MELBOURNE
1972

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

A medium for the publication of results of original scientific research in the biological sciences with special emphasis on the experimental phases.

Published by the Commonwealth Scientific and Industrial Research Organization.

Issued six times a year, \$A6 per annum.

BOARD OF STANDARDS

The Board of Standards for this Journal is appointed by the Commonwealth Scientific and Industrial Research Organization and the Australian Academy of Science and consists of Dr. S. D. Hamann (Chairman), Mr. B. J. Walby (Editor-in-Chief), Professor D. G. Catchside, Professor T. C. Chambers, Professor C. M. Donald, Professor R. A. W. Green, Dr. I. G. Jarrett, Professor F. L. Milthorpe, Professor C. B. O. Mohr, Mr. D. J. Rochford, Professor H. R. Wallace, and Dr. J. P. Wild.

ADVISORY COMMITTEE

Acceptance of papers for this Journal is in the hands of an Advisory Committee consisting of a Chairman, appointed by the Executive of CSIRO and the Council of the Australian Academy of Science, and members appointed by the Board of Standards: Dr. I. G. Jarrett (Chairman), Professor G. Burnstock, Professor C. M. Donald, Professor F. J. R. Hird, Professor L. G. Paleg, Professor M. G. Pitman, and Mr. B. J. Walby (Editor-in-Chief).

All enquiries and manuscripts should be forwarded to

The Editor-in-Chief,
Editorial and Publications Section, CSIRO,
Sixth Floor,
372 Albert Street,
East Melbourne, Victoria 3002

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

VOLUME 25, NUMBER 1, FEBRUARY 1972

CONTENTS

PAGE

Plant Physiology

- The pattern of grain set within ears of wheat. By L. T. Evans, J. Bingham, and M. A. Roskams 1
- The fine structure of the wheat scutellum before germination. By J. G. Swift and T. P. O'Brien 9
- Studies on the aleurone layer. I. Conventional and fluorescence microscopy of the cell wall with emphasis on phenol-carbohydrate complexes in wheat. By R. G. Fulcher, T. P. O'Brien, and J. W. Lee 23
- Effects of oxygen and carbon dioxide on respiration, storage life, and organic acids of green bananas. By W. B. McGlasson and R. B. H. Wills .. 35

Microbiology

- Effects of tetracycline antibiotics on plants affected by legume little leaf disease. By J. W. Bowyer and J. G. Atherton 43
- Electron microscopy of Koongol group arboviruses. By Anne E. Stevenson and I. H. Holmes 53

Biophysics

- Natural and forced circadian oscillations in the leaf of *Trifolium repens*. By B. I. H. Scott and H. F. Gulline 61

Biochemistry

- The effect of mineral nutrient deficiency on the content of free amino acids in *Setaria sphacelata*. By R. D. Court, W. T. Williams, and M. P. Hegarty 77
- Characterization of electron transport in turnip microsomes. By J. M. Rungie and J. T. Wiskich 89
- Changes in microsomal electron transport of plant storage tissues induced by slicing and aging. By J. M. Rungie and J. T. Wiskich 103
- Inhibitor studies on the biosynthesis of chondromucoprotein by chicken embryonic cartilage. By P. L. Jeffrey and K. G. Rienits 115

Ethanolamine phospholipid metabolism in myelinating rat brain. By S. J. Wysocki and W. Segal	125
Keratin fibres. VI. Mechanism of the Allwörden reaction. By J. H. Bradbury and J. D. Leeder	133
Ultra-high-sulphur proteins in the hairs of the Artiodactyla. By J. M. Gillespie and Andrea Broad	139

Genetics

Corrigendum to: Genetic polymorphism in a subdivided population. By M. A. B. Deakin	213
---------------------------------------------------------------------------------------------	-----

