5.4 Water and feeding management 84
5.5 Tunnel or assisted ventilation barns 87
5.6 Milking parlour and automatic data recording 89
5.7 Summarising considerations for shed designs 92

Chapter 6 Managing the human resources on tropical dairy farms 95
6.1 Smallholder farms 95
6.2 Large-scale dairy farms 95

Chapter 7 Best management practices for smallholder dairy farmers 103
7.1 The importance of record keeping on dairy farms 104
7.2 Producing quality forages on smallholder dairy farms 109
7.3 The Golden Rules for tropical smallholder dairy farming 111
7.4 Key Performance Indicators 121
7.5 Selected KPIs quantifying each Golden Rule 125
7.6 Quantifying improved herd management 131
7.7 A checklist to assess current herd and farm management 133
7.8 A checklist for assessing current calf and heifer rearing systems 136
7.9 Examples of improved management practices 138

Chapter 8 Best management practices on large-scale, intensively managed dairy farms 143
8.1 Forage production 144
8.2 Feeding management 145
8.3 Young stock management 148
8.4 Disease management 158
8.5 Reproductive management 160
8.6 Cow comfort; what it is and why it is so important 163
8.7 Other measures of herd management 170
8.8 Milking management 176

Chapter 9 Developing your observation skills 179
9.1 What to look for 179
9.2 Don’t just look; observe your stock 182
9.3 Signals of good and poor health 188
9.4 Cow signals at the feed trough 189

Chapter 10 Addressing the problems of stock welfare 193
10.1 What do dairy cows really want? 193
10.2 Problems of confinement 194
10.3 The basic elements of dairy cattle welfare 196
10.4 Observing and learning from cow behaviour 198
10.5 Managing surplus stock to the dairy herd 201
## Chapter 11 Introducing the concept of farm business management

11.1 What is good farm business management? 206
11.2 Breaking down costs and returns on dairy farms 210
11.3 A case study of the herd dynamics and farm profits achievable on smallholder dairy farms in Malaysia 217
11.4 A case study of the Feeding Profits achievable on a large-scale intensive dairy farm in Indonesia 220

## Chapter 12 Regional smallholder dairy development programs

12.1 Steps in planning dairy development programs 229
12.2 The overarching principles of regional SHD development 236
12.3 The Dairy Smallholder Innovative Program 241

## Chapter 13 The final words

13.1 Constraints to dairy farm developments in Malaysia; a national case study 249
13.2 Risk in tropical dairy farming 253
13.3 The relevance of ‘high technology’ to tropical dairy farming 256
13.4 ‘Words of Wisdom’ from Asia Dairy Network’s E-Conference on by-product feeding 259
13.5 FAO course on ‘Feeding management of dairy cattle in tropical countries’ 264
13.6 Future directions for SHD production in the humid tropics 267
13.7 In summary 269

## Appendix 1 Temperature Humidity Index 271

## Appendix 2 Signals for assessing healthy and sick cows 272

## Appendix 3 Questionnaire for Indonesian dairy farmers 276

## Appendix 4 A floor plan of a 50-cow dairy shed in Pakistan 287

## Appendix 5 A plan for a free stall shed 288

## Appendix 6 A plan for cooling a free stall shed 289
