Table S2. Spearman Rank correlation matrix for data measured at all sites

Figures highlighted in grey are statistically significant at $P < 0.01$. Figures highlighted in bold and italics are statistically significant at $P < 0.05$.

Table S3. Spearman Rank correlation matrix for data from WA sites

Figures highlighted in grey are statistically significant at $P < 0.01$. Figures highlighted in bold and italics are statistically significant at $P < 0.05$.
