

PACIFIC CONSERVATION BIOLOGY

Volume 24 • Issue 1 • 2018

CONTENTS

EDITORIAL

- Notes from the field: the value of observational data and natural history
A. Chin 1

RESEARCH PAPERS

- Herbicidal control of bridal creeper (*Asparagus asparagoides*) in an ecologically sensitive environment
M. Jusaitis 3
- Predicting the occurrence of an endangered reptile based on habitat attributes
S. Gorissen, I. R. C. Baird, M. Greenlees, A. N. Sherieff and R. Shine 12
- Diets of native and introduced apex predators in Hawai'i
C. S. Mostello and S. Conant 25
- Conservation value of koa (*Acacia koa*) reforestation areas on Hawaii Island
L. Strommer and S. Conant 35
- Coyote diet patterns in the Mojave Desert: implications for threatened desert tortoises
B. L. Cypher, E. C. Kelly, T. L. Westall and C. L. Van Horn Job 44
- Forest connectivity is important for sustaining Admiralty cuscus (*Spiloglossus kraemeri*) in traditional terrestrial no-take areas on Manus Island, Papua New Guinea
J. Lamarin and N. Whitmore 55
- Quantifying trends and predictors of decline in eastern grey kangaroo (*Macropus giganteus*) populations in a rapidly urbanising landscape
E. A. Brunton, S. K. Srivastava, D. S. Schoeman and S. Burnett 63
- Foraging behaviour of mulga birds in Western Australia. I. Use of resources and temporal effects
H. F. Recher and W. E. Davis, Jr 74
- Foraging behaviour of mulga birds in Western Australia. II. Community structure and conservation
H. F. Recher 87
- RESEARCH NOTE**
- Are there conservation implications for kangaroos feeding on sea birds?
M. Hughes and V. Bérengier 98
- Book reviews** 100