Animal Physiology

The significance of hormones, bile salts, and feeding in the regulation of bile and other digestive secretions in the rat. By H. M. Shaw and T. Heath	147
Regulation of output of electrolytes in bile and pancreatic juice in sheep. By I. Caple and T. Heath	155
Ovum transport in the ewe. By P. J. Holst and A. W. H. Braden	167
The effect of storage <i>in vitro</i> on the DNA content of bull spermatozoa. By A. W. Blackshaw and G. W. Salisbury	175
Sulphur metabolism and excretion studies in ruminants. V. Ruminal desulphuration of methionine and cyst(e)ine. By P. R. Bird	185
Sulphur metabolism and excretion studies in ruminants. VI. The digestibility and utilization by sheep of ³⁵ S from ³⁵ S-labelled ruminal microorganisms. By P. R. Bird	195
The incorporation of linoleic acid into the tissues of growing steers offered a dietary supplement of formaldehyde-treated casein-safflower oil. By G. J. Faichney, H. Lloyd Davies, T. W. Scott, and L. J. Cook	205

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

VOLUME 25, NUMBER 2, APRIL 1972

CONTENTS

PAGE

Plant Physiology

- Relationship of photosynthetic effectiveness of different kinds of light to chlorophyll content and chloroplast structure in greening wheat and in ivy leaves. By J. T. O. Kirk and D. J. Goodchild 215
- Uptake and transport of ions in barley seedlings. II. Evidence for two active stages in transport to the shoot. By M. G. Pitman 243
- Haploid *Arabidopsis thaliana* callus and plants from anther culture. By P. M. Gresshoff and C. H. Doy 259
- Ultrastructure and differentiation of *Hydrodictyon reticulatum*. III. Formation of the vegetative daughter net. By H. J. Marchant and J. D. Pickett-Heaps 265
- Ultrastructure and differentiation of *Hydrodictyon reticulatum*. IV. Conjugation of gametes and the development of zygospores and azygospores. By H. J. Marchant and J. D. Pickett-Heaps 279
- Vascular tissue and transfer cell distribution in the rice spikelet. By S.-Y. Zee 411
- Localization of thallium in stomata is independent of transpiration. By C. K. Pallaghy 415
- Activation energy analysis and limiting factors in photosynthesis. By R. M. Gifford and R. B. Musgrave 419
- Conductive capacities of veins in expanding leaves of *Quercus*. By D. F. Parkhurst 425

Microbiology

- Inter-isolate heterokaryosis in *Thanatephorus cucumeris*. I. Between isolates of similar pathogenicity. By Helena M. Stretton and N. T. Flentje .. 293
- Inter-isolate heterokaryosis in *Thanatephorus cucumeris*. II. Between isolates of different pathogenicity. By Helena M. Stretton and N. T. Flentje .. 305
- A field experiment to assess the role of parainfluenza type 3 virus in pneumonia in a flock of sheep in Victoria. By T. D. St. George and C. E. Liefman .. 319
- The possible use of alternating temperatures for the reduction of viruses in plant tissue. By J. G. Bald 429

Biochemistry

- Fluoroacetic acid biosynthesis: a proposed mechanism. By R. J. Mead and W. Segal 327

Genetics

- The role of wild and cultivated grasses in the hybridization of formae speciales of *Puccinia graminis*. By N. H. Luig and I. A. Watson 335
- Computer simulation of a sporophytic self-incompatibility breeding system. By B. C. Imrie, Colleen J. Kirkman, and D. R. Ross 343

