

## Supplementary Material

### Charles Angas Hurst 1923–2011

Alan Carey<sup>A</sup> and M. A. Lohe<sup>B,C</sup>

<sup>A</sup>Mathematical Sciences Institute, Australian National University, Canberra, ACT 0200, Australia.

<sup>B</sup>Department of Physics, University of Adelaide, SA 5001, Australia.

<sup>C</sup>Corresponding author. Email: max.lohe@adelaide.edu.au

### Charles Angas Hurst: Bibliography

#### 1952

1. **Hurst**, C. A., ‘Analytic behaviour of the S-matrix of the field of three scalar particles with scalar interaction as a function of the coupling constant’, (dissertation, Trinity College, University of Cambridge).
2. **Hurst**, C. A., ‘Perturbation Expansions in Field Theory and Other Topics’, 1952, University of Cambridge (PhD dissertation).
3. **Hurst**, C. A., ‘The graphs for the kernel of the Bethe-Salpeter equation’, *Phys. Rev.* 85 (1952), 920.
4. **Hurst**, C. A., ‘An example of a divergent perturbation expansion in field theory’, *Proc. Camb. Phil. Soc.* 48 (1952), 625–639.
5. **Hurst**, C. A., ‘The enumeration of graphs in the Feynman-Dyson technique’, *Proc. Roy. Soc. London A*214 (1952), 44–61.

#### 1957

6. Green, H. S. and **Hurst**, C. A., ‘Parity mixtures and decay processes’, *Nucl. Phys.* 4 (1957), 589–598.

#### 1960

7. **Hurst**, C. A. and Huxley, L. G. H., ‘The distribution of ions formed by attachment of electrons moving in a steady state of motion through a gas’, *Aust. J. Phys.* 13 (1960), 21–26.
8. Green, H. S. and **Hurst**, C. A., ‘New solution of the Ising problem for a rectangular lattice’, *J. Chem. Phys.* 33 (1960), 1059–1062.

#### 1961

9. **Hurst**, C. A., ‘On the equivalence of current loops and magnetic shells’, *Aust. J. Phys.* 14 (1961), 188–190.
10. **Hurst**, C. A., ‘Acceleration and the “clock paradox”’, *J. Austral. Math. Soc.* 2 (1961), 120–121.

11. **Hurst**, C. A., 'The supplementary condition in quantum electrodynamics', II *Nuovo Cimento XXI* (1961), 274–293.

#### 1963

12. **Hurst**, C. A., 'Solution of plane Ising lattices by the Pfaffian method', *J. Chem. Phys.* 38 (1963), 2558–2571.

#### 1964

13. **Hurst**, C. A., 'Applicability of the Pfaffian method to combinatorial problems on a lattice', *J. Math. Phys.* 5 (1964), 90–100.
14. **Hurst**, C. A. and Jordine, E. St. A., 'Role of electrostatic energy barriers in the expansion of lamellar crystals', *J. Chem. Phys.* 41 (1964), 2735–2745.

#### 1965

15. **Hurst**, C. A., 'Relation between the Onsager and Pfaffian methods for solving the Ising problem. I. The rectangular lattice', *J. Math. Phys.* 6 (1965), 11–18.
16. **Hurst**, C. A. and Liley, B. S., 'A theoretical analysis of the Townsend-Huxley swarm technique for electrons', *Aust. J. Phys.* 18 (1965), 521–540.
17. Crompton, R. W., Liley, B. S., McIntosh, A. I. and **Hurst**, C. A., 'The extension of swarm techniques to the measurement of electron energy for conditions near electrical breakdown', *Proc. 7th international conference on phenomena in ionized gases*, Vol. I (Belgrade 1965) 86–91.

