

Accessory Publication 1. Sighting frequencies for coastal, offshore and coastal/offshore bottlenose dolphins identified from 1997 to 2007.

Accessory Publication 2. Number of sightings for coastal and offshore bottlenose dolphins within seasons and years.

	1997	1998	1999	2000	2001	2002	2005	2006	2007
Combined coastal and offshore									
Winter	27	33	26	29	21	2	0	0	47
Spring	22	139	107	38	12	10	14	4	74
Summer	2	114	46	10	12	0	19	107	52
Fall	13	74	12	35	26	0	55	90	0

Spring	18	0	1	4	0	7	15	0	0
Summer	0	1	0	1	0	0	0	65	18
Fall	0	5	0	5	0	0	46	41	0

Accessory Publication 3. Overall behavioural state budget recorded for coastal and offshore bottlenose dolphins in the study area. Behavioural state data at less than 99.5% level were not included in the table. A hyphen between two behavioural states refers to activities performed simultaneously by different focal group individuals during 5-min sample (e.g. Dive-Travel, Socialize-Travel, *etc*).

Behavioural states	N of 5-min samples	Frequency distribution of observed behaviour	Total 5-min samples