Animal Physiology

- The output of spermatozoa in rams. I. Relationship with testicular output of spermatozoa and the effect of ejaculations. By B. F. Lino and A. W. H. Braden 351
- The output of spermatozoa in rams. II. Relationship to scrotal circumference, testis weight, and the number of spermatozoa in different parts of the urogenital tract. By B. F. Lino 359
- Effects of some buffers and inorganic and organic sodium salts in synthetic diluents for the storage of ram spermatozoa at 37 or 5°C. By K. R. Lapwood and I. C. A. Martin 367
- Effects of composition of diluent, method of addition of glycerol, freezing rate, and storage temperature on the revival of ram spermatozoa after deep-freezing. By K. W. Entwistle and I. C. A. Martin 379
- Changes in acid and alkaline phosphatase activities in the uterus and oviduct of the rabbit doe during early pregnancy. By R. N. Murdoch 387
- Effects of fasting on oestrus and ovulation in the oestrous rabbit. By T. N. Edey and L. E. Casida 397
- Pancreatic exocrine secretion and digestion in the sheep. By I. G. Jarrett and O. H. Filsell 405
- Fertilization of sheep ova following mechanical penetration of the zona pellucida. By N. W. Moore 433

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

VOLUME 25, NUMBER 3, JUNE 1972

CONTENTS

	PAGE
Plant Physiology	
Hormonal modification of plant response to water stress. By Y. Mizrahi and A. E. Richmond	437
Effects of intercellular resistances on estimates of the intracellular resistance to CO ₂ uptake by plant leaves. By H. G. Jones and R. O. Slatyer ..	443
Distribution of assimilate during stem elongation in wheat. By J. W. Patrick	455
The fine structure of the wheat scutellum during germination. By J. G. Swift and T. P. O'Brien	469
Localization of arginine-rich proteins in mature seeds of some members of the Gramineae. By R. G. Fulcher, T. P. O'Brien, and D. H. Simmonds	487
Ultrastructural localization of ions. I. Effect of high external sodium chloride concentration on the apparent distribution of chloride in leaf parenchyma cells of barley seedlings. By R. F. M. Van Steveninck and A. R. F. Chenoweth	499
Light-induced effects of Tris on the ultrastructure of leaf tissue. By Cathryn J. Mittelheuser and R. F. M. Van Steveninck	517
Nitrate accumulation and reduction in papaw fruits. By R. C. Menary and R. H. Jones	531
Control of growth in <i>Callitriche</i> shoots by growth retardants and gibberellic acid. By C. H. Wong and A. J. McComb	637
Influence of epicuticular waxes on foliar absorption of nitrate ions by apricot leaf disks. By D. R. Leece and A. L. Kenworthy	641
Microbiology	
Ultrastructure of spermine-treated <i>Escherichia coli</i> , including a polar organelle concerned with envelope synthesis. By K. Y. Cho and C. H. Doy ..	543
Investigation of vascular-streak dieback of cocoa in Papua New Guinea. By P. J. Keane, N. T. Flentje, and K. P. Lamb	553

Genetics

- Further evidence on multiple-peak epistasis in *Drosophila melanogaster*. By
R. F. Nassar 565

Animal Physiology

- The distribution of coated vesicles in keratinizing cells of the wool follicle. By
D. F. G. Orwin and R. W. Thomson 573
- The sweat glands and hair follicles of European cattle. By D. McEwan
Jenkinson and T. Nay 585
- The time course of embryonic resorption in the ewe. By C. J. Thwaites .. 597
- Effect of composition of Tris-based diluent and of thawing solution on survival
of ram spermatozoa frozen by the pellet method. By S. Salamon and
D. Visser 605
- Erythrocyte glutathione polymorphism in sheep. By N. S. Agar, J. Roberts,
and J. V. Evans 619
- Seasonal changes in reproductive productivity, growth rate, and food intake in
mice exposed to different regimes of day length and environmental
temperature. By Pamela R. Pennycuik 627
- Structure of the heart of the ascidian *Pyura praeputialis* (Heller). By C. K.
Goddard 645

