

PACIFIC CONSERVATION BIOLOGY

Volume 12

Number 4

Contents

EDITORIAL

- The Sustainability Conundrum. *I. McLean.* 253

FORUM ESSAY

- Conservation aspects of geothermal vegetation. *Petteri Muukkonen.* 255

NEWS AND VIEWS

- SCB-A Newsletter December 2006. *H. F. Recher.* 259

RESEARCH PAPERS

- Breeding-habitat and nest-site characteristics of Scarlet Robins and Eastern Yellow Robins near Armidale, New South Wales. *S. J. S. Debus.* 261

- The successful eradication of two blackberry species *Rubus megalococcus* and *R. adenotrichos* (Rosaceae) from Santa Cruz Island, Galapagos, Ecuador. *C. E. Buddenhagen.* 272

- The role of intense nest predation in the decline of Scarlet Robins and Eastern Yellow Robins in remnant woodland near Armidale, New South Wales. *S. J. S. Debus.* 279

- Relating spatial and temporal patterns in floristics with vegetation mapping: an example from Fraser Island, south-east Queensland, Australia. *B. E. Lawson and G. Wardell-Johnson.* 288

- Intraspecific variation in detection of bird-habitat relationships: declining birds in southern Australian woodlands. *M. Maron and A. Lill.* 301

- Overview of the conservation status of Australian frogs. *J.-M. Hero, C. Morrison, G. Gillespie, J. D. Roberts, D. Newell, E. Meyer, K. McDonald, F. Lemckert, M. Mahony, W. Osborne, H. Hines, S. Richards, C. Hoskin, J. Clarke, N. Doak and L. Shoo.* 313

- Assessing the risk of boat strike on Dugongs *Dugong dugon* at Burrum Heads, Queensland, Australia. *R. N. Maitland, I. R. Lawler and J. K. Sheppard.* 321

BOOK REVIEW

- Practical Conservation Biology. *S. Stankowski.* 327

INDEX

328

Papers submitted to *Pacific Conservation Biology* are individually and fully peer reviewed by a minimum of two referees. Referees are independent of the editorial board and are chosen for their expertise in the subject area of the paper submitted. In addition, papers are vigorously reviewed and edited by the editorial board. Nonetheless, the views put by authors are their own and do not necessarily reflect those of the editors or the Publisher.

COPYRIGHT

Submission of a paper to *Pacific Conservation Biology* will be taken to imply that it presents original unpublished work, not under consideration for publication elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the Publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature, and translations.

Permission to publish illustrations must be obtained by the author before submission and any acknowledgements should be included in the captions.

Authors of papers in *Pacific Conservation Biology* should be subscribers to the journal. Please indicate whether one or more of the authors is a subscriber. Not subscribing will not affect the publication of the paper. However, whereas subscribers (provided they are subscribers at the time of submitting their manuscript) receive 25 free reprints and do not pay page charges, non-subscribers do not receive free reprints and will be asked to pay a nominal AUD\$20 per printed page. These charges will be invoiced when page proofs are sent to authors. If they do not receive grant or institutional support for publication, contributors may request an exemption from page charges. This is similar to procedures followed by other journals, including the Australian Ecological Society and the Royal Society of Western Australia in the publication of their journals. Authors may accelerate publication of their papers to the next available issue without penalty to other authors by paying full page charges of AUD\$65 per page. This still represents a significant publication subsidy.

For your convenience subscription forms have been enclosed. The increased cost is largely the result of the introduction of a government sales tax on knowledge in Australia. If you already subscribe, assist the conservation of biodiversity in the Pacific Region by encouraging a colleague and/or library to subscribe.
