

Abstracts for the
33rd Annual Conference of the
Society for Reproductive Biology,
Adelaide, South Australia,
22-25 September 2002

Contents

1. Epigenetic phenomena in reproductive biology
Michael K. Holland
2. Epigenetic inheritance in mammals
E. Whitelaw, V. Rakyan, J. Preis, M. Blewitt, R. Druker and S. Chong
3. Supramolecular science to nanotechnology
Lisa Martin
4. Grapes and wine flavour
Patrick J. Williams
5. Iron is highly genotoxic toward human spermatozoa
D.E. Sawyer and R.J. Aitken
6. Morphological manifestation of Y chromosomal microdeletions in the human testis
C.M. Luetjens, M. Simoni, E. Gromoll and E. Nieschlag
7. Leptin inhibits basal but not stimulated testosterone production by the immature mouse testis
Murren Herrid and Jim McFarlane
8. The role of FGFR signalling in sperm tail development
Leanne M. Cotton, Gerard M. Gibbs, John R. Morrison, Kim Sebire, David M. de Kretser and Moira K. O'Bryan
9. Redox regulation of sperm function
Mark A. Baker, Anton Krutskikh and R. John Aitken
10. Does calcium have a role in sperm head rotation to T-shape orientation during capacitation? A tale of two marsupials species, the brushtail possum (*Trichosurus vulpecula*) and the tammar wallaby (*Macropus eugenii*)
K.S. Sidhu, K.E. Mate and J.C. Rodger
11. Prolactin is a preimplantation growth factor in mice
K. Markham and P.L. Kaye
12. Real-time PCR expression of hypoxia-inducible factors during bovine preimplantation embryo development
Alexandra J. Harvey, Karen L. Kind and Jeremy G. Thompson
13. Effect of *in vitro* oxygen concentration on glucose transporter-1 expression in the mouse blastocyst
Karen L. Kind, Rachael A. Collett, Alexandra J. Harvey and Jeremy G. Thompson

14. A comparison of staining methods used to determine numbers of cells in pig blastocysts
Christopher G. Grupen, Stephen M. McIlpatrick, Rodney J. Ashman and Mark B. Nottle
15. Paracrine perturbations associated with bovine nuclear transfer pregnancies
Susan Ravelich, Bernhard Breier, Jim Peterson, Jeffery Keelan, David Wells and Rita Lee
16. Survival of fresh and vitrified sheep IVP and cloned embryos after embryo transfer
Teija T. Peura, Katrina M. Hartwich, Jennifer M. Kelly, Hamish M. Hamilton, David O. Kleemann, Skye R. Rudiger and Simon K. Walker
17. Abnormal trophoblast MHC-I expression and associated endometrial lymphocytic response in bovine nuclear transfer pregnancies
Jonathan R. Hill, Patricia J. Fisher, Christopher J. Davies and Donald H. Schlafer
18. Concentration of progesterone and superovulatory response with different dosages of FSH
Luciene Lomas Santiago, Ciro Alexandre Alves Torres, Eduardo Terra Nogueira, Antonio Bento Mancio and Graeme B. Martin
19. Effect of seminal plasma on frozen–thawed boar sperm
R. Bathgate, B.M. Eriksson, W.M.C. Maxwell and G. Evans
20. The influence of environmental temperature on elite A.I. bulls housed in a cooling shed or field
A. Brockway, J. Shaw and K. Macmillan
21. Flow cytometric sorting of frozen–thawed ram spermatozoa
F.K. Hollinshead, W.M.C. Maxwell, G. Evans and J.K. O'Brien
22. Effect of time of insemination and dose of sorted, cryopreserved ram sperm on fertility in ewes
F.K. Hollinshead, D. Rath, J.K. O'Brien, W.M.C. Maxwell and G. Evans
23. The effect of nutrition during the cycle of mating on oviductal fluid ammonia and urea levels in the ewe
M.A. Kakar, S. Maddocks, M.F. Lorimer, D.O. Kleemann, S.R. Rudiger and S.K. Walker
24. Pituitary LH β - and FSH β -subunit mRNA and LH and FSH content in heifers during and after treatment with GnRH agonist
W.J. Aspden, T.E. Trigg, and M.J. D'Occhio
25. Expression of germ cell and somatic cell markers during gonadal development in a marsupial
Gratiana E. Wijayanti, Geoff Shaw and Marilyn B. Renfree
26. Leptin receptor mRNA expression during follicular development and ovulation in the immature primed rat ovary
Natalie K. Ryan, Lesley J. Ritter, Melinda J. Jasper and Robert J. Norman
27. Androgen receptor expression in ovarian epithelium in mice of differing ages and total ovulation number
Olivia L. Tan, Peter R. Hurst and Jean S. Fleming
28. Localisation of epitopes on brushtail possum (*Trichosurus vulpecula*) zona pellucida 2 protein
Xianlan Cui, Janine Duckworth, Susie Scobie, Denise Jones and Phil Cowan
29. Eosinophils in development and function of reproductive tissues
Amanda Sferruzzi-Perri, Ann Hallett, Sarah Robertson and Lindsay Dent