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

VOLUME 25, NUMBER 4, AUGUST 1972

CONTENTS

PAGE

Plant Physiology

- The effect of day length on primordia production of the wheat apex. By Daphne Lucas 649
- Accumulation of dry matter and nitrogen by grains in different positions of the wheat ear as influenced by shading and defoliation. By P. M. Bremner .. 657
- A model of the extension and branching of a seminal root of barley, and its use in studying relations between root dimensions. I. The model. By C. Hackett and D. A. Rose 669
- A model of the extension and branching of a seminal root of barley, and its use in studying relations between root dimensions. II. Results and inferences from manipulation of the model. By C. Hackett and D. A. Rose 681
- Organ regeneration on excised roots of *Chondrilla juncea* and its chemical regulation. By N. P. Kefford and O. H. Caso 691
- The external location of phosphatase activity in phosphorus-deficient *Spirodela oligorrhiza*. By R. L. Bielecki and P. N. Johnson 707
- The transverse veins of the wheat leaf. By J. Kuo, T. P. O'Brien, and S.-Y. Zee 721
- Internode extension of eucalypts reduced in artificial light. By K. W. Cremer .. 849
- The initiation of developmental drifts in excised plant tissues. By W. J. Cram 855

Microbiology

- Heterokaryon formation and genetic recombination between auxotrophic and morphological mutants of *Thanatephorus cucumeris*. By R. L. Dodman .. 739
- Plant competition mediated by host-specific parasites—a simple model. By G. A. Chilvers and E. G. Brittain 749
- Oospore production in *Phytophthora cinnamomi* in the presence of *Trichoderma koningii*. By B. H. Pratt, J. H. Sedgley, W. A. Heather, and C. J. Shepherd 861

Biochemistry

- The entry of selenium into rabbit protein following the administration of $\text{Na}_2^{75}\text{SeO}_3$. By K. O. Godwin and Christine N. Fuss 865

Genetics

- Genetic studies of a dome mutant and its suppressor gene in *Schizophyllum commune*. By S. T. Chang 757
- Cytogenetical studies in wheat. VI. Chromosome location and linkage studies involving *Sr13* and *Sr8* for reaction to *Puccinia graminis* f. sp. *tritici*. By R. A. McIntosh 765
- Apparent effect of the *N* gene of sorghum on incidence of infection by a "Johnson grass" strain of sugar-cane mosaic virus. By D. S. Teakle and R. F. Moore 873

Animal Physiology

- Ultrastructure of nuclear division in *Paramecium aurelia*. III. Meiosis in the micronucleus during conjugation. By I. Stevenson 775
- Oestrous frequency and incidence of pregnancy in mice housed singly and in groups at 4, 21, and 33°C. By Pamela R. Pennycuik 801
- Metabolism of [^{14}C]formaldehyde when fed to ruminants as an aldehyde-casein-oil complex. By S. C. Mills, L. F. Sharry, L. J. Cook, and T. W. Scott 807
- Sulphur metabolism and excretion studies in ruminants. VII. Secretion of sulphur and nitrogen in sheep pancreatic and bile fluids. By P. R. Bird 817
- Sulphur metabolism and excretion studies in ruminants. VIII. Methionine degradation and utilization in sheep when infused into the rumen or abomasum. By P. R. Bird and R. J. Moir 835
- Corrigendum 875

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

VOLUME 25, NUMBER 5, OCTOBER 1972

CONTENTS

PAGE

Plant Physiology

- The regulation of stomatal aperture in tobacco leaf epidermal strips. IV. The effect of bicarbonate/carbon dioxide. By D. A. Thomas 877
- Action spectrum for the opening of *Albizia julibrissin* pinnules, and the role of phytochrome in the closing movements of pinnules and of stomata of *Vicia faba*. By L. T. Evans and W. G. Allaway 885
- Effect of sodium chloride salinity on the water balance of *Atriplex halimus*. By A. Kaplan and J. Gale 895
- Uptake and transport of ions in barley seedlings. III. Correlation between transport to the shoot and relative growth rate. By M. G. Pitman .. 905
- Fixation of $^{14}\text{CO}_2$ by flowering and non-flowering glumes of the wheat ear, and the pattern of transport of label to individual grains. By P. M. Bremner and H. M. Rawson 921

