**Fig. S1.** Heritage Park (approximately 205 hectares) site boundary (solid line) and survey route (dashed lines). The boundary of the site is defined by the boundary of the residential area, with the north-eastern edge separating Heritage Park from Avocado Heights.
**Fig. S2.** Avocado Heights (approximately 180 hectares) site boundary (solid line) and survey route (dashed lines). The boundary of the site is defined by the boundary of the residential area, with the south-western edge separating Avocado Heights from Heritage Park.
Fig. S3. The Emerald Beach headlands (approximately 23 hectares) site boundary (solid line) and survey route (dashed lines). The boundary of the site is restricted to the headland reserves and excludes the small lagoon and forested area on the western edge.
**Fig. S4.** The Safety Beach golf course (approximately 47 hectares) site boundary (solid line) and survey route (dashed lines). The boundary of the site is defined by the boundary of the 18-hole golf course, most of which is fenced.