30. Embryo development and biotechnology
Alan Trounson
31. The immunological paradox of pregnancy — survival of the ultimate allograft
Bruce E. Loveland
32. Present and future options for preservation of testis tissue and function
Stefan Schlatt
33. Does the immune system play a role in reproduction? A clinician's perspective
Kelton Tremellen
34. Finding solutions: semen and maternal immune tolerance
Sarah A. Robertson
35. Estradiol-mediated cyclin D2 expression: a role for ER α ?
Ann E. Drummond, Mitzi Dyson and Jock K. Findlay
36. Purification of human granulosa cells from follicular fluid samples for use in serial analysis of gene expression (SAGE)
Michael C.J. Quinn, J.L. Stanton, P.A. Hessian and D.P.L. Green
37. Remodelling of extracellular matrix in bovine follicles at ovulation
Helen F. Irving-Rodgers, Michael J. D'Occhio, William J. Aspden and Raymond J. Rodgers
38. Proteoglycans: osmotically active molecules in follicular fluid
Hannah G. Clarke, Sharon Byers, Sarah A. Hope and Raymond J. Rodgers
39. The influence of the oocyte during *in vitro* maturation on the metabolism of bovine cumulus–oocyte complexes
Melanie Sutton, Pablo Cetica, Robert Gilchrist and Jeremy Thompson
40. Expression without secretion of TGF- β 1 and TGF- β 2 by bovine and murine oocytes
Lesley J. Ritter, Megan P. Morrissey, David T. Armstrong and Robert B. Gilchrist
41. Development and antrum formation in marsupial preantral follicles cultured in a serum-free medium
N.M. Richings, P.D. Temple-Smith and M.B. Renfree
42. Incorporation of BrdU into the ovarian surface epithelium in mature mouse ovary slices maintained in culture
Peter R. Hurst, Pam G. Garry and Stephen J. Bunn
43. Sex differences in the neuronal inputs from the hypothalamus and brainstem to the region of the gonadotrophin-releasing hormone (GnRH) neurones in the medial preoptic area
Christopher J. Scott, Iain J. Clarke and Alan J. Tilbrook
44. *In vitro* regulation of activin/inhibin subunits, follistatin and bambi in the 3 day old rat testis by activin, follistatin and FSH
Terri Meehan, Ann Drummond, David de Kretser and Kate Loveland
45. Regulation of Sertoli cell activin and inhibin secretion by hormones, cytokines and the seminiferous epithelial cycle
Yoshinori Okuma, Anne O'Connor, Julie Muir, David Phillips, David de Kretser and Mark Hedger
46. Characterisation of plasma inhibin forms in fertile and infertile men
D.M. Robertson, T. Stephenson and R.I. McLachlan

