

CONTENTS

Innovative approaches to engineering and petroleum production

- A.J. McDiarmid, P.T. Bingham, S.T. Bingham, B. Kirk-Burnnand, D.P. Gilbert, L.E. Kurylowicz and I. Sigsworth
John Brookes gas field development 13
- R.J. Watson
Improved inflow performance relationships and improved well bore performance 27
- B.F. Ronalds
Towards development of Australia's large deepwater gas fields 35
- J-F. Saint-Marcoux, C. White and G.O. Hovde
Deepwater gas field production from subsea wells into compressed natural gas carriers through a hybrid riser tower 45
- M. Jha, T. Tran and D. Hawkins
Geosteering of two horizontal wells in South Umm Gudair Field: A successful case history 55
- T.J. Magee, T.A. Gray, J.C. Kelly and L.B. White
A multi-disciplinary approach delivers quality results to a complex formation evaluation problem 63
- Z.J. Pallikathakathil, J.R. Marsden, R.J. Suttill, M. Mussared and L. Qiuguo
A quick-look evaluation of the sanding potential of production wells in the Yolla Field 77

- A.J. McArdle, A.J. McDiarmid and T.E. Asbey
Production optimisation via multi-phase flow metering 97

- M. Buchanan, P. Robinson and C. McCaffery
Implementation of the BP choke model on the Woodside operated Cossack Pioneer FPSO 105

- R.C. Davis, K.R. Leischner, A.P. Murray and P.G. Ryles
4D reservoir geochemistry as an aid to interpreting production dynamics, Legendre Field, Eastern Dampier Sub-basin 117

New technical and commercial approaches

- S. Miyazaki
Coal seam gas exploration, development and resources in Australia: A national perspective 131
- D.C. Lowry, R.J. Suttill and R.J. Taylor
Advances in risking exploration prospects 143
- J.P. Feenan
Emerging challenges in Australia's domestic gas market 159
- A.L. Ball and K.M. Schneider
The Asia Pacific LNG market: Issues and outlook 165
- D. Wyborn, L. de Graaf, S. Hann and B. Nicholson
Progress in geothermal energy development, Cooper Basin, South Australia 175

CONTENTS

Commercial and corporate

J. Embury

Why are the insurance underwriters reviewing our exploration well risks?

185

D.Young, R. Brockett and J. Smart

Australia—Sovereign risk and the petroleum industry

191

B.K. Johnson

Risk appetite: A hunger for the unknown or stranglehold on growth?

203

M.R. Puzey and S.Q. Benson

Can governance initiatives deliver value to the oil and gas industry?

213

A.G. Castledine and M. Lamattina

Is there a future for State Agreements?

221

Frontier exploration: West and north

J.P. Scibiorski, M. Micenko and D. Lockhart

Recent discoveries in the Pyrenees Member, Exmouth Sub-basin: A new oil play fairway

233

D. Dawson, K. Grice and R. Alexander

Stable hydrogen isotope ratios of sedimentary hydrocarbons: A potential method for assessing thermal maturity?

253

K. Grice, R.E. Summons, E. Grosjean, R.J. Twitchett, W. Dunning, S.X. Wang and M.E. Bottcher

Depositional conditions of the northern onshore Perth Basin (Basal Triassic)

263

J.D. Gorter, P.J. Jones, R.S. Nicoll and C.J. Golding

A reappraisal of the Carboniferous stratigraphy and the petroleum potential of the southeastern Bonaparte Basin (Petrel Sub-basin), northwestern Australia

275

M. Keep, L. Beck and P. Bekkers

Complex modified thrust systems along the southern margin of East Timor

297

A.T. Jones, G.A. Logan, J.M. Kennard and N. Rollet

Reassessing potential origins of synthetic aperture radar (SAR) slicks from the Timor Sea region of the North West Shelf on the basis of field and ancillary data

311

N. Palmer, P. Theologou, B.E. Korn and T. Munckton

The Wheatstone gas discovery: A case study of Tithonian and Late Triassic fluvial reservoirs

333

G.M. Carlsen and K. Ameer R. Ghori

Canning Basin and global Palaeozoic petroleum systems—A review

349

D. Tapley, B.C. Mee, S.J. King, R.C. Davis and

K.R. Leischner

Petroleum potential of the Ceduna Sub-basin: Impact of Gnarlyknots-1A

365

C.C. Hodge

Seismic evidence for reverse and wrench fault tectonics—Cliff Head oil field, Perth Basin

381

CONTENTS

Improved seismic imaging and finding more oil

A. Long, P. Zhao, P. Gatley, D. Cooke, R. van Borselen, M. Schonewille and R. Hegge

Multiple removal success in the Carnarvon Basin with SRME

399

H. Edwards, J. Crosby, N. David, C. Loader and S. Westlake

Australian MegaSurveys—The key to new discoveries in maturing areas?

