Winter 2011

## *Editorial Board*

### **Managing Editors**

Dr Mike Calver (Editor-in-chief)	Murdoch University, Western Australia
Dr Mike van Keulen (Managing Editor)	Murdoch University, Western Australia
Dr Alan Lymbery (Managing Editor)	Murdoch University, Western Australia
Ivor E. Beatty OAM (Production Editor)	Baulkham Hills, New South Wales
Graham Fulton (Forum Editor)	Edith Cowan University, Western Australia

### **Editors**

Prof Andy Beattie	Macquarie University, New South Wales, Australia
Dr Rob Davis	Edith Cowan University, Western Australia
Prof David Duffy	University of Hawaii, Hawaii, USA
Prof Paul Ehrlich	Stanford University, California, USA
Dr Kees Hulsman	Griffith University, Queensland, Australia
Dr John Hunter	The University of New England, New South Wales, Australia
Dr Pat Hutchings	The Australian Museum, New South Wales, Australia
Prof Richard Kingsford (Liason Editor for SCB)	The University of New South Wales, New South Wales, Australia
Dr Robert Leidy	US Environmental Protection Agency, San Francisco, California, USA
Dr Andrew Mack	Carnegie Museum of Natural History, Pennsylvania, USA
Prof Brendan Mackey	The Australian National University, Australian Capital Territory, Australia
Prof Jonathan Majer	Curtin University of Technology, Western Australia
Dr Sue McIntyre	CSIRO Sustainable Ecosystems, Australian Capital Territory, Australia
Paul Meek	Department of Environment and Climate Change, New South Wales, Australia
Prof Craig Moritz	University of California, California, USA
Dr Nicola Nelson	Victoria University of Wellington, New Zealand
Dr Nick Nicholls	CSIRO Sustainable Ecosystems, Australian Capital Territory, Australia
Prof Ken Pollock	Murdoch University, Western Australia/North Carolina State University, USA
Prof Harry Recher AM, (past Editor-in-Chief)	Edith Cowan University, Western Australia
Dr Denis Saunders AM	CSIRO Sustainable Ecosystems, Australian Capital Territory, Australia
Prof Navjot Sodhi	National University of Singapore, Singapore
Prof Michael Soulé	University of California, California, USA
Prof Frank Talbot	Macquarie University, New South Wales, Australia
Prof Graham Wallis	University of Otago, New Zealand
Dr James Watson	The University of Queensland, Queensland

### **Book Review Editor —**

Dr Cath Meathrel	La Trobe University, Victoria, Australia

# PACIFIC CONSERVATION BIOLOGY

Volume 17

Number 2

## Contents

### EDITORIAL

- Space Perspectives. *Graham R. Fulton.* 88

### FORUM ESSAY

- How Green is the Universe? *Fred Watson.* 89

### NEWS AND VIEWS

- Avoiding madness in the method: best practice methodologies for regulatory biodiversity assessment. *Sue Briggs.* 94

### RESEARCH PAPERS

- When more is less: Urban remnants support high bird abundance but diversity varies  
*James A. Fitzsimons, Mark J. Antos and Grant C. Palmer.* 97

- Bird assemblages in remnant and revegetated habitats in an extensively cleared landscape,  
Wagga Wagga, New South Wales. *Warren K. Martin, David Eldridge and  
Patricia A. Murray.* 110

- Landscape Scale Ecological Connectivity: Australian Survey and Rehearsals  
*Carina Wyborn.* 121

- Population trends of remote invertebrate resources in a marine reserve: trochus  
and holothurians at Ashmore Reef. *Daniela M. Ceccarelli, Maria Beger,  
Marie C. Kospartov, Zoe T. Richards and Chico L. Birrell.* 132

- The impact of two extreme weather events and other causes of death on Carnaby's  
Black Cockatoo: a promise of things to come for a threatened species?  
*Denis A Saunders, Peter Mawson and Rick Dawson.* 141

- Butterflies as potential bioindicators of primary rainforest and oil palm plantation  
habitats on New Britain, Papua New Guinea. *Donald G. Miller III,  
John Lane and Randy Senock.* 149

### BOOK REVIEWS

- Managing Climate Change. *Harry F. Recher.* 160

- Museum: The Macleays, Their Collections and the Search for Order. *Graham R. Fulton.* 162

- Extinction & Biogeography of Tropical Pacific Birds. *Harry F. Recher.* 163

Papers submitted to *Pacific Conservation Biology* are individually and fully peer reviewed by a minimum of two referees. Referees are independent of the editorial board and are chosen for their expertise in the subject area of the paper submitted. In addition, papers are rigorously reviewed and edited by the editorial board. Nonetheless, the views put by authors are their own and do not necessarily reflect those of the editors or the Publisher.

### COPYRIGHT

Submission of a paper to *Pacific Conservation Biology* will be taken to imply that it presents original unpublished work, not under consideration for publication elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the Publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature, and translations. Permission to publish illustrations must be obtained by the author before submission and any acknowledgements should be included in the captions.

Authors of papers in *Pacific Conservation Biology* should be subscribers to the journal. Please indicate whether one or more of the authors is a subscriber. Not subscribing will not affect the publication of the paper. However, whereas subscribers (provided they are subscribers at the time of submitting their manuscript) receive a free pdf and do not pay page charges, non-subscribers do not receive pdf files and will be asked to pay a nominal AUD\$20 per printed page. These charges will be invoiced when page proofs are sent to authors. If they do not receive grant or institutional support for publication, contributors may request an exemption from page charges but they will pay a nominal charge for their pdf file if required. This is similar to procedures followed by other journals, including the Australian Ecological Society and the Royal Society of Western Australia in the publication of their journals. Authors may accelerate publication of their papers to the next available issue without penalty to other authors by paying full page charges of AUD\$65 per page. This still represents a significant publication subsidy. For your convenience subscription forms have been enclosed. If you already subscribe, assist the conservation of biodiversity in the Pacific Region by encouraging a colleague and/or library to subscribe.