47. Contraceptive efficacy of a depot androgen and progestin combination in men
L. Turner, S. Wishart, A.J. Conway, P.Y. Liu, E. Forbes, R.I. McLachlan and D.J. Handelsman
48. Presence of immune modulating molecules in boar seminal plasma
S. O'Leary, D.T. Armstrong and S.A. Robertson
49. Influence of oxytocin on oxytocin receptor and 5 α -reductase transcription in the rat prostate
Steve Assinder, Mei Sun and Helen Nicholson
50. Intromission failure leads to infertility in TGF β 1 null mice
Wendy V. Ingman and Sarah A. Robertson
51. Immunoregulatory cytokines in seminal plasma of men with inflammation or sperm autoimmunity
Robert Ochsenkühn, Julie Muir, David de Kretser and Mark Hedger
52. Seasonal changes in the abundance of 14 kDa seminal plasma proteins shown to bind to ram spermatozoa
Rita Lee, Nicole Nogoy and John Smith
53. Identification and localisation of a mesotocin receptor in the prostate of the brushtail possum
Helen Nicholson, Jo Fink, Steve Assinder, Bernie McLeod and Laura Parry
54. Tyrosine phosphorylation and epididymal maturation in murine spermatozoa
Kelly Asquith, Heath Ecroyd and John Aitken
55. Use of the yeast two-hybrid system to characterise the function of sperm protein, tpx-1
Deborah Hickox, Amy Herlihy, Kim Sebire, David de Kretser and Moira O'Bryan
56. Gene expression of adenylyl cyclase in rat testis and caudal epididymal sperm
M.A. Wade, S.D. Roman, R.C. Jones and R.J. Aitken
57. Sperm surface protein PH-20 expression during sheep spermatogenesis
Fu Yu, Helen D. Nicholson, Robin McDonald, Stuart A. Meyers, Grant W. Montgomery, John F. Smith and Jean S. Fleming
58. Ovarian follicular development is compromised in transgenic (mRen-2)²⁷ rats and angiotensin II-infused Sprague Dawley rats
T.E. de Gooyer, D.J. Kelly, R.E. Gilbert and J.L. Wilkinson-Berka
59. Effect of sub-bursal Fas antibody administration on follicular caspase-3 activation and ovarian volume
M.A. Fenwick and P.R. Hurst
60. Granulosa cells mature before death in basal atresia
Helen F. Irving-Rodgers, Malgosia Krupa and Raymond J. Rodgers
61. Estrogen promotes angiogenesis in ER α -expressing human myometrial microvascular endothelial cells by upregulating VEGF receptor-2
Caroline E. Gargett, Marina Zaitseva, Kristina Bucak and Peter A.W. Rogers
62. Dietary estrogens have selective effects on the reproductive axis in estrogen deficient ArKO mice
Kara Britt, Margaret Jones, Ann Drummond, Evan Simpson and Jock Findlay
63. A long term follow-up of a female with aromatase deficiency
Yoko Murata, József Kovács, Julia Crone, Kurosh Paya, Gabriele Amman, Kara Britt, Evan R. Simpson and Franz Waldhauser

64. Liver receptor homologue-1 regulates aromatase expression in preadipocytes
Colin D. Clyne, Caroline J. Speed, Agnes Kovacic, Jiong Zhou and Evan R. Simpson
65. Mechanisms underlying the reduced sensitivity to prolactin negative feedback during lactation
S.T. Anderson, J.L. Barclay, D.H.L. Kusters, S.P. Tam, P. Lau, D.R. Grattan, M.J. Waters and J.D. Curlewis
66. The neuroendocrinology of stress
G.P. Chrousos
67. Signalling mechanisms during apoptosis
Arun M. Dharmarajan
68. *Drosophila* as a model system to study steroid hormone-regulated cell death
Sharad Kumar, Dimitrios Cakouros, Loretta Dorstyn and Tasman Daish
69. Negative regulation of prolactin-receptor signalling by SOCS proteins: a new mechanism in luteolysis?
J.D. Curlewis, M.J. Waters and S.T. Anderson
70. Paracrine signalling within the ovarian follicle: potential for TGF- β superfamily members to influence oocyte and granulosa cell interactions
Robert B. Gilchrist
71. Expression of TGF- β superfamily members and their signalling componentry by the rat ovary
Ann E. Drummond, Mitzi Dyson, Minh-Tan Le, Jean-François Ethier and Jock K. Findlay
72. Differential gene expression in interleukin-11 receptor α deficient mice compared to wild type during decidualisation
Christine White, Lorraine Robb and Lois Salamonsen
73. Manipulation of bovine oocyte-cumulus cell gap junctional communication during *in vitro* maturation by modulating cell-specific cAMP levels
R.E. Thomas, J.G. Thompson, D.T. Armstrong and R.B. Gilchrist
74. Leptin dynamics in the pregnant rat: changes in clearance rate and transplacental passage late in gestation
Jeremy T. Smith and Brendan J. Waddell
75. Seminal cytokine concentration and human reproductive outcome
David J. Sharkey, Kelton P. Tremellen, Gus A. Dekker and Sarah A. Robertson
76. The effect of *p53* deletion on embryo viability
Aiqing Li and Chris O'Neill
77. Insemination and uterine lymphocyte trafficking in mice
John J. Bromfield and Sarah A. Robertson
78. Generating pituitary cells from embryonic stem cells — a route to pituitary cell therapy?
Shelley Ross, Diana Lepore, Sherry Cook, Julianne Aloe and Paul Thomas
79. Therapeutic applications of stem cell technologies
Peter D. Rathjen and Joy Rathjen
80. Oocyte-derived growth factors and ovulation rate in mammals
Ken P. McNatty, Jennifer L. Juengel, Theresa Wilson, Susan M. Galloway, Scott Gegan, Heywood Sawyer, George H. Davis and Seamus P. Hanrahan