407

P. Bocca, L. Fava and E. Stolf

3D pre-stack depth migration: A tool for reducing exploration risk in the Swan Graben, Timor Sea

421

D. Sherlock, G. Weir and K. Dodds

Analog reservoir modelling of channel sands

439

R. Ciz, M. Urosevic and K. Dodds

Pore pressure prediction based on seismic attributes response to overpressure

449

Trap integrity

P.J. Lyon, P.J. Boulton, M. Watson and R.R. Hillis

A systematic fault seal evaluation of the Ladbroke Grove and Pyrus traps of the Penola Trough, Otway Basin

459

A. Gartrell, W. Bailey and M. Brincat

Strain localisation and trap geometry as key controls on hydrocarbon preservation in the Laminaria High area

477

K. Liu, S. Fenton, T. Bastow, B. van Aarssen and P. Eadington

Geochemical evidence of multiple hydrocarbon charges and long distance oil migration in the Vulcan Sub-basin, Timor Sea

493

Meeting environmental challenges

T.K. Sarker and R.L. Burritt

Does self-regulation improve corporate ecological-efficiency? An empirical investigation into the Australian petroleum industry from 1996 to 2002

511

F. Li, C. Dyt, C.M. Griffiths, C. Jenkins, M. Rutherford and J. Chittleborough

Seabed sediment transport and offshore pipeline risks in the Australian southeast

523

J.E. Coleman, L.N. Franks and M.D. Berry

The technical, environmental and cultural challenges of drilling on the edge of a national park

535

E.P. Jas and A.T. McPhee

A state-of-the-art shore crossing

551

CONTENTS

Exploration in the east

C.I. Uruski, B.D. Field and R. Funnell

The East Coast Basin of New Zealand, an emerging petroleum province

563

T. Bernecker and A.D. Partridge

Approaches to palaeogeographic reconstructions of the Latrobe Group, Gippland Basin, southeastern Australia

581

J.E. Blevin, K.R. Trigg, A.D. Partridge, C.J. Boreham, and
S.C. Lang

Tectonostratigraphy and potential source rocks of the Bass Basin

601

Key tax and legal issues for the industry

J.H. Murray and E.A. Burns

Greenhouse gas issues—One for the Australian taxation office?

623

M. Williamson

Accounting standards reform—Will there be havoc?

633

R. Henderson, C. Franchina and H. Wiseman

Buying and selling petroleum interests— Impact of tax consolidation and other tax reform measures

643

Achieving health and safety excellence

J. Hart

Managing helicopter risk

THE 2005 APPEA CONFERENCE SPONSORS

Principal sponsors

BHP Billiton Petroleum Pty Ltd
Macquarie Bank

Papers Committee sponsor

Schlumberger Oilfield Australia Pty Ltd

Supporting sponsors

Conference Satchels	Woodside Energy Limited
2005 APPEA Exhibition	Eni Australia Limited
2005 APPEA Journal	Beach Petroleum Limited
Conference Dinner	Westpac Institutional Bank
Morning Tea Refreshment Breaks	Chamber of Commerce and Industry of WA
Afternoon Tea Refreshment Breaks	ConocoPhillips Australia Limited
Opening Presentation	KPMG
Tuesday Plenary Presentation	Australian Drilling Associates Limited
Wednesday Plenary Presentation	ExxonMobil
Conference Lunch	Investec Bank (Australia) Limited
Conference Pens	Tap Oil Limited
Conference Pads	Shell Development (Australia) Pty Ltd
Conference Mouse Mats	Beach Petroleum Limited
Happy Hour—Monday	BNP Paribas
Happy Hour—Tuesday	ConocoPhillips Australia Limited
Internet C@fe	Media Dynamics
2004 APPEA Safety Awards	PricewaterhouseCoopers
2004 APPEA Environment Awards	PricewaterhouseCoopers
Authors Lunch	Halliburton Australia Pty Ltd
Continuous Coffee	Apache Energy Limited
Media Room	Santos Limited
Small Independents' Forum	Westpac Institutional Bank
Partners' Program	Beach Petroleum Limited

