A note from the author vii
Map of Moreton Bay viii

1 **Introduction** 1

2 **The physical environment: geology, geomorphology and sedimentology** 5
   Introduction 5
   Underlying geology 5
   The Quaternary period: the Pleistocene and Holocene epochs 7
   The Bay islands 9
   Oceanography, hydrology and sedimentology 12
   Conclusion 13

3 **The history of human use of the Moreton Bay region** 17
   Introduction 17
   Indigenous use of the Moreton Bay region before European settlement 17
   European exploration and convict settlement to 1900 20
   The expanding colony: 1900s to the start of World War II 30
   Moreton Bay: the war years 32
   From World War II to the present 34
   Conclusion 40

4 **Benthic habitats in Moreton Bay** 49
   Introduction 49
   Mangroves 49
   Seagrasses 53
   Saltmarsh 56
   Macroalgae 57
   Reef habitats 58
   Unvegetated soft sediment habitats 59
   Artificial habitats 60
   Oyster reefs 61
   Potential climate change impacts on vegetated habitats and reefs 62
   Conclusion 64

5 **Fish and invertebrate diversity in the Moreton Bay region** 73
   Introduction 73
   Seagrass assemblages 74
   Mangroves, mangrove creeks and riverine environments 75
   Saltmarsh 78
   Coral reefs 79
   Unvegetated soft sediment habitats: intertidal 79
Unvegetated soft sediment habitats: subtidal 82
Surf zone assemblages 86
Pelagic environment 88
Fauna of artificial habitats 89
Venomous and poisonous fish and invertebrates in Moreton Bay 92
Conclusion 95

6 Species of conservation significance in Moreton Bay: the charismatic inhabitants 107
Introduction 107
Dugong 108
Marine turtles 110
Dolphins and whales 113
Wader birds 115
Sharks 120
Other species of conservation significance 122
Conclusion 123

7 The fisheries of Moreton Bay and the fisheries biology and ecology of key species 131
Introduction 131
Indigenous fisheries 131
Commercial fisheries 134
Recreational fishing 138
Biology and ecology of key fished species 142
Conclusion 149

8 Nutrients, sediments, pollutants and their impacts 157
Introduction 157
Acid sulphate soil impacts 158
Nutrients and sediments 159
Polycyclic aromatic hydrocarbons 162
Perfluorinated compounds 163
Polychlorinated biphenyls 163
Faecal coliforms 164
Pesticides and herbicides 164
Metals 166
Antifoulants 167
Fireweed blooms and their impacts 168
Improving water quality and ecosystem health in Moreton Bay 169
Conclusion 172

9 Where to now? 181
Introduction 181
Restoration of upper catchments 182
Oyster reef restoration 183
Stormwater improvements 185
Public access to Moreton Bay waters and foreshores 185
Control human–dolphin interactions at North Stradbroke Island 187
A Minister for Moreton Bay? 188
Conclusion 188
