

PACIFIC CONSERVATION BIOLOGY

Volume 13

Number 4

Contents

EDITORIAL

- The Planners view of Conservation *I. McLean*. 225

RESEARCH PAPERS

- Is there value in reviewing distributing models? A case study using critical weight range mammals in southeastern Australia. *T. D. Penman and C. P. Slade*. 227
- Early and late colonizers in mine site rehabilitated waste dumps in the Goldfields of Western Australia. *G. G. Thompson and S. A. Thompson*. 235
- Diet of Feral Cats in Hawai'i Volcanoes National Park. *S. C. Hess, H. Hansen, D. Nelson, R. Swift, and P. C. Banko*. 244
- Herpetofauna, community education and logging on Choiseul Island, Solomon Islands: implications for conservation. *C. Morrison, P. Pihacha, T. Pitakia and D. Baselo*. 250
- The application of intro-species fostering techniques to the southern hairy-nosed wombat, *Lasiorhinus latifrons*. *G. R. Finlayson, D. A. Taggart, G. A. Shimmin, C. R. White, V. Steele, M. C. J. Paris and P. D. Temple-Smith*. 259
- Improving the landscape scale management of Buffel Grass *Cenchrus ciliaris* aerial survey, predictive modelling, and a Geographic Information System. *H. Puckey, C. Brock and C. Yates*. 264
- New abundance estimates suggest Doubtful Sound bottlenose dolphins are declining. *R. J. Currey, S. M. Dawson and E. Sooten*. 274
- Population responses of small and medium sized mammals to fox control at Jervis Bay, southeastern Australia. *N. Dexter, P. Meeks, S. Moore, M. Hudson and H. Richardson*. 283
- Incorporating marine turtle habitats into the marine protected area design for the Great Barrier Reef Marine Park, Queensland, Australia. *K. Dobbs, L. Fernandes, S. Slegers, B. Jago, L. Thompson, J. Hall, J. Day, D. Cameron, J. Tanzer, F. MacDonald and C. Limpus*. 293

BOOK REVIEW

- Wildlife Tourism. *K. Huksman*. 303
- Australia's Mammal Extinctions: A 50 000 year History. *R. J. Fensham*. 304

INDEX

306

Papers submitted to *Pacific Conservation Biology* are individually and fully peer reviewed by a minimum of two referees. Referees are independent of the editorial board and are chosen for their expertise in the subject area of the paper submitted. In addition, papers are vigorously reviewed and edited by the editorial board. Nonetheless, the views put by authors are their own and do not necessarily reflect those of the editors or the Publisher.

COPYRIGHT

Submission of a paper to *Pacific Conservation Biology* will be taken to imply that it presents original unpublished work, not under consideration for publication elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the Publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature, and translations.

Permission to publish illustrations must be obtained by the author before submission and any acknowledgements should be included in the captions.

Authors of papers in *Pacific Conservation Biology* should be subscribers to the journal. Please indicate whether one or more of the authors is a subscriber. Not subscribing will not affect the publication of the paper. However, whereas subscribers (provided they are subscribers at the time of submitting their manuscript) receive 25 free reprints and do not pay page charges, non-subscribers do not receive free reprints and will be asked to pay a nominal AUD\$20 per printed page. These charges will be invoiced when page proofs are sent to authors. If they do not receive grant or institutional support for publication, contributors may request an exemption from page charges. This is similar to procedures followed by other journals, including the Australian Ecological Society and the Royal Society of Western Australia in the publication of their journals. Authors may accelerate publication of their papers to the next available issue without penalty to other authors by paying full page charges of AUD\$65 per page. This still represents a significant publication subsidy.

For your convenience subscription forms have been enclosed. If you already subscribe, assist the conservation of biodiversity in the Pacific Region by encouraging a colleague and/or library to subscribe.