THE 2005 APPEA CONFERENCE SPONSORS

Welcome Reception sponsors

Aon Risk Services
ChevronTexaco Australia Pty Ltd
Clough Engineering Limited
FROG Tech
Magellan Petroleum Australia Limited
MBA Petroleum Consultants
Nido Petroleum Limited
Nuenco NL
Paladin Resources Limited
Sasol Chevron Consulting Pty Ltd
Supplybase VRS
Veritas DGC Australia Pty Ltd
Vermilion Oil & Gas Australia Pty Ltd

Farewell Cocktails

ChevronTexaco Australia Pty Ltd
Cue Energy Resources Limited
Icon Energy Limited
Paladin Resources Limited
Vermilion Oil & Gas Australia Pty Ltd

Exhibition Display Equipment

ARC Energy Limited

Technical/Commercial Session sponsors

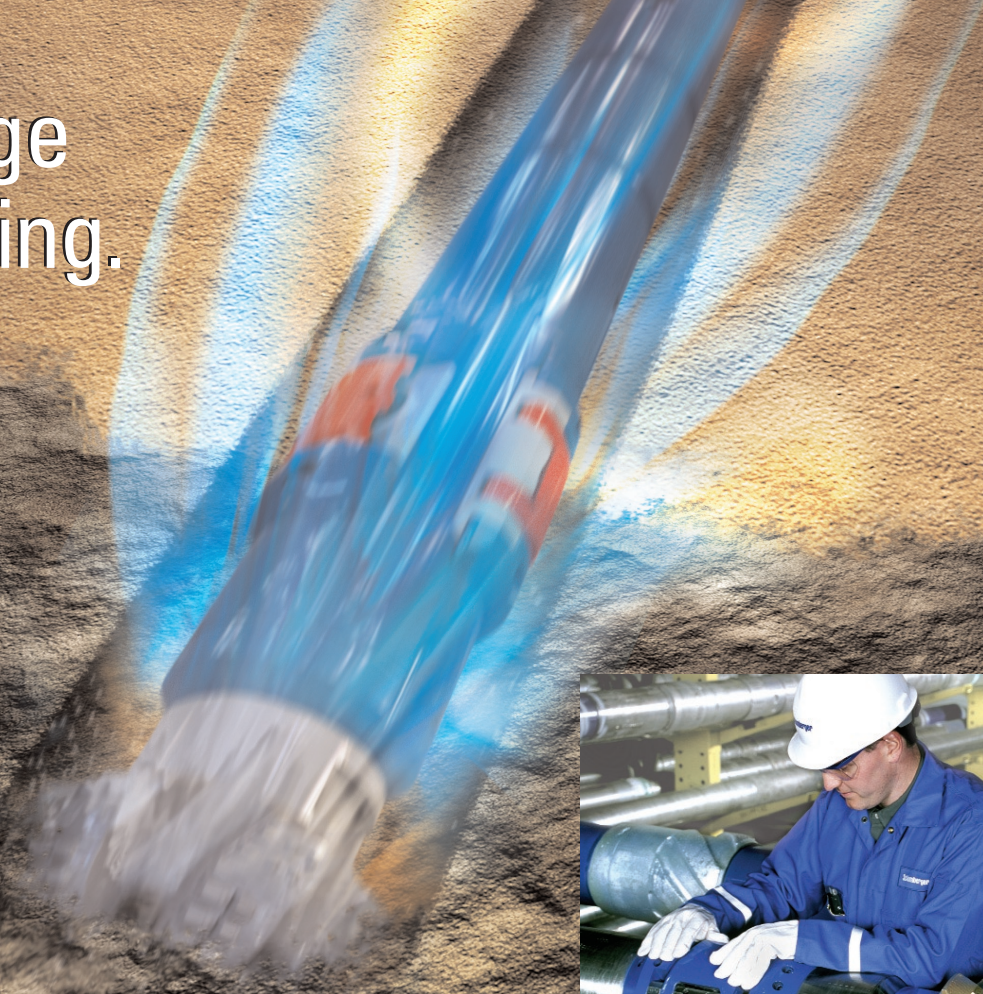

**Australian Government's Department of
Industry, Tourism and Resources**
Australian School of Petroleum

ABBREVIATIONS AND ACRONYMS

AAPG—American Association of Petroleum Geologists.
AATSE—Australian Academy of Technological Sciences and Engineering.
AmCS—American Chemical Society.
AGI—American Geological Institute.
AGU—American Geophysical Union.
ASLO—American Society for Limnology and Oceanography.
API—American Petroleum Institute.
AAP—Association of Australasian Palaeontologists.
AICD—Australian Institute of Company Directors.
AusIMM—Australasian Institute of Mining and Metallurgy.
ABARE—Australian Bureau of Agricultural and Resource Economics.
AGSO—Australian Geological Survey Organisation.
AGPS—Australian Government Publishing Service.
AIMS—Australian Institute of Marine Science.
AIP—Australian Institute of Petroleum.
AJES—Australian Journal of Earth Sciences.
AMC—Australian Manufacturing Council.
AMPLA—Australian Mining and Petroleum Law Association Limited.
AMSA—Australian Marine Science Association.
APCRC—Australian Petroleum Co-operative Research Centre.
ASEG—Australian Society of Exploration Geophysicists.
APPEA—Australian Petroleum Production and Exploration Association Limited.
ASME—American Society of Mechanical Engineering.
BMR—Bureau of Mineral Resources.
BRS—Bureau of Resource Sciences.
CSPG—Canadian Society of Petroleum Geologists.
CSIRO—Commonwealth Scientific and Industrial Research Organisation.
EIA—Environment Institute of Australia.
EAOG—European Association of Organic Geochemists.
FESA—Formation Evaluation Society of Australia.
FESWA—Formation Evaluation Society of Western Australia.
FTA—Finance and Treasury Association.
GBRMPA—Great Barrier Reef Marine Park Authority.
GSC—Geological Society of Canada.
GSPNG—Geological Survey of Papua New Guinea.
GSAm—Geological Society of America.
GSA—Geological Society of Australia.
GSL—Geological Society of London.
GSNSW—Geological Survey of New South Wales.
GST—Geological Survey of Tasmania.
GSNZ—Geological Society of New Zealand.
