

CONTENTS

Maximising value from petroleum assets—innovative approaches and technologies

D.M. Brooks, B.A. Pidgeon, A.D. Hall, R.J. Taylor and J.L. Parvar

Appraising the Yolla field in the Bass Basin—how effective data collection, analysis and integration increased estimated hydrocarbon volumes in place

15

J.E. Skinner, M.J. Altmann and T.H. Wadham

More wells, more oil—a case study of reserves growth in the Kenmore field

35

T. Hart, B. Mamuko, K. Mueller, C. Noll, T. Snow and A. Zannetos

Improving our understanding of Gippsland Basin gas resources—an integrated geo-science and reservoir engineering approach

47

A.S. Long, M. Widmaier and M.A. Schonewille

4D planning and execution strategies for Australian reservoir monitoring projects

67

F. Thompson, I. Terziev and I. Taggart

Large-bore gas well design—application to offshore gas field development

79

M.K. Rahman

Multistage hydraulic fracturing with production intervals—a promising technology for reservoirs subject to reverse faulting stress regimes

89

K.J. Bennett and M.R. Bussell

Demeter high resolution 3D seismic survey—revitalised development and exploration on the North West Shelf, Australia

101

C. Buijs, J.J.B. Pek and W.J. Meiring

The PMR process, an innovative technology for large LNG trains

127

J. Hefti, S. Dewing, C. Jenkins, A. Arnold and B.E. Korn

Improvements in seismic imaging, Io Jansz gas field North West Shelf, Australia

135

P. Theologou and M. Whelan

Formation evaluation and static modelling in the Wheatstone gas field

161

Petroleum frontiers of Australasia

D. Jablonski, S. Pono and O.A. Larsen

Prospectivity of the deepwater Gulf of Papua and surrounds in Papua New Guinea (PNG)—a new look at a frontier region

179

R.A. Cook, E.M. Crouch, J.I. Raine, C.P. Strong, C.I. Uruski and G.J. Wilson

Initial review of the biostratigraphy and petroleum systems around the Tasman Sea hydrocarbon-producing basins

201

CONTENTS

C.I. Uruski, B.D. Field, R. Funnell, C. Hollis, A. Nicol and G. Maslen

Developments in the central and north-eastern East Coast Basin, North Island, New Zealand

215

A. Goncharov, I. Deighton, P. Petkovic, H. Tassell, S. McLaren and D. Ryan

Basement and crustal controls on hydrocarbon maturation—lessons from Bremer Sub-basin for other frontier exploration areas

237

Exploration Geoscience—concepts and approaches

C.O.E. Hallmann, K.R. Arouri, D.M. McKirdy and L. Schwark

A new perspective on exploring the Cooper/Eromanga petroleum province—evidence of oil charging from the Warburton Basin

261

E. Nelson, R. Hills, M. Sandford, S. Reynolds and S. Mildren

Present-day state-of-stress of southeast Australia

283

B.A. Camac, S.P. Hunt, P.J. Boulton and M. Dillon

Unconventional borehole breakout rotation analysis provides a QC tool for stress models

307

Coal seam gas in Queensland

G.L. Baker and W.R. Skerman

The significance of coal seam gas in eastern Queensland

329

J.J. Draper and C.J. Boreham

Geological controls on exploitable coal seam gas distribution in Queensland

343

R.W. Day, R.F. Prefontaine, P.A.J. Bubendorfer, M.H. Oberhardt, B.J. Pinder, D.J. Holden and R.A. Gunness

Discovery and development of the Kogan North and Tipton West coal seam gas (CSG) fields, Surat Basin, southeast Queensland

367

Production engineering—responding to the challenges

A.J. Williamson

Blackback subsea AIA remote well kill

385

R. Freij-Ayoub, M. Rivero and E. Nakagawa

Hydrates—a challenge in flow assurance for oil and gas production in deep and ultra-deep water

395

B. Beinart

Application of nucleonic instruments in separator profiling: Kuito FPSO case study

405

CONTENTS

Sequestration of carbon dioxide— exploring the issues

C.M. Gibson-Poole, L. Svendsen, J. Underschultz, M.N. Watson, J. Ennis-King, P.J. van Ruth, E.J. Nelson, R.F. Daniel and Y. Cinar

Gippsland Basin geosequestration:—a potential solution for the Latrobe Valley brown coal CO₂ emissions

413

B. Hooper, B. Koppe and L. Murray

Commercial and technical issues for large-scale carbon capture and storage projects—a Gippsland Basin study

435

A.M. Warburton, J.A. Grove and S. Then

Geosequestration—a solution for Australia?

