Review

Kernel brown centres in macadamia: a review.

M. D. Le Lagadec

1117

Crop/pasture agronomy and physiology

Fruit thinning using NAA shows potential for reducing biennial bearing of 'Barnea' and 'Picual' oil olive trees.

Arnon Dag, Amnon Bustan, Avishai Avni, Shimon Lavee, Joseph Riov

1124

Application of abscisic acid promotes yield in field-cultured soybean by enhancing production of carbohydrates and their allocation in seed.

Claudia Travaglia, Herminda Reinoso, Rubén Bottini

1131

Improving estimates of water-limited yield of wheat by accounting for soil type and within-season rainfall.

Y. M. Oliver, M. J. Robertson, P. J. Stone, A. Whitbread

1137

A novel approach to planting grass-legume pastures in the mixed farming zone of southern inland Queensland, Australia.

A. M. Whitbread, C. A. Hall, B. C. Pengelly

1147

Potential of deficit irrigation to increase marginal irrigation response of perennial ryegrass (*Lolium perenne* L.) on Tasmanian dairy farms.

R. P. Rawnsley, B. R. Cullen, L. R. Turner, D. J. Donaghy, M. Freeman, K. M. Christie

1156

Crop/pasture improvement and protection

Selection among genotypes in final stage sugarcane trials: effects of time of year.

A. R. Rattey, P. A. Jackson, D. M. Hogarth, T. A. McRae

1165

Selecting for drought tolerance among Australian green couch grasses (*Cynodon* spp.).

Yi Zhou, Chris Lambrides, Ryan Kearns, Changrong Ye, Ninh Cao, Shu Fukai

1175

Persistence, productivity, nutrient composition, and aphid tolerance of *Cullen* spp.

R. C. Hayes, G. D. Li, B. S. Dear, A. W. Humphries, J. R. Tidd

1184

Assessment of genetic diversity in Australian canola (*Brassica napus* L.) cultivars using SSR markers.

J. Wang, S. Kaur, N. O. I. Cogan, M. P. Dobrowolski, P. A. Salisbury, W. A. Burton,

R. Baillie, M. Hand, C. Hopkins, J. W. Forster, K. F. Smith, G. Spangenberg

1193

Improving the accuracy of selection for late maturity α -amylase in wheat using multi-phase designs.

D. G. Butler, M. K. Tan, B. R. Cullis

1202

Resistance to the root-lesion nematode *Pratylenchus thornei* in wheat landraces and cultivars from the West Asia and North Africa (WANA) region.

J. P. Thompson, M. M. O'Reilly, T. G. Clewett

1209