#### 1966

18. **Hurst**, C. A., 'Relation between the Onsager and Pfaffian methods for solving the Ising problem. II. The general lattice', *J. Math. Phys.* 7 (1966), 81–87.
19. **Hurst**, C. A., 'New approach to the Ising problem', *J. Math. Phys.* 7 (1966), 305–310.
20. Blatt, J. M. and **Hurst**, C. A., 'Particles with 2 states and Lorentz transformations', *J. Austral. Math. Soc.* VI, part 2, (1966), 221–222.

#### 1967

21. Kur şunog'lu, B. and **Hurst**, C. A., 'Space-time and origin of internal symmetries', *Phys. Rev.* 155 (1967), 1663–1671.
22. Gibberd, R. W. and **Hurst**, C. A., 'New approach to the Ising model. II', *J. Math. Phys.* 8 (1967), 1427–1429.

#### 1968

23. **Hurst**, C. A., 'Charge quantization and non-integrable Lie algebras', *Annals of Phys.* 50 (1968), 51–75.
24. **Hurst**, C. A., 'Charge quantization and non-integrable Lie algebras', *Symmetry Principles at High Energy, Fifth Coral Gables Conference*, (W. A. Benjamin, New York, 1968), 105–113.

#### 1969

25. Mills, R. G. J. and **Hurst**, C. A., 'Generalized triangular Ising lattice', *J. Math. Phys.* 10 (1969), 1531–1540.
26. **Hurst**, C. A. and Sherman, S., 'Griffiths' theorems for the ferromagnetic Heisenberg model', *Phys. Rev. Lett.* 22 (1969), 1357–1358.

### 1970

27. Griffiths, R. B., **Hurst**, C. A. and Sherman, S., 'Concavity of magnetization of an Ising ferromagnet in a positive external field', *J. Math. Phys.* 11 (1970), 790–795.
28. **Hurst**, C. A. and Sherman, S., 'Correlation inequalities for Heisenberg ferromagnets', *J. Math. Phys.* 11 (1970), 2473–2480.

### 1971

29. Lohe, M. A. and **Hurst**, C. A., 'The boson calculus for the orthogonal and symplectic groups', *J. Math. Phys.* 12 (1971), 1882–1889.

### 1972

30. McGuire, J. B. and **Hurst**, C. A., 'The scattering of three impenetrable particles in one dimension', *J. Math. Phys.* 13 (1972), 1595–1607.

### 1973

31. Lohe, M. A. and **Hurst**, C. A., 'Relation between the boson calculus and Zhelobenko's method', *J. Math. Phys.* 14 (1973), 1955–1958.

### 1974

32. Bretag, A. H., **Hurst**, C. A. and Kerr, D. I. B., 'The Starzak membrane conductance model: a comment', *J. Theor. Biol.* 48 (1974), 477–479.

### 1975

33. Gray, D. A. and **Hurst**, C. A., 'Explicit representations of a single parabose operator', *J. Math. Phys.* 16 (1975), 326–333.

### 1976

34. Green, H. S., **Hurst**, C. A. and Ilamed, Y., 'The state labeling problems for  $SO(N)$  in  $U(N)$  and  $U(M)$  in  $Sp(2M)$ ', *J. Math. Phys.* 17 (1976), 1376–1382.

### 1977

35. Carey, A. L., Gaffney, J. M. and **Hurst**, C. A., 'A  $C^*$ -algebra formulation of the quantization of the electromagnetic field', *J. Math. Phys.* 18 (1977), 629–640; (Erratum: *J. Math. Phys.* 18 (1977), 1708).
36. Carey, A. L. and **Hurst**, C. A., 'The Fermi method of quantizing the electromagnetic field as a model for quantum field theory', *J. Math. Phys.* 18 (1977), 1553–1561.
37. Ey, C. M. and **Hurst**, C. A., 'The classical, charged tachyon', *Il Nuovo Cimento* 39B (1977), 76–86.