81. Intraovarian regulation of folliculogenesis: signal molecules and their cellular sources
David T. Armstrong
82. Oestrogen target sites in human testis
P.T.K. Saunders, T.L. Gaskell, J.E. Sierens, M.R. Millar, R.M. Sharpe and G.A. Scobie
83. Male contraception — approach to hormonal methods
Robert I. McLachlan
84. Follicular development in wallaby ovarian tissue xenografts is not altered by the hormonal environment of the recipient
M. Snow, S-L. Cox, D. Mattiske, J. Shaw and G. Jenkin
85. Development of antral follicles in rabbit ovarian xenografts in immunodeficient mice
K. Muirhead, S-L. Cox and M. Holland
86. Acute FSH withdrawal impairs Sertoli and germ cell development in the immature rat
Sarah J. Meachem, Jessica Ziolkowski and Kate L. Loveland
87. Evaluation of testicular cooling for germ cell transplantation
Z. Zhang, T. Meehan, D. de Kretser, M.B. Renfree, R.V. Short and K.L. Loveland
88. Delivery of antibodies for male immunocontraception
R.C. Jones, R.A. Knee, H. Ecroyd, N. Newcombe and K.W. Beagley
89. Immunocontraceptive effect of recombinant porcine Zona Pellucida C protein in rabbits
E. McLaughlin, A.J. Robinson, B. Inglis, J. Swan, M.K. Holland and P.J. Kerr
90. Effect of angiogenesis inhibitors on oestrogen-mediated endometrial endothelial cell proliferation in the ovariectomised mouse
B. Heryanto, K.E. Lipson, and P.A.W. Rogers
91. Molecular response of myometrial microvascular endothelial cells to VEGF and progesterone assessed by microarray
Peter A.W. Rogers and Gareth C. Weston
92. Analysis of reproductive phenotype and expression of calcium binding proteins in CaBP-d28k null mice
Kien Luu, Gui-ying Nie, Jock Findlay and Lois Salamonsen
93. Mast cell number and spatial location in the vaginal cul-de-sac of the brushtail possum after administration of exogenous oestradiol
P.M. Mahoney, P.R. Hurst, B.J. McLeod and M.A. McConnell
94. Immunolocalisation of interleukin 11 and its receptor in cycling endometrium and implantation sites of the Rhesus monkey
E. Dimitriadis, L. Robb, Y-X. Liu, W.M. Carter, H.M. Martin and L.A. Salamonsen
95. Repeated maternal glucocorticoid treatments in sheep impair placental structural maturation
C.T. Roberts, T.J.M. Moss, M. Hospers, I. Nitsos, R. Harding and J.P. Newnham
96. Treatment with a glucocorticoid receptor antagonist prevents birth in tammar wallabies
G. Shaw, L. McNair and M.B. Renfree