445

M.M. Faiz, S.A. Barclay, N. Sherwood, L. Stalker, A. Saghafi and D.J. Whitford

Natural accumulation of CO₂ in coals from the Southern Sydney Basin—implications for geosequestration

455

Petroleum industry business strategies and governance

J.D. Philips and V.E. Mathewson

New equity raising methods for listed companies: Jumbos and RAPIDs—optimised rights offers and placements

475

M. Bray

Business reporting and communications—a key capital management tool for the Australian petroleum industry

481

D. Young

Whistleblowing, oil, money and risk

497

M.H. Al-Harthy, A.K. Khurana, S. Begg and R.B. Bratvold

Sequential and systems approaches for evaluating investment decisions—influence of functional dependencies and interactions

511

Legislative trends for petroleum exploration and development

P.M. Green, S.G. Matheson, K.D. Ralph, M.E. Thompson and T.J. Brain

Queensland's new petroleum legislation—its implementation and operational challenges

525

S. Barrymore

Petroleum (Submerged Lands) Act 1967—rewrite and beyond

533

J.S. Minchinton

Legal issues for cooperative and concurrent mining and petroleum production

543

CONTENTS

Emerging issues in petroleum industry taxation

R. Henderson and D. Watkins

**Australia's new international taxation
regime—the fiscal impact for the oil and gas
industry**

553

J.H. Murray and A.K. Miller

**Long-term construction contracts—some
issues in relation to the taxation of financial
arrangements rules**

561

J.H. Murray

**The new loss recoupment rules—good
news, bad news**

569

W.G. Cathro

**Petroleum Resource Rent Tax issues
affecting the use of deductions**

577

**Responding to the operating environ-
ment —workforce, safety, stakeholder,
environment and security**

S. Starling, D.C. Sanders, R. Kemp and N. Haywood

**Pathway to petroleum—easing skill short-
ages through an industry induction program**

587

M. Hammond and D.C. Sanders

**Maximising indigenous employment in the
oil and gas industry in Western Australia**

595

R. Noble

**Integrity of bolted joints: hydrocarbon leak
reduction by joint-integrity management**

603

G. Scott

**Cultural heritage and the petroleum
industry**

611

E.V. Mazourenko

**Valuing the environmental costs of
vegetation removal and ecosystem
disturbance associated with petroleum
operations, Cooper Basin, South Australia**