Microbiology

- Transcontinental occurrence of A1 and A2 strains of *Phytophthora cinnamomi* in Australia. By B. H. Pratt, W. A. Heather, and C. J. Shepherd .. 1099

Biophysics

- Permeability of the duodenum of the toad to non-electrolytes. By D. K. C. Tay and G. P. Findlay 931

Biochemistry

- A polymeric form of haemoglobin-binding protein in sheep following metabolic and hormonal disturbance. By I. G. Jarrett 941
- On the dissociation of bovine β -lactoglobulins A, B, and C near pH 7. By H. A. McKenzie and W. H. Sawyer 949
- Keratin fibres. VII. Proteins of the histological components of kangaroo fibres. By J. H. Bradbury and J. M. O'Shea 963
- Compositional studies of high- and low-crimp wools. By M. E. Campbell, K. J. Whiteley, and J. M. Gillespie 977
- Studies on monotreme proteins. I. Amino acid sequence of the β -chain of haemoglobin from the echidna, *Tachyglossus aculeatus aculeatus*. By R. G. Whittaker, W. K. Fisher, and E. O. P. Thompson 989
- Non-soil constituents of termite (*Coptotermes acinaciformis*) mounds. By L. Rosemary Gillman, Marilyn K. Jefferies, and G. N. Richards .. 1005

Genetics

- Selection for sexual dimorphism in body weight of mice. By E. J. Eisen and J. P. Hanrahan 1015

Animal Physiology

- Insect-control chemicals from plants. Nagilactone C, a toxic substance from the leaves of *Podocarpus nivalis* and *P. hallii*. By G. B. Russell, P. G. Fenemore, and P. Singh 1025
- Inheritance of patterns of oxygen consumption in mice. By Pamela R. Pennycuik 1031
- Toxic effects of aromatic amino acids on the livability of bull spermatozoa. By K. L. Macmillan, J. L. Tiku, and N. L. Hart 1039
- Effect of osmolality and phosphate, 'Tris', 'TES', 'MES', and 'HEPES' hydrogen ion buffers on the motility of bull spermatozoa stored at 37 or 5°C. By R. C. Jones and R. H. Foote 1047
- The utilization of abomasal supplements of proteins and amino acids by sheep with special reference to wool growth. By P. J. Reis and W. F. Colebrook 1057
- Sulphur metabolism and excretion studies in ruminants. IX. Sulphur, nitrogen, and energy utilization by sheep fed a sulphur-deficient and a sulphate-supplemented, roughage-based diet. By P. R. Bird 1073
- Sulphur metabolism and excretion studies in ruminants. X. Sulphide toxicity in sheep. By P. R. Bird 1087
- Effect of pregnancy on the excretion of sulphobromophthalein in bile. By H. M. Shaw and T. Heath 1101
- Effect of colchicine on pre-implantation blastocysts and 10-day-old embryos of the golden hamster. M. Sohrab 1105