GSSA—Geological Survey of South Australia.
GSV—Geological Survey of Victoria.

GSWA—Geological Survey of Western Australia.
IAG—Indonesian Association of Geologists
IAMG—International Association of Mathematical Geology.
IAS—International Association of Sedimentologists
ICA—Institute of Chartered Accountants.
ICE—Institution of Civil Engineers.
ICQS—International Committee on Quantitative Stratigraphy.
IEA—Institute of Engineers Australia.
IEEE—Institute of Electrical and Electronic Engineers Inc.
IPA—Indonesian Petroleum Association.
ISOPE—International Society of Offshore and Polar Engineering.
MESA—Department of Mines and Energy South Australia.
MCA—Minerals Council of Australia.
NELA—National Environmental Law Association.
NCPGG—National Centre for Petroleum Geology and Geophysics.
NGS—Norwegian Geological Society.
NNPGS—Norwegian Petroleum Geologists' Society.
NZGS—New Zealand Geological Survey.
NTGS—Northern Territory Geological Survey.
PEANZ—Petroleum Exploration Association of New Zealand.
PESA—Petroleum Exploration Society of Australia.
PESGB—Petroleum Exploration Society of Great Britain.
PASA—Pipelines Authority of South Australia.
QDME—Queensland Department of Mines and Energy.
QGS—Queensland Geological Survey.
RACI—Royal Australian Chemical Institute.
RMIT—Royal Melbourne Institute of Technology.
RSNZ—Royal Society of New Zealand.
RSSA—Royal Society of South Australia.
RST—Royal Society of Tasmania.
RSV—Royal Society of Victoria.
TIA—Taxation Institute of Australia.
SAA—Standards Association of Australia.
SIA—Securities Institute of Australia.
SCA—Society of Core Analysts.
SEPM—Society of Economic Paleontologists and Mineralogists.
SEG—Society of Exploration Geophysicists.
SOP—The Society of Organic Petrologists.
SPE—Society of Petroleum Engineers.
SPWLA—Society of Petroleum Well Log Analysts.
SUT—Society for Underwater Technology.
VIMS—Victorian Institute of Marine Science.
WAMPRI—Western Australian Mining and Petroleum Research Institute.

Supercharge your drilling.

Put more power downhole.

PowerDrive vortex

The PowerDrive vortex* high-performance rotary steerable system (RSS) has a fully integrated high-torque power section that converts mud hydraulic power to additional mechanical power at the bit for fast drilling and reduced nonproductive rig time. An inclination hold function allows drilling a tangent or horizontal section without intervention from the directional driller.

A Gulf of Mexico operator using a PowerDrive vortex RSS drilled a well 21 days faster than the best time previously achieved. Average rate of penetration was 32.3 ft/hr—more than 4 times faster than in the comparable offset well.

For more information contact us at 61 8 9420 4800 or e-mail PowerDrive.vortex@slb.com.
