

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 58, Issue 11, 2018, 1967–2166

Review

A new perspective on managing the onset of puberty and early reproductive performance in ewe lambs: a review

C. A. Rosales Nieto, A. N. Thompson and G. B. Martin 1967–1975

Genetics and Genomics

Variability of the *IGF2* locus in the Suino Nero Lucano pig population and its effects on meat quality

Amalia Simonetti, Andrea Rando, Paola Di Gregorio, Carmelisa Valluzzi,

Annamaria Perna and Emilio Gambacorta 1976–1982

Evaluation of repeatability and pre-structured repeatability models for genetic analyses of repeated records of fat and protein contents of milk in Iranian Holstein cows

M. Asadi Fozi 1983–1989

A non-synonymous single nucleotide polymorphism in the *paraoxonase 3* gene regulates meat quality in Berkshire pigs

Jeong-Wan Hur, Jung Hye Hwang, Seul Gi Kwon, Da Hye Park, Tae Wan Kim, Deok Gyeong Kang,

Go Eun Yu, Sang Mi An, Il-Suk Kim, Hwa Chun Park, Jeongim Ha and Chul Wook Kim 1990–1995

Genotype by environment interaction for yearling weight in Nellore cattle applying reaction norms models

S. Ribeiro, J. P. Eler, V. B. Pedrosa, G. J. M. Rosa, J. B. S. Ferraz and J. C. C. Balieiro 1996–2002

The effect of lipid metabolism-related genes on intramuscular fat content and fatty acid composition in multiple muscles

Chendong Liu, Linyuan Shen, Jingjing Du, Xiaoqian Wu, Jia Luo, Qiang Pu, Zhendong Tan,

Xiao Cheng, Jianguo Du, Qiong Yang, Shunhua Zhang and Li Zhu 2003–2010

Physiology, Endocrinology and Reproduction

Protective effects of taurine on growth performance and intestinal epithelial barrier function in weaned piglets challenged without or with lipopolysaccharide

Zhiru Tang, Jinyan Liu, Zhihong Sun, Jinlong Li, Weizhong Sun,

Junxia Mao and Yao Wang 2011–2020

Effect of nano-selenium and nano-zinc particles during *in vitro* maturation on the developmental competence of bovine oocytes

B. R. Abdel-Halim and Nermeen A. Helmy 2021–2028

Effect of duration of altrenogest treatment on farrowing rate and litter size of gilts

F. De Rensis, C. Mazzoni, R. Saleri, A. Scollo, K. J. Plush and R. N. Kirkwood 2029–2031

Nutrition and Metabolism

Detection of heat produced during roughage digestion in ruminants by using infrared thermography

Márcia Saladini Vieira Salles, Suelen Correa Silva, Luiz Carlos Roma Junior, Lenira El Faro,

Carla Maris Machado Bittar, Celso Eduardo Lins Oliveira and Fernando André Salles 2032–2041

Impact of dietary carbohydrate balance on rumen fermentation, eating behaviour, growth and development of 8–10-month-old heifers

Jinhao Xu, Hongrong Wang, Yizhao Shen, Rui Zhao, Rufang Ge, Lihuai Yu and Mengzhi Wang 2042–2048

Feed Quality, Nutritional Value and Toxicology

Mineral status of reproducing ewes grazing vegetative cereal crops

David G. Masters, Serina Hancock, Gordon Refshauge, Susan Robertson, Marie Bhanugopan,

Michael Friend and Andrew N. Thompson 2049–2060

Continued on next page

Utilisation of a mix of powdered oils as fat supplement in nursery- and growing-pig diets

*R. Sá, M. Gandarillas, A. P. Schinckel, D. Kuppenheim, J. Salgado, C. M. Cox,
R. E. Larrain and E. Vargas-Bello-Pérez* 2061–2070

Evaluating the influence of dietary phytogetic blends on gestating and lactating sows and suckling piglets

Mohsen Mohammadi Gheisar, Jin Young Cheong, Pinyao Zhao and In Ho Kim 2071–2075

Effect of the inclusion of natural additives on animal performance and meat quality of crossbred bulls (Angus × Nellore) finished in feedlot

*Carlos Alberto Fugita, Rodolpho Martin do Prado, Maribel Velandia Valero, Elton G. Bonafé,
Camila Barbosa Carvalho, Ana Guerrero, Carlos Sañudo and Ivanor Nunes do Prado* 2076–2083

Efficacy of antioxidant and antimicrobial activity of whole porcine blood hydrolysates and its fractions under *in-vitro* conditions

Akhilesh K. Verma, Manish Kumar Chatli, Nitin Mehta and Pavan Kumar 2084–2090

Meat Science and Product Quality

Comparisons of meat quality and muscle fibre characteristics on multiple pig breeds and sexes using principal component analysis

Jun-Mo Kim, Sang-Hoon Lee and Youn-Chul Ryu 2091–2099

Growth performance and carcass characteristics of Australian prime lambs supplemented with pellets containing canola oil or flaxseed oil

Don V. Nguyen, Bunmi S. Malau-Aduli, Peter D. Nichols and Aduli E. O. Malau-Aduli 2100–2108

Effects of maternal parity on the pork quality traits of progeny

Jun-Mo Kim, Dong-Geun Kang, Sang-Hoon Lee, Kyung-Bo Ko and Youn-Chul Ryu 2109–2116

Quality characteristics of meat from *triceps brachii* muscle from steers and heifers finished on high-concentrate diets containing increasing concentrations of linseed oil

*E. A. Oliveira, A. A. M. Sampaio, B. L. Rosa, W. Henrique, T. M. Pivaro, V. G. Carvalho,
L. G. A. Cirne and S. K. Duckett* 2117–2125

Replacement of soybean meal by sunflower cake in heifers finished on pasture: meat quality

*Rafael Henrique de Tonissi Buschinelli de Goes, Kennyson Alves de Souza, Ana Guerrero, Sara Leticia Nochi Cerilo,
Alexandre Rodrigo Mendes Fernandes, Diego dos Santos Penha and Ivanor Nunes do Prado* 2126–2131

Differences on meat colour and composition between ‘Landrace × Large White’ and ‘Iberian’ pigs under identical nutritional and management conditions

Patricia Palma-Granados, Ana Haro, Luis Lara, José F. Aguilera, Rosa Nieto and Isabel Seiquer 2132–2142

Ground spices to stabilise lamb burgers made of lower- or higher-value carcass cuts

Almudena Cózar, Noemí Rubio and Herminia Vergara 2143–2151

Comparison and relationship between meat colour and antioxidant capacity of different pig breeds

*Wei Chen, Qi-fan Zeng, Hai-peng Xu, Guo-feng Fang, Shou-dong Wang, Chuan-hao Li,
Yan-dong Wang, Hui Wang and Yong-qing Zeng* 2152–2157

Rural Development

Herd dynamics reflect constraints for pig production and farmer attitudes in smallholder systems in Lao PDR

Tassilo T. Tiemann, Ammaly Phengvilaysouk and Soukanh Keonouchanh 2158–2166
