

# AUSTRALIAN JOURNAL OF CHEMISTRY

AN INTERNATIONAL JOURNAL FOR CHEMICAL SCIENCE

Volume 63    Number 3    2010

## CONTENTS

### RESEARCH FRONT: Molecular Modelling

Guest Editors: Sean Smith and Qiao Sun

#### Foreword

Molecular Modelling: All the Way from Atomistic Structure to Function in Complex Systems  
*S. C. Smith, Q. Sun*    343

#### Highlight

Modelling Copper Binding to the Amyloid- $\beta$  Peptide in Alzheimer's Disease  
*V. C. Epa, V. A. Streltsov, J. N. Varghese*    345

#### Full Papers

Interactions of Visinin-like Proteins with Phospho-inositides  
*K.-H. Braunewell, B. Paul, W. Altarache-Xifro, C. Noack, K. Lange, A. Hofmann*    350

Applying Bi-directional Jarzynski Methods to Quasi-equilibrium States  
*J. C. Reid, S. R. Williams, D. J. Searles*    357

Structural and Relaxation Effects in Proton Wire Energetics: Model Studies of the Green Fluorescent Protein Photocycle  
*Q. Sun, S. Wang, H. Zhang, Z. Li, C. Pifisterer, S. Fischer, S. Nanbu, S. C. Smith*    363

First-Principle Study of Atomic Hydrogen Interaction with a Fluorinated Corannulene Radical  
*H. Zhang, S. C. Smith, S. Nanbu, H. Nakamura*    371

Estimating Relative Disulfide Energies: An Accurate *Ab Initio* Potential Energy Surface  
*N. L. Haworth, J. Y. Liu, S. W. Fan, J. E. Gready, M. A. Wouters*    379

Molecular Modelling of Ground- and Excited-States Vibrations in Organic Conducting Devices: Hexakis(*n*-hexyloxy)triphenylene (HAT<sub>6</sub>) as Case Study  
*M. Zbiri, M. R. Johnson, L. Haverkate, F. M. Mulder, G. J. Kearley*    388

Binding Mode Prediction of PDE4 Inhibitors: A Comparison of Modelling Methods  
*D. S. Neale, P. E. Thompson, P. J. White, D. K. Chalmers, E. Yuriev, D. T. Manallack*    396

Allosteric Conformational Transition in Adenylate Kinase: Dynamic Correlations and Implication for Allostery  
*M. S. Liu, B. D. Todd, R. J. Sadus*    405

### REGULAR PAPERS

#### Review

Computational Photobiology and Beyond  
*I. Schapiro, M. N. Ryazantsev, W. J. Ding, M. M. Huntress, F. Melaccio, T. Andruniow, M. Olivucci*    413

#### Highlights

Adsorption and Dipole Surface Orientational Order at Liquid Surfaces  
*B. M. Law, J.-H. Cho, J. Carpenter, D. Smith*    430

Concentration Depth Profiles of Inorganic Ions at Liquid Surfaces  
*G. Andersson*    434

#### Full Papers

Synthesis of the Leu-Trp Component of the Celogentin Family of Cyclic Peptides Through a C-H Activation-Cross-Coupling Strategy  
*B. T. Y. Li, J. M. White, C. A. Hutton*    438

Spiroheterocycles via Regioselective Cycloaddition Reactions of Nitrile Oxides with 5-Methylene-1*H*-pyrrol-2(5*H*)-ones  
*N. J. Beattie, C. L. Francis, A. J. Liepa, G. P. Savage*    445

Structure and Characterization of a Novel 3D Lead Phosphonate Metal-Organic Framework with Cationic Layer Based on Weak Pb-O(N) Contact  
*K.-R. Ma, D.-J. Zhang, Y.-L. Zhu*    452

On the Solid-State Isomerization of Terpinolene Tetrabromide  
*P. V. Bernhardt, R. M. Carman, T. T. Le*    458

Coordination Polymers with a Bulky Perylene-Based Tetracarboxylate Ligand: Syntheses, Crystal Structures, and Luminescent Properties  
*C.-S. Liu, M. Hu, S.-T. Ma, Q. Zhang, L.-M. Zhou, L.-J. Gao, S.-M. Fang*    463

Theoretical Investigation on Structures and Stabilities of CuXe<sub>n</sub><sup>Z</sup> (*n* = 1–3, *Z* = –1, 0, +1) Clusters  
*L. Xinying, W. Senfeng, Z. Chengfang, Z. Yongfang*    474

Structural Variation and Magneto-Structural Correlation in Two New Dinuclear Bis( $\mu_2$ -Phenoxo)-Bridged Cu<sup>II</sup> Schiff-Base Complexes: Catalytic Potential for the Peroxidative Oxidation of Cycloalkanes  
*S. Basak, S. Sen, P. Roy, C. J. Gómez-García, D. L. Hughes, R. J. Butcher, E. Garribba, S. Mitra*    479

An Alternative Platform for the Assessment of Hückel and Möbius Transition States in Concerted Reactions

*K. H. R. Hennigar, R. F. Langler* 490

1,4,7-Tricarboxymethyl-1,4,7-triazacyclononane Copper Catalyzed Oxidative Polymerization to Form Poly(2,6-dimethyl-1,4-phenylene oxide) in Water

*S. Pant, M. T. W. Hearn, K. Saito* 502

A Simple One-Pot, Three Component Synthesis of 3-Arylpyrimido[4,5-*c*]pyridazine-5,7(6*H*,8*H*)-diones and their Sulfur Analogues as Potential Monoamine Oxidase Inhibitors

*M. Rimaz, J. Khalafy, N. N. Pesyan, R. H. Prager* 507

Phosphonium and Ammonium Ionic Liquids with Aromatic Anions: Synthesis, Properties, and Platinum Extraction

*A. Stojanovic, D. Kogelnig, L. Fischer, S. Hann, M. Galanski, M. Groessl, R. Krachler, B. K. Keppler* 511

### Communications

On the Superhydrophobic Properties of Crystallized Stearic Acid

*K. R. Joseph, C. Neto* 525

Asymmetric Synthesis of a Hydroxylated Nine-membered Lactone from Tartaric Acid using the Claisen Rearrangement

*L. S.-M. Wong, K. A. Turner, J. M. White, A. B. Holmes, J. H. Ryan* 529
