Navigate health law issues

Designed specifically for senior medical staff, health administrators and managers, QUT's new Graduate Certificate in Applied Law (Health) gives you the expertise you need to navigate legal mine fields in health law.

You can choose from more than 15 units to tailor your learning to your work environment with a range of areas including capacity and guardianship, genetic technologies, conception and birth, biotechnology law, children's health, health economics, quality management and risk management.

And you'll be taught by lecturers who not only wrote the book on health law in Australia, but understand the clinical context.

Finish in just one year, part time. Many units are taught online and are available as standalone units for professional development.

Apply now at www.qut.edu.au/applied-law, or contact us at lawandjustice@qut.edu.au or (07) 3138 2707.

THE QUANTUM LEAP

Measurement: redefining Health's boundaries?

Proudly sponsored by

**AUSTRALIAN COMMISSION
ON SAFETY AND QUALITY IN HEALTH CARE**

Following the success of **The Great Healthcare Challenge** in 2011, the Australian Council on Healthcare Standards (ACHS) and the Australian Healthcare and Hospitals Association (AHHA) will join forces with the Women's and Children's Hospitals Australasia in 2012 to bring you – **The Quantum Leap. Measurement: redefining Health's boundaries?**

Whether you work in a healthcare facility or department as a clinician, a clinical leader, a manager or executive, a finance officer or an information officer you are required to measure and assess your outcome. The National Health Reform is set to put this part of your job under scrutiny. This Conference will be exceedingly beneficial and stimulating.

How do we measure individual patient outcomes or population health status? How do we relate financial performance to both utilisation and quality? Do we collect and link our data efficiently to reduce the red tape burden? How will the National Standards, mandatory from 1st January 2013, influence our administrative and clinical priorities? How will the national entities such as the National Health Performance Authority (NHPA), the Australian Institute of Health and Welfare (AIHW) and the Independent Hospital Pricing Authority (IHPA) plus their state counterparts rationalise their roles? How will they incentivise good performance?

This conference will discuss these questions and highlight the views of key stakeholders.

A collaboration of the Australian Council on Healthcare Standards (ACHS), the Australian Healthcare and Hospitals Association (AHHA) and the Women's and Children's Hospitals Australasia (WCHA)

WHO SHOULD ATTEND?

This conference will appeal to a wide cross-section of the public and private healthcare sectors across rural, regional and metro areas.
