Addresses to the Conference,  
Petroleum Exploration Society of Australia  
Industry Review Papers and  
Acreage Release Presentations

2005 APPEA Conference  
10–13 April 2005  
Perth

**ISSN 1326–4966**

**Front cover:** Graphic designer Glyn Thomas has produced this year's cover to reflect the APPEA 2005 theme of Securing Our Industry.

## How to search and navigate the APPEA Journal 2004, CD-ROM version

This CD-ROM is in ISO 9660 format which can be used with a wide range of PC, Mac, Unix and Linux operating systems.

### INSTALL SEARCH CAPABLE ADOBE ACROBAT

Install Adobe Acrobat with **search capabilities**. Acrobat is provided for operating systems as follows:

- Windows 95 = WIN95.exe
- Windows 98 = WIN98.exe
- Windows ME = WINME.exe
- Windows NT = WINNT.exe
- Windows 2000/XP = WINXP.exe
- Windows 3.1 = WIN31.exe
- MAC OSX = MACOSX.sit
- MAC OS 9/1–9.2 = MAC91
- MAC OS 8.6–9.0 = MAC86
- LINUX = LINUX.gz
- DIGITAL UNIX = UNIX.gz
- SUN SOLARIS SPARC = SUN.tar

You will find the appropriate version of Acrobat in the Acrobat directory on the CD-ROM.

### NAVIGATE THE JOURNAL (PART 2)

On the CD-ROM, open the file called journal.pdf. This will open in an Adobe Acrobat Reader window containing the main APPEA Journal 2005 navigation page. Each paper in the Journal will open in whole page, which enables you to quickly scan it. Select the magnifying glass tool in the toolbar if you want to zoom in. For further details on viewing and navigating using Adobe Acrobat, see the Reader Guide in the Help menu.

## Search facilities

### SEARCH

This will search for any word in the APPEA Journal. Clicking on 'Search' opens a search window. Enter a word or phrase in the search text box, then press the Search button. Then a new section will open containing the search results by paper. Click on the paper then press View. This will open the selected page of the paper with the word highlighted on the page.

If selecting the search button fails to initialise the search window, please make sure that you have Acrobat Reader with **search capabilities** installed. If it is not installed it can be installed from the Acrobat folder found on the CD-ROM.

### CONTENTS

These PDFs contain pages which display the Contents section and the Abstracts of the papers in the Journal. Click on the paper of an author in the Contents or anywhere on an individual Abstract and the related paper will open at the first page.

### ABOUT APPEA

This contains information about the Australian Petroleum Production and Exploration Association Limited. It also contains copyright and license details for the Journal.

## Other features:

### E-MAIL

E-mails can be sent to some authors by clicking on links highlighted in blue on the first page of papers. This will open the user's e-mail application (if installed and operating) and insert the linked e-mail address in the recipient's address line. However, it is necessary to designate the email application and its hard drive location, at the time of the first email. Acrobat will prompt users through the set-up process.

# Supercharge your drilling.

## Put more power downhole.

# PowerDrive vortex

The PowerDrive vortex\* high-performance rotary steerable system (RSS) has a fully integrated high-torque power section that converts mud hydraulic power to additional mechanical power at the bit for fast drilling and reduced nonproductive rig time. An inclination hold function allows drilling a tangent or horizontal section without intervention from the directional driller.

A Gulf of Mexico operator using a PowerDrive vortex RSS drilled a well 21 days faster than the best time previously achieved. Average rate of penetration was 32.3 ft/hr—more than 4 times faster than in the comparable offset well.
