

Contents

Special issue: Enteric diseases

- 1 Improving foodborne disease surveillance in NSW**
Active surveillance using routine notifiable disease data is used to identify outbreaks of enteric diseases. The editorial highlights recent developments in active surveillance.
Gwendolyn L. Gilbert
- 3 Enteric disease outbreak reporting, New South Wales, Australia, 2000 to 2005**
Describes the number, epidemiology and cause of outbreaks of enteric disease in NSW using five years of data from the OzFood Net Outbreak Summary database and the Gastroenteritis in Institutions Database.
Michelle Cretikos, Barbara Telfer, Jeremy McAnulty
- 8 Evaluation of the system of surveillance for enteric disease outbreaks, New South Wales, Australia, 2000 to 2005**
The surveillance system would be improved by applying new electronic data management techniques.
Michelle Cretikos, Barbara Telfer, Jeremy McAnulty
- 15 The evaluation of web-based data collection for enhanced surveillance of cryptosporidiosis**
Enhanced surveillance using *NetEpi Collection* was used to investigate an outbreak of cryptosporidiosis in NSW.
Kerri Viney, Jeremy McAnulty
- 20 Investigation of an outbreak of acute illness in a school group visiting Sydney, September 2006**
Information from the Public Health Realtime Emergency Department Surveillance System and two other sources used to rapidly investigate the outbreak.
Trish Mannes, Bradley Forssman, Leena Gupta, Mark Ferson, Simone Christopher, Jeremy McAnulty, Jennie Musto

- 24 *Salmonella* Typing in New South Wales: Current Methods and Application of Improved Epidemiological Tools**

Describes laboratory methods used to type *Salmonella* bacterium including new molecular methods anticipated to enhance the surveillance.

Qinning Wang, Robert Chiew, Peter Howard, Gwendolyn L. Gilbert

- 29 Using MLVA to type strains of *Salmonella* Typhimurium in New South Wales**

This molecular typing method recently introduced in NSW at ICPMR promises faster typing of *Salmonella* serovars.
Gwendolyn L. Gilbert

- 32 Hepatitis A: who in NSW is most at risk of infection?**

Rates of Hepatitis A are five times higher in travellers returning to countries where they were born where the disease is endemic

Kate Ward, Jeremy McAnulty

Fact sheet

- 36 Polio**

Communicable Diseases Report, New South Wales

- 37 November and December 2007**

- 42 List of Reviewers 2007**

NSW PUBLIC HEALTH BULLETIN

The *NSW Public Health Bulletin* is a peer-reviewed journal produced by the NSW Department of Health and indexed in Medline. It has a NSW focus, however, it aims to support the practice of public health more broadly.

Editor

Dr Lynne Madden
BSc(Med)Hons1, MBBS, MPH, MSc, FFFPH, FAFPHM

Editorial correspondence

Please address all correspondence and submissions to:
The Editor, *NSW Public Health Bulletin*
Locked Mail Bag 961
North Sydney NSW 2059 Australia
Email: phbulletin@doh.health.nsw.gov.au
Telephone: +61 2 9424 5876
Fax: +61 2 9391 9232

Submission of articles

The *Bulletin* accepts proffered and commissioned articles along with short reports, on all aspects of public health. Articles should be 1500–2000 words, not including tables and figures, and should include an abstract of up to 100 words. Articles should follow the journal style and layout as closely as possible, as described in the Instructions to Authors. Articles should be emailed in a Word for Windows format to: phbulletin@doh.health.nsw.gov.au, and should be accompanied by a covering letter signed by all authors and a License to Publish. The Instructions to Authors, License to Publish and other useful information can be downloaded from the *Bulletin* website.

Distribution

The *Bulletin* is freely available from the *Bulletin* website. Copies of the current issue and back issues can be downloaded in both PDF and HTML formats. If you would like to be notified when new issues of the *Bulletin* are available online, subscribe to the early alert email system at the *Bulletin* website. The early alert email contains the contents of each new issue along with electronic links to the articles. To receive a printed copy of the *Bulletin*, subscribe online at the *Bulletin* website, or contact your local public health unit or the editorial office.
