicksonia antarctica* (Dicksoniaceae) and *Cyathea australis* (Cyatheaceae) acclimated to different light intensities.

Liubov Volkova, Lauren T. Bennett and Michael Tausz 562–571

Is ‘vegetation thickening’ occurring in Queensland’s mulga lands? A 50-year aerial photographic analysis.

G. Bradd Witt, Rebecca A. Harrington and Manda J. Page 572–582

An assessment of the relationship between tree-ring counts and basal girth of high-altitude populations of *Eucalyptus pauciflora* (Myrtaceae).

Libby Rumpff, Seraphina C. Cutler, Ian Thomas and John W. Morgan 583–591

Reproductive Biology and Genetics

Potential for using *Vasconcellea parviflora* as a bridging species in intergeneric hybridisation between *V. pubescens* and *Carica papaya*.

C. M. O’Brien and R. A. Drew 592–601

Floral morphogenesis and proliferation in *Poa labillardieri* (Poaceae).

Nabil M. Ahmad, Peter M. Martin and John M. Vella 602–618

Structure and Development

Morphoanatomy and development of leaf secretory structures in *Passiflora amethystina* Mikan (Passifloraceae).

Diego Ismael Rocha, Luzimar Campos da Silva, Vânia Maria Moreira Valente, Dayana Maria Teodoro Francino and Renata Maria Strozi Alves Meira 619–626

Corrigendum 627
