## Grampians Health Amalgamation Review

Date:

Name:

Aim of interviews:

To document the accomplishments and the work required to embed and optimise benefits from the change,

- To gather the learnings of the approach that was taken to the amalgamation.
- To understand the achievements obtained over the first 18 months.
- To identify what still needs to happen to consolidate the amalgamation.
- To identify potential opportunities the amalgamated service has presented for Grampians Health.
- To inform the approach to future amalgamations.

Note:

- Responses will be deidentified
- Report will be sent to interviewee for endorsement

Question	Response
<b>Past and current</b>	
What was your involvement in the GH Amalgamation?	
What has gone well to date?	
What has not gone well?	
What could have been done differently to improve the transition?	

What has changed because of the amalgamation?	
<b>Future</b>	
What still needs to be done to tidy up the work of the amalgamation?	
Does anything need fixing?	
What do you hope the amalgamation will bring?	
Anything other comments?
