

AUSTRALIAN JOURNAL OF BOTANY

A journal for papers in ecology and ecophysiology; conservation biology and biodiversity; forest biology and management; cell and molecular biology; palaeobotany; reproductive biology and genetics; mycology and pathology; and structure and development

Contents Volume 58 Issue 2 2010

Ecology and Ecophysiology

Fusicoccin inhibits dark-induced stomatal closure by reducing nitric oxide in the guard cells of broad bean.
Xiao-Ping She, Jin Li, Ai-Xia Huang and Xi-Zhu Han 81–88

Conservation Biology and Biodiversity

Effect of storage temperature on spore viability and early gametophyte development of three vulnerable species of *Alsophila* (Cyatheaceae).
Y. Li, Y. L. Zhang, C. D. Jiang, T. Wang, Q. Wang and L. Shi 89–96

Mycorrhizal specificity of *Diuris fragrantissima* (Orchidaceae) and persistence in a reintroduced population.
Zoë F. Smith, Elizabeth A. James and Cassandra B. McLean 97–106

Reproductive Biology and Genetics

In situ seed development and *in vitro* regeneration of three difficult-to-propagate *Lepidosperma* species (Cyperaceae).
Andrea Kodym, Shane Turner and John Delpratt 107–114

Floral traits, pollination ecology and breeding system of three *Clematis* species (Ranunculaceae) in Yunnan province, southwestern China.
Nan Jiang, Wen-Bin Yu, Hong-Zhe Li and Kai-Yun Guan 115–123

The mating system of *Acrotriche serrulata* (Ericaceae).
Melanie Schneemilch and Emma Steggles 124–132

Mycology and pathology

The effect of *Cylindrocarpon destructans* on the growth of *Eucalyptus regnans* seedlings in air-dried and undried forest soil.
T. M. Iles, D. H. Ashton, K. J. Kelliher and P. J. Keane 133–140

Structure and Development

Architectural traits of fruiting shoots in *Juglans regia* (Juglandaceae) related to fruiting habit and environmental conditions.
Damijan Kelc, Franci Štampar and Anita Solar 141–148

Forest biology and management

Casuarina junghuhniana (Casuarinaceae) in India.
R. S. C. Jayaraj 149–156