625

M.B. Ames, L.S. Swann and J.E. Douglas

**The Moonie—Brisbane pipeline spill—
ecosystem recovery**

639

J.T. Oldfield, L.F. Horsington and D.I. Steel

**Minding the gaps—identifying and filling
holes in offshore oil and gas industry
protective security**

THE APPEA JOURNAL 2006

Principal sponsors

BHP Billiton Petroleum Pty Ltd
Macquarie Bank

Papers' Committee sponsor

Schlumberger Oilfield Australia Pty Ltd

Supporting sponsors

Conference Satchels	Tap Oil Limited
2006 APPEA Exhibition	Australian Drilling Associates Limited
2006 APPEA Journal	Icon Energy Limited/Geoscience Australia
Conference Dinner	Westpac Institutional Bank
Tuesday Plenary Presentation	Woodside Energy Limited
Wednesday Plenary Presentation	OMV Australia Pty Ltd
Conference Lunch	Nido Petroleum
Opening Presentation	KPMG
Refreshment Breaks	ExxonMobil
Casual Lunches	ExxonMobil
Conference Pens	ConocoPhillips Australia Pty Ltd
Conference Note Pads	Clayton Utz
Sports Bottles	Chevron Australia Pty Ltd
Conference Mouse Mats	Petroleum Pipe Australasia
Happy Hour—Monday	Aker Kvaerner Australia Pty Ltd
Happy Hour—Tuesday	Brunel Technical Services Pty Ltd
Internet Centre	Santos Limited
2005 APPEA Safety Awards	PricewaterhouseCoopers
2005 APPEA Environment Awards	PricewaterhouseCoopers
Continuous Coffee	Apache Energy Limited
Authors' Lunch	Shell Development (Australia) Pty Ltd
Media Room	Beach Petroleum Limited
Small Independents' Forum	Westpac Institutional Bank
Partners' Program	Eagle Bay Resources NL
Post-Conference Tour	Origin Energy Limited

