Supplementary file to manuscript “Species distribution modeling and climatic niche as tools to aid in the integrative taxonomy of a South American species complex in *Chromolaena* (Asteraceae, Eupatoriaceae)”

Supplementary file S1. Voucher data.

The table below provides voucher data for all specimens included in our analyses, including geographical locations and coordinates. For specimens without unavailable herbarium’s catalog numbers, collector and collector’s number are provided to properly identify the specimen used. Specimens are grouped according to their *a priori* identification.

Taxon	Herbarium	Catalog Number	Country	Department/Province/ State	Municipality	Longitude	Latitude
