**CONTENTS**

**Northern Basins (Offshore)**

*M. Whibley and E. Jacobson*
Exploration in the northern Bonaparte Basin, Timor Sea — WA-199-P ........................................... 7

*J. Pattillo and P.J. Nicholls*
A tectonostratigraphic framework for the Vulcan Graben, Timor Sea region ................................... 27

*J.M. Durrant, R.E. France, M.V. Dauzacker and T. Nilsen*
The southern Bonaparte Gulf Basin — new plays ................................................................. 52

*P.R. Botten and K. Wulff*
Exploration potential of the Timor Gap Zone of Co-operation .................................................. 68

*J.M. McLennan, J.S. Rasidi, R.L. Holmes and G.C. Smith*
The geology and petroleum potential of the western Arafura Sea ............................................. 91

*J. Bradshaw, R.S. Nicoll and M. Bradshaw*
The Cambrian to Permo-Triassic Arafura Basin, northern Australia ...................................... 107

**Northern Basins (Onshore)**

*D.M. Pegum and M. Loeliger*
The Lander Trough — a central Australian frontier exploration area ........................................... 128

*W.R. Lodwick and J.F. Lindsay*
Southern Georgina Basin: a new perspective .................................................................................. 137

*B.A. McConachie, J. Filatoff and N. Senapati*
Stratigraphy and petroleum potential of the onshore Carpentaria Basin, Queensland .................. 149

*D. Roberts, P.G. Carroll and J. Sayers*
The Kalladeina Formation — a Warburton Basin Cambrian carbonate play .................................. 166

*C.J. Gaughan and J.K. Warren*
Lower Cambrian Relief Sandstone, eastern Officer Basin, South Australia: an example of secondary porosity development ......................................................................................... 184

**New Field Studies**

*M.I. Osborne*
The exploration and appraisal history of the Skua field, AC/P2 — Timor Sea ................................. 197

*I.G.D. Gorman*
The role of reservoir simulation in the development of the Challis and Cassini fields .................. 212

*J.F.A. Renton, J.H.S. Black and A.M. Grainge*
The development of the Hides gasfield, Papua New Guinea ...................................................... 223

**New Play Concepts**

Australia’s deepwater frontier petroleum basins and play types ................................................. 238

*E. Kopsen and T. Scholefield*
Prospectivity of the Otway Supergroup in the central and western Otway Basin ....................... 263

*G.J. Kemp and B.L. Wilson*
The seismic expression of Middle to Upper Devonian reef complexes, Canning Basin ............. 280
Technology Developments (Operations)

Introduction of new technology into Timor Sea operations ............................................. 290

B.D. Lake and V. Santostefano
Bass Strait drilling — preparing for the nineties ................................................................. 300

D. Lasserre
Formation evaluation in highly-deviated, long reach development wells on the North Rankin gas field, NW Shelf, Australia ................................................................. 310

N.A. Milne and D.C. Barr
Subsurface fracture analysis, Palm Valley gas field ........................................................... 320

W.J. Mudge and A.B. Thomson
Three dimensional geological modelling in the Kingfish and West Kingfish oil fields: the method and applications ................................................................. 342

A. Gisolf
Off-end seismic data acquisition in the Eromanga Basin ................................................ 355

Technology Developments (Geochemistry)

R. Alexander, R. Marzi and R.I. Kagi
A new method for assessing the thermal history of sediments: a case study from the Exmouth Plateau in northwestern Australia ................................................................. 364

N.P. Tupper and D.M. Burckhardt
Use of the methylphenanthrene index to characterise expulsion of Cooper and Eromanga Basin oils .................................................. 373

Timor Gap Treaty

A. Smart
Timor Gap Zone of Co-operation ...................................................................................... 386

M.L. Williamson
Timor Gap Zone of Co-operation treaty: taxation issues arising from the conduct of petroleum operations in Area A ................................................................. 390

Environmental Challenges

P.G. Purcell
Conservation, development and environmentalism: historical perspective and future imperatives ................................................................. 399

C. Jones and J.P. Hartley
Oil spill contingency planning for major terminals and sensitive areas ............................... 413

C. Birch, G. Brand, C. Gibbs, D. Palmer, R. Tait and G. Terrens
Development of new treatment facilities for wastewater at Esso Long Island Point Terminal, Western Port, Victoria ................................................................. 420

B.J. Warris, T. Grocke and A. Lane
Petroleum operations in the environmentally sensitive northern Perth Basin, Western Australia ................................................................. 428

Historical Perspective

B.M. Thomas
In for the long haul — 50 years of Shell exploration in Australia .......................................... 436
ADVERTISERS

Aerodata Holdings Limited ................................................................. 51
APC Consultants ................................................................................. 389
Atwood Oceanics Australia Pty. Ltd. ..................................................... 319
Australian Petroleum Exploration Association Limited ...................... 398
BHP Petroleum Pty. Ltd. ........................................................................ 26
Freehill, Hollingdale & Page ............................................................... 148
James Capel & Co. ............................................................................... 165
Mincom Pty. Ltd. .................................................................................. 279
National Centre for Petroleum Geology and Geophysics .................... 196
West Australian Petroleum Pty. Limited ................................................ 427
Woodside Offshore Petroleum Pty. Ltd. ............................................... 222
