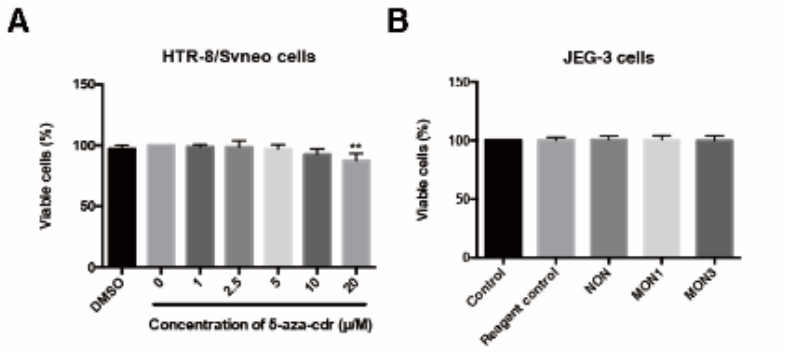

Fig. S1. Cell viability of HTR-8/SVneo and JEG-3 cells by CCK-8 kit after treatment with 5-aza-Cdr and MONs, respectively. (A) Cell viability of HTR-8/SVneo after being treated with 1, 2.5, 5, 10, 20 μM 5-aza-Cdr for 72 h. (B) Cell viability of JEG-3 cells after being transfected with MONs for 7 days (**$P < 0.01$).
