## Contents

Foreword v  
Acknowledgements xi  
About the authors xii  
Contributors xiii

1 **Introduction** 1  
Why this book was written 1  
The scope of this book 2  
The structure of this book 4

2 **Potential impacts of development on flora and fauna** 7  
Types of impacts 7  
Assessing impacts 12

3 **Selecting measures to reduce impacts of development on wildlife – why an understanding of ecology is fundamental** 15  
Ecosystem processes, function and resilience 15  
Species present and absent, and their habitat 17  
Population ecology 18  
Animal behaviour 18  
Movement and dispersal 19

4 **Avoiding impacts on flora and fauna** 21  
Conservation planning 21  
Ecologically sustainable development and the precautionary principle 22  
Measures to avoid impacts on wildlife 22  
Wildlife buffers 28

5 **Modifying human behaviour to reduce impacts of development on flora and fauna** 33  
Wildlife education 34  
Fauna crossing signs 38
Reducing vehicle speed 43

6 Measures to reduce direct fauna and flora mortality during land clearance 47
- Fauna rescue 48
- Plant salvage 54

7 Measures to exclude or deter fauna from a development site 57
- Fauna exclusion fences 58
- Coverings 66
- Reducing the attractiveness of fauna habitat 69
- Visual deterrents 74
- Chemical deterrents 79
- Auditory deterrents 81

8 Measures to promote safe movement of fauna around and through a development site 85
- Natural habitat linkages 86
- Land bridges 91
- Fauna underpasses 97
- Canopy bridges 105
- Glide poles 110
- Escape routes 114
- Fauna inclusion fences 119
- Alternatives to barbed wire 122

9 Measures to minimise habitat degradation near a development site 127
- Weed prevention and control 128
- Discouraging exotic vertebrates 133
- Reduction of artificial lighting 135

10 Measures to provide additional habitat for flora and fauna impacted by development 141
- Revegetation and restoration of ecosystems 142
- Artificial frog ponds 150
- Wildlife-friendly dams 155
- Artificial tree hollows 159
- Artificial subterranean bat roosts 167
- Artificial nesting platforms 172
- Artificial retreats for reptiles 175
- Salvaged habitat features 177
