Table S1. Collection information for specimens of *Cystococcus* for which at least some molecular data are available

Co., *Corymbia*; N.P., National Park; NT, Northern Territory; QLD, Queensland; WA, Western Australia; (?) indicates uncertainty in *Corymbia* spp. identification; latitude and longitude stated in degrees

ID	<i>Cystococcus</i> species	Slide-mounted specimens	Date collected	Collector	Host plant	Location	Latitude	Longitude
LGC00847	<i>C. campanidorsalis</i>		26.iv.2008	LGC	<i>Co. trachyphloia</i>	Crows Nest N.P., QLD	-27.26	152.117
