

Exploration Geophysics

The Bulletin of the Australian Society of Exploration Geophysicists

EDITORIAL PANEL

Managing Editor

Mark Lackie

- 2D efficient ray tracing with a modified shortest path method 301
Meigen Zhang, Liyun Fu, Xinfu Lu and Xiaofan Li

20th ASEG Geophysical Conference and Exhibition, February 2009

- Comparison of ground TEM and VTEM responses over kimberlites
 in the Kalahari of Botswana 308
Ed Cunion

- The numerical simulation and imaging of seismic scattered wave applied
 to base metal exploration 320
Yun Wang, Junjie Yin and Bin Guo

- The Radiometric Map of Australia 325
*Brian Minty, Ross Franklin, Peter Milligan, Murray Richardson
 and John Wilford*

- Integrating geological and geophysical data through advanced
 constrained inversions 334
Peter G. Lelièvre, Douglas W. Oldenburg and Nicholas C. Williams

- Geophysical modelling of the Gawler Province, SA – interpreting
 geophysics with geology 342
Philip Heath, Tania Dhu, Gary Reed and Martin Fairclough