AUSTRALIAN JOURNAL OF BIOLOGICAL SCIENCES

VOLUME 25, NUMBER 6, DECEMBER 1972

CONTENTS

	PAGE
Plant Physiology	
Aspects of potassium accumulation by stomata of <i>Vicia faba</i> . By R. A. Fischer	1107
The action of abscisic acid on ion uptake and water flow in plant roots. By W. J. Cram and M. G. Pitman	1125
Photosynthesis of tropical pasture plants. IV. Basis and consequences of differences between grasses and legumes. By M. M. Ludlow and G. L. Wilson	1133
The contribution by leaves of different age to new growth of subterranean clover plants following the removal of a sulphur stress. I. Origin and distribution of dry matter. By D. Bouma, E. A. N. Greenwood, and E. J. Dowling	1147
The contribution by leaves of different age to new growth of subterranean clover plants following the removal of a sulphur stress. II. Uptake and distribution of sulphur. By D. Bouma, Z. Titmanis, and E. A. N. Greenwood	1157
A method of applying nutrients locally to roots under controlled conditions, and some morphological effects of locally applied nitrate on the branching of wheat roots. By C. Hackett	1169
Influence of nutrition on the activities of some enzymes of glycolysis and the pentose phosphate pathway in expanding lucerne leaves. By B. Cartwright	1181
Ultrastructure and differentiation of <i>Hydrodictyon reticulatum</i> . V. Development of polyhedra. By H. J. Marchant and J. D. Pickett-Heaps	1187
Ultrastructure and differentiation of <i>Hydrodictyon reticulatum</i> . VI. Formation of the germ net. By H. J. Marchant and J. D. Pickett-Heaps	1199
The importance of high temperatures in the induction of the resting phase of <i>Pinus elliotii</i> . By M. U. Slee and K. R. Shepherd	1351
Microbiology	
Effects of lettuce mosaic virus on the fine structure of mesophyll cells of <i>Chenopodium quinoa</i> Willd. By R. D. Pares	1355
Biophysics	
Thermal properties of the collagen of jellyfish (<i>Aurelia coerulea</i>) and their relation to its thermal behaviour. By B. J. Rigby and M. Hafey	1361

Biochemistry

Control of glucose-metabolizing enzymes in preneoplastic rat liver. By M. G. Irving, J. F. Williams, and J. B. W. Halley	1215
The chemical composition of wool. X. Material digested by trypsin from fibres and cortical cells. By D. E. Peters and J. H. Bradbury	1225
The chemical composition of wool. XI. Separation and analysis of exocuticle and endocuticle. By J. H. Bradbury and K. F. Ley	1235
Significance of the orientation of coordinated imidazole and benzimidazole groups in haemoprotein and vitamin B ₁₂ structures. By J. E. Fergusson, W. T. Robinson, and G. A. Rodley	1365
Microfibrillar material from various sources of keratin. By P. G. Whitmore ..	1373
Effect of sulphate ion on the <i>in vitro</i> rumen digestion of polysaccharide constituents of bagasse. By R. F. H. Dekker and G. N. Richards	1377

Animal Physiology

Tinctorial differentiation of the cell types in the pars anterior of the sheep. By Robin Tassell and J. P. Kennedy	1249
Metabolism of cystine by Merino sheep genetically different in wool production. I. Comparison of the entry rates of cystine in sheep from flocks selectively bred for high and low fleece weight. By A. J. Williams, R. A. Leng, and S. K. Stephenson	1259
Metabolism of cystine by Merino sheep genetically different in wool production. II. The responses in wool growth to abomasal infusions of L-cystine or DL-methionine. By A. J. Williams, G. E. Robards, and D. G. Saville	1269
Plasma glucagon concentrations in sheep: their regulation and relation to concentrations of insulin and growth hormone. By J. M. Bassett ..	1277
Phosphomonoesterases and histamine in the uterus of the ewe during early pregnancy. By R. N. Murdoch	1289
Sulphur metabolism and excretion studies in ruminants. XI. Cycling of ³⁵ S to the caecum and colon and the influence of the hindgut on sulphur excretion. By P. R. Bird and R. F. Thornton	1299
Estimation of the total entry rate and resynthesis of glucose in sheep using glucoses uniformly labelled with ¹⁴ C and variously labelled with ³ H. By G. J. Judson and R. A. Leng	1313
Trans-lactation changes in the activities of selected enzymes in biopsy samples of the bovine mammary gland. By W. B. Currie	1333
Relationships between milk and milk fat composition and trans-lactation changes in mammary gland enzyme activities in grazing cattle. By W. B. Currie	1341
Histamine levels in the blood of pregnant mares. By N. S. Fernandes and C. K. Rantilla	1381
Corrigendum	1383
Index	1385