Petroleum Exploration Society of Australia

Volant Petroleum Ltd

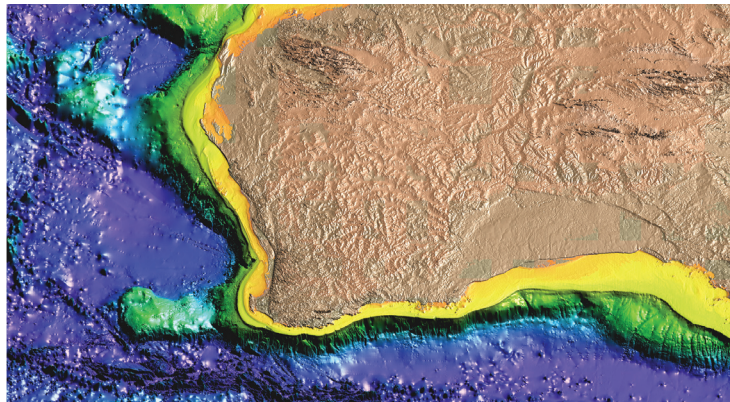

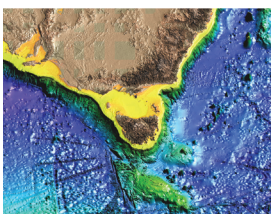

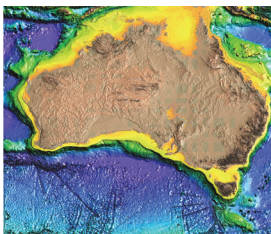

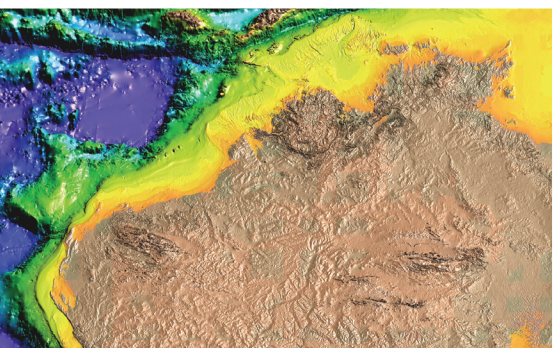

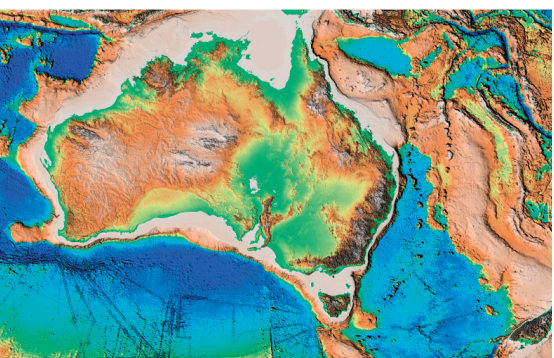

AAPG—American Association of Petroleum Geologists.
AATSE—Australian Academy of Technological Sciences and Engineering.
AmCS—American Chemical Society.
AGI—American Geological Institute.
AGU—American Geophysical Union.
ASLO—American Society for Limnology and Oceanography.
API—American Petroleum Institute.
AAP—Association of Australasian Palaeontologists.
AICD—Australian Institute of Company Directors.
AusIMM—Australasian Institute of Mining and Metallurgy.
ABARE—Australian Bureau of Agricultural and Resource Economics.
AGSO—Australian Geological Survey Organisation.
AGPS—Australian Government Publishing Service.
AIMS—Australian Institute of Marine Science.
AIP—Australian Institute of Petroleum.
AJES—Australian Journal of Earth Sciences.
AMC—Australian Manufacturing Council.
AMPLA—Australian Mining and Petroleum Law Association Limited.
AMSA—Australian Marine Science Association.
APCRC—Australian Petroleum Co-operative Research Centre.
ASEG—Australian Society of Exploration Geophysicists.
APPEA—Australian Petroleum Production and Exploration Association Limited.
ASME—American Society of Mechanical Engineering.
BMR—Bureau of Mineral Resources.
BRS—Bureau of Resource Sciences.
CPG—Canadian Petroleum Geology.
CSPG—Canadian Society of Petroleum Geologists.
CSIRO—Commonwealth Scientific and Industrial Research Organisation.
EIA—Environment Institute of Australia.
EAOG—European Association of Organic Geochemists.
FESA—Formation Evaluation Society of Australia.
FESWA—Formation Evaluation Society of Western Australia.
FTA—Finance and Treasury Association.
GAC—Geological Association of Canada.
GSC—Geological Society of Canada.
GSPNG—Geological Survey of Papua New Guinea.
GSAm—Geological Society of America.
GSA—Geological Society of Australia.
GSL—Geological Society of London.
GSNSW—Geological Survey of New South Wales.
GST—Geological Survey of Tasmania.
GSNZ—Geological Society of New Zealand.
GSSA—Geological Survey of South Australia.
GSV—Geological Survey of Victoria.
GSWA—Geological Survey of Western Australia.

IAG—Indonesian Association of Geologists
IAMG—International Association of Mathematical Geology.
IAS—International Association of Sedimentologists
ICA—Institute of Chartered Accountants.
ICE—Institution of Civil Engineers.
ICQS—International Committee on Quantitative Stratigraphy.
IEA—Institute of Engineers Australia.
IEEE—Institute of Electrical and Electronic Engineers Inc.
IPA—Indonesian Petroleum Association.
ISOPE—International Society of Offshore and Polar Engineering.
MESA—Department of Mines and Energy South Australia.
MCA—Minerals Council of Australia.
NELA—National Environmental Law Association.
NCPGG—National Centre for Petroleum Geology and Geophysics.
NGS—Norwegian Geological Society.
NNPGS—Norwegian Petroleum Geologists' Society.
NZGS—New Zealand Geological Survey.
NTGS—Northern Territory Geological Survey.
PEANZ—Petroleum Exploration Association of New Zealand.
PESA—Petroleum Exploration Society of Australia.
PASA—Pipelines Authority of South Australia.
QDME—Queensland Department of Mines and Energy.
QGS—Queensland Geological Survey.
RACI—Royal Australian Chemical Institute.
RMIT—Royal Melbourne Institute of Technology.
RSNZ—Royal Society of New Zealand.
RSSA—Royal Society of South Australia.
RST—Royal Society of Tasmania.
RSV—Royal Society of Victoria.
TIA—Taxation Institute of Australia.
SAA—Standards Association of Australia.
SIA—Securities Institute of Australia.
SCA—Society of Core Analysts.
SEPM—Society of Economic Paleontologists and Mineralogists.
SEG—Society of Exploration Geophysicists.
SOP—The Society of Organic Petrologists.
SP—School of Petroleum, University of Adelaide.
SPE—Society of Petroleum Engineers.
SPWLA—Society of Petroleum Well Log Analysts.
SSG—Society for Sedimentary Geology.
SUT—Society for Underwater Technology.
UNSW—University of New South Wales.
VIMS—Victorian Institute of Marine Science.
WAMPRI—Western Australian Mining and Petroleum Research Institute.
