

Australian Journal of

Experimental Agriculture

Contents Volume 47, Issue 2, 2007, 119–229

Animal Production

Electrolyte supplementation of live export cattle to the Middle East.

D. T. Beatty, A. Barnes, R. Taplin, M. McCarthy and S. K. Maloney 119–124Effect of processing methods on the nutritional value of *Mucuna cochinchinensis* to broiler chicks.*S. N. Ukachukwu and F. C. Obioha* 125–131Aspects of growth performance and nutrient retention of starter broilers fed *Mucuna cochinchinensis*-based diets supplemented with methionine.*S. N. Ukachukwu, S. O. Uzoech and J. N. Obiefuna* 132–135

Pasture, Fodder Crops

Persistence of winter-active phalaris breeding populations, cultivars and other temperate grasses in diverse environments of south-eastern Australia.

R. A. Culvenor, S. P. Boschma and K. F. M. Reed 136–148

Responses to the renovation of an irrigated perennial pasture in northern Victoria.

1. Pasture consumption and nutritive characteristics.

A. R. Lawson and K. B. Kelly 149–158

Responses to the renovation of an irrigated perennial pasture in northern Victoria.

2. Botanical composition, and plant and tiller densities.

A. R. Lawson and K. B. Kelly 159–169

Perennial legumes native to Australia – a preliminary investigation of nutritive value and response to cutting.

K. Robinson, L. W. Bell, R. G. Bennett, D. A. Henry, M. Tibbett and M. H. Ryan 170–176Development and application of polymerase chain reaction-based assays for *Rathayibacter toxicus* and a bacteriophage associated with annual ryegrass (*Lolium rigidum*) toxicity.*M. C. Kowalski, D. Cahill, T. J. Doran and S. M. Colegate* 177–183

Field Crops

Surface soil acidity and fertility in the central-western wheatbelt of New South Wales.

C. M. Evans and B. J. Scott 184–197

Cold temperature exposure at 10°C for 10 and 20 nights does not reduce tissue viability in vegetative and early flowering cotton plants.

A. J. McDowell, M. P. Bange and D. K. Y. Tan 198–207

Using electro-magnetic induction technology to identify sampling sites for soil acidity assessment and to determine spatial variability of soil acidity in rice fields.

B. W. Dunn and H. G. Beecher 208–214

Turfgrass Science

Evaluation of a soil moisture sensor to reduce water and nutrient leaching in turfgrass (*Cynodon dactylon* cv. Wintergreen).*S. M. Pathan, L. Barton and T. D. Colmer* 215–222

Cultivar Description

Coolamon subterranean clover (*Trifolium subterraneum* L. var. *subterraneum*).*P. G. H. Nichols, M. J. Barbetti, G. A. Sandral, B. S. Dear, C. T. de Koning, D. L. Lloyd, P. M. Evans, A. D. Craig, P. Si and M. P. You* 223–225Izmir subterranean clover (*Trifolium subterraneum* L. var. *subterraneum*).*P. G. H. Nichols, G. A. Sandral, B. S. Dear, C. T. de Koning, D. L. Lloyd, P. M. Evans, A. D. Craig, B. J. Nutt, M. J. Barbetti, P. Si and M. P. You* 226–229
