

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 51, Issue 12, 2011, 1045–1136

INVITED REVIEW

Nutrition × reproduction interaction in pasture-based systems: is nutrition a factor in reproductive failure?
J. R. Roche, C. R. Burke, S. Meier and C. G. Walker 1045–1066

REVIEW

Estimating the transfer of contaminants in animal feedstuffs to livestock tissues, milk and eggs: a review
D. J. MacLachlan 1067–1078

RESEARCH PAPERS

Companion cropping chicory with winter forage cereals for grazing and forage conservation.
Dry matter yields, nutritive characteristics and mineral content
J. L. Jacobs and G. N. Ward 1079–1087

Adaptation behaviour of local and rangeland cattle relocated to a temperate agricultural pasture
D. T. Thomas, M. G. Wilmot, R. W. Kelly and D. K. Revell 1088–1097

Fluctuations in the concentration of ergovaline and lolium B produced by the wild-type
endophyte (*Neotyphodium lolii*) in perennial ryegrass (*Lolium perenne*) pasture
K. F. M. Reed, Z. N. Nie, L. V. Walker and G. Kearney 1098–1108

Effect of dietary consumption of sheep meat on thyroid hormone levels and energy
expenditure of Sprague–Dawley rats
*Xian-Chao Feng, Su Zhuang, Lin Chen, Zheng-Guo Yan, Xing-Lian Xu
and Guang-Hong Zhou* 1109–1116

Nutritive value of corn silage in mixture with vine peas
Y. Zhu, C. S. Bai, X. S. Guo, Y. L. Xue and Kazuo Ataku 1117–1122

Effect of different levels of amino acids on carcass composition and yield in broilers
Javad Nasr 1123–1126

Significance of phenolic compounds in tropical forages for the ruminal bypass
of polyunsaturated fatty acids and the appearance of biohydrogenation intermediates as examined *in vitro*
Anuraga Jayanegara, Michael Kreuzer, Elizabeth Wina and Florian Leiber 1127–1136
