

Exploration Geophysics

The Bulletin of the Australian Society of Exploration Geophysicists

EDITORIAL PANEL

Managing Editor

Mark Lackie

Spherics noise reduction in time-domain electromagnetic systems:
application to MegaTEM[®] signal enhancement

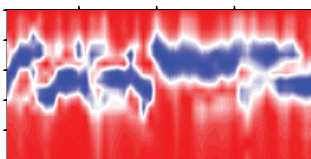

*Abderrezak Bouchedda, Michel Chouteau, Pierre Keating
and Richard Smith*.....

225

Inversion of concentric loop electromagnetic data by transformation
to an equivalent potential field response

Lachlan Hennessy and James Macnae.....

240

3D inversion of airborne electromagnetic data using a moving footprint

Leif H. Cox, Glenn A. Wilson and Michael S. Zhdanov.....

250

Is visual interactive ray trace an efficacious strategy for refraction inversion?

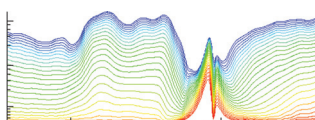

Derecke Palmer.....

260

The use of three geophysical methods for 3D images of total root volume
of soil in urban environments

Giovanni Leucci.....

268

Integrated geophysical exploration for the Longtoushan Ag-Pb-Zn deposit
in the southeast of the Da Xing'an Ling mountains, Inner Mongolia,
northern China

*Weijun Chen, Hongtao Liu, Jianming Liu, Xingguo Sun
and Qingdong Zeng*.....