### 1978

38. Carey, A. L. and **Hurst**, C. A., 'A note on the Fermi quantisation of Landau gauge', *Lett. Math. Phys.* 2 (1978), 227–234.
39. Carey, A. L., Gaffney, J. M. and **Hurst**, C. A., 'A  $C^*$ -algebra formulation of gauge transformations of the second kind for the electromagnetic field', *Rept. Math. Phys.* 13 (1978), 419–436.
40. Corbett, J. V. and **Hurst**, C. A., 'Are wave functions uniquely determined by their position and momentum distributions?', *J. Austral. Math. Soc.* 20B

(1978), 182–201.

41. Carey, A. L., **Hurst**, C. A. and Keck, B. W., ‘Algebraic structure of a linear gauge theory’, *Hadronic J.* 1 (1978), 1144–1170.
42. Cant, A. and Hurst, C. A., ‘The algebraic structure of relativistic wave equations’, *J. Austral. Math. Soc.* 20B (1978), 446–486.
43. Bretag, A. H., **Hurst**, C. A. and Kerr, D. I. B., ‘Potassium conductance models related to an interactive subunit membrane II. Monte Carlo analysis and subunit migration’, *J. Theor. Biol.* 73 (1978), 367–382.

#### 1979

44. Carey, A. L. and **Hurst**, C. A., ‘Applications of an algebraic quantization of the electromagnetic field’, *J. Math. Phys.* 20 (1979), 810–819.
45. Carey, A. L., Ey, C. M. and **Hurst**, C. A., ‘Tachyons and quantum field theory’, *Hadronic J.* 2 (1979), 1021–1052.

#### 1980

46. **Hurst**, C. A., ‘The state of physics in Australia’, (invited paper, Procs. International Conf. on Physics and Technology in the Eighties, Kuala Lumpur, September 1980), *Buletin Fizik* 1 (4) (1980), 93–103.

#### 1981

47. Broadbridge, P. and **Hurst**, C. A., ‘Existence of a complex structure for quadratic Hamiltonians?’, *Annals of Phys.* 131 (1981), 104–117.
48. Carey, A. L. and **Hurst**, C. A., ‘A  $C^*$ -algebra approach to the Schwinger model’, *Commun. Math. Phys.* 80 (1981), 1–21.
49. Broadbridge, P. and **Hurst**, C. A., ‘Canonical forms for quadratic Hamiltonians’, *Physica* 108A (1981), 39–62.
50. Broadbridge, P. and **Hurst**, C. A., ‘Fermi-Dirac quantization of linear systems’, *Annals of Phys.* 137 (1981), 86–103.

#### 1982

51. Carey, A. L., **Hurst**, C. A. and O’Brien, D. M., ‘Automorphisms of the canonical anticommutation relations and index theory’, *J. Func. Analysis* 48 (1982), 360–393.

#### 1983

52. Carey, A. L., **Hurst**, C. A. and O’Brien, D. M., ‘Fermion currents in 1+1 dimensions’, *J. Math. Phys.* 24 (1983), 2212–2221.
53. **Hurst**, C. A., ‘A random patch model of a nerve membrane’, *Membrane permeability: experiments and models.* (Techsearch Inc. Adelaide 1983). Proceedings of an International Symposium held in conjunction with the 29th International Congress of the International Union of Physiological Sciences, Adelaide, 25-26 August (1983), 27–30.
54. **Hurst**, C. A., ‘John Bell’s visit to Australia, Part I, Quantum mechanics and physical reality’, *The Australian Physicist* 20 (June 1983) 116–119.
55. **Hurst**, C. A., ‘John Bell’s visit to Australia, Part II, What in the world is quantum mechanics about exactly?’, *The Australian Physicist* 20 (July 1983) 146–148.

#### 1984

56. **Hurst**, C. A., 'The Pfaffian approach to the Ising model', *International Symposium on selected topics in Statistical Mechanics* 1984 (Dubna 1984), Vol. II, 288–303.

#### 1985

57. Grundling, H. B. G. S. and **Hurst**, C. A., 'Algebraic quantization of systems with a gauge degeneracy', *Commun. Math. Phys.* 98 (1985), 369–390.
