Front cover:

APPEA annually invites drafting personnel in member companies to submit a design for the *APPEA Journal* cover. This year's design, by Adriana Mammarella, of Esso Australia Ltd.'s Design Group, focusses on the well-known Australian icon, Flinders Street Station, Melbourne, representing the community in the theme of this year's conference—*Competitive Energy for the Community*. Her design blends the cosmopolitan aspects of Melbourne with the importance of the E&P industry to the community through the inclusion of Esso/BHP's Kingfish A platform in the Bass Strait. Adriana is a qualified graphic designer with four years of experience in industry, including a year with Esso.
