### Anal Cancer Special Issue

#### EDITORIAL

Why a special issue on anal cancer and what is in it?

*Christopher K. Fairley, Julia M. L. Brotherton, Richard Hillman and Andrew E. Grulich*    501–503

#### RESEARCH PAPERS

The epidemiology of anal cancer

*Andrew E. Grulich, I. Mary Poynten, Dorothy A. Machalek, Fengyi Jin, David J. Templeton and Richard J. Hillman*    504–508

Geographical clustering of anal cancer incidence in Australia

*I. Mary Poynten, Alicia N. Stein, E. Lynne Conway, Garrett Prestage, David G. Regan, Fengyi Jin, Jane Hocking and Andrew E. Grulich*    509–512

Anal anatomy and normal histology

*Priti Pandey*    513–516

Anal sex practices in heterosexual and male homosexual populations: a review of population-based data

*Wendy Heywood and Anthony M. A. Smith*    517–526

The epidemiology and natural history of anal human papillomavirus infection in men who have sex with men

*Dorothy A. Machalek, Andrew E. Grulich, Fengyi Jin, David J. Templeton and I. Mary Poynten*    527–537

The epidemiology of anal human papillomavirus infection among women and men having sex with women

*Alan G. Nyitray*    538–546

Epidemiology, natural history and risk factors for anal intraepithelial neoplasia

*François Coutlée, Alexandra de Pokomandy and Eduardo L. Franco*    547–555

Screening for anal neoplasia: anal cytology – sampling, processing and reporting

*Teresa M. Darragh and Barbara Winkler*    556–561

The reporting of anal cytology and histology samples: establishing terminology and criteria

*Jennifer Margaret Roberts and Deborah Ekman*    562–567

Comparison of the performance of anal cytology and cervical cytology as screening tests

*Jennifer Margaret Roberts and Julia Kathleen Thurloe*    568–573

Prevalence and predictors of high-grade anal intraepithelial neoplasia in a community-based sample of homosexual men

*Richard J. Hillman, Marina T. van Leeuwen, Claire M. Vajdic, Leo McHugh, Garrett P. Prestage, Leon P. Botes, Iryna Zablotska, Gabriele Medley, Sepehr N. Tabrizi, Andrew E. Grulich and Fengyi Jin*    574–579

Practising high-resolution anoscopy

*Joel M. Palefsky*    580–586

Treatment options for anal intraepithelial neoplasia and evidence for their effectiveness

*Paul A. Fox*    587–592

Squamous cell carcinoma of the anal canal: a review of the aetiology, presentation, staging, prognosis and methods available for treatment

***Ursula M. Szmulowicz and James S. Wu***      **593–609**

The cost-effectiveness of screening for anal cancer in men who have sex with men: a systematic review

***Kirsten Howard***      **610–619**

Psychosocial aspects of anal cancer screening: a review and recommendations

***J. M. B. Landstra, J. Ciarrochi and F. P. Deane***      **620–627**

## **COMMENTARY**

Time for a strategic research response to anal cancer

***Andrew E. Grulich, Richard Hillman, Julia M. L. Brotherton and Christopher K. Fairley***      **628–631**
