# CONTENTS

**Unravelling Otway, Bass and Gippsland— and enhancing prospectivity**

J.P. Teasdale, L.L. Pryer, P.G. Stuart-Smith, K.K. Romine, M.A. Etheridge, T.S. Loutit, and D.M. Kyan

**Structural framework and basin evolution of Australia’s Southern Margin**

13

T. Bernecker and D.H. Moore

**Linking basement and basin fill: Implications for hydrocarbon prospectivity in the Otway Basin region**

39

I.R. Duddy, B. Erout, P.F. Green, P.V. Crowhurst and P.J. Boult

**Timing constraints on the structural history of the western Otway Basin and implications for hydrocarbon prospectivity around the Morum High, South Australia**

59

D.J. Poynton

**Beating the odds at Casino!—A small Australian’s example of risk management**

85

C.A. Noll and M. Hall

**Fluvial architecture and the tectonic control on deposition of onshore Eumeralla Formation, Otway Ranges, Victoria: Implications for exploration in the Early Cretaceous Otway Basin**

99

C.J. Boreham, J.E. Blevin, A.P. Radlinski and K.R. Trigg

**Coal as a source of oil and gas: A case study from the Bass Basin, Australia**

117

**The Gippsland Basin top latrobe unconformity, and its expression in other SE Australia Basins**

149

C. Santamaria and R. Fish

**Improving recovery in a thin oil column reservoir—Tuna M–1 reservoir experience in the Gippsland Basin, southeast Australia**

175

C. Uruski, P. Baillie and V. Stagpoole

**Development of the Taranaki Basin and comparisons with the Gippsland Basin: implications for deepwater exploration**

185

M.R. Power, K.C. Hill and N. Hoffman

**Structural inheritance, stress rotation, overprinting and compressional reactivation in the Gippsland Basin—Tuna 3D seismic dataset**

197

N.M. Heath

**Gippsland—New potential from a mature basin**

223

**Northwest Shelf—New ideas, new discoveries**

231

S. Moss, D. Barr, R. Kneale, P. Clews and T. Cruse

**Mid to Late Jurassic shallow marine sequences of the eastern Barrow Sub-basin: the role of low-stand deposition in new exploration concepts**

231

K. Martens

**Flattened time slices—A stratigraphic approach to 3D seismic interpretation on the North West Shelf of Australia**

255
## CONTENTS

K.A. Auld and J.E.P. Redfearn

**The Mutineer Complex and Exeter oil discoveries: Mutiny in the dampier**

273

B.E. Korn, R.P. Teakle, D.M. Maughan and P.B. Siffleet

**The Geryon, Orthrus, Maenad and Urania gas fields, Carnarvon Basin, Western Australia**

285

**The Jansz gas field, Carnarvon Basin, Australia**

303

T.H.D. Payenberg and S.C. Lang

**Reservoir geometry of fluvial distributary channels—Implications for North West Shelf, Australia, deltaic successions**

325

M. Partington, K. Aurisch, W. Clark, I. Newlands, S. Phelps, P. Senycia, P. Siffleet, and T. Walker

**The hydrocarbon potential of exploration permits WA-299-P and WA-300-P, Carnarvon Basin: A case study**

339

N. Smith, C. Dempsey, M. Jackson and J. Preston

**Overcoming historical bias: An integrated geological and engineering assessment of the Coniston Prospect, Exmouth Sub-basin**

363

**Geological controls on sonic velocity in the Cenozoic carbonates of the Northern Carnarvon Basin, North West Shelf, Western Australia**

385

**Sub-surface uncertainty in oil fields: Learnings from early production of Legendre Oil Fields**

401

**Understanding onshore basins—finding more oil**

R.J. Willink and R.L. Harvey

**The New Royal Oil Field: A case history of the discovery and appraisal of a subtle, stratigraphically trapped hydrocarbon accumulation in the Triassic Showgrounds Sandstone, Surat Basin**

415

I. Deighton, J.J. Draper, A.J. Hill and C.J. Boreham

**A hydrocarbon generation model for the Cooper and Eromanga Basins**

433

T. Nakanishi, S.C. Lang and A.B. Mitchell

**Visualisation of a fluvial channel reservoir analogue from the Birkhead Formation, Merrimelia, Meranji and Pelican Fields, Eromanga Basin**

453

**New plays**

G.M. Carlsen, A.P. Simeonova and S.N. Apak

**Petroleum systems and exploration potential in the Officer Basin, Western Australia**

473

P.A. Arditto

**An integrated geological and geophysical interpretation of a portion of the offshore Sydney Basin, New South Wales**

495
CONTENTS

S.A. Barclay, K. Liu and D. Holland
Reservoir quality, diagenesis and sedimentology of the Pale and Subu Sandstones: revisiting the eastern Papuan Basin, Papua New Guinea
515

M.R.W. Reilly and S.C. Lang
A ponded basin floor fan outcrop analogue: Bunkers sandstone, northern Flinders Ranges, Australia
537

New technologies to beat the odds

Z.J. Pallikathekathil and M. Wilson
Applications of SpectroLith mineralogy from neutron capture spectroscopy tools for formation evaluation
555

J.J. McKenna, B. Gurevich, M. Urosevic, and B.J. Evans
Rock physics—Application to geological storage of CO₂
567

C.H. Arns, A. Sakellariou, T.J. Senden, A.P. Sheppard, R.M. Sok, W.V. Pinczewski and M.A. Knackstedt
Petrophysical properties derived from X-ray CT images
577

K.W. Wong, P.M. Wong, T.D. Gedeon, and C.C. Fung
A state-of-the-art review of fuzzy logic for reservoir evaluation
587

Future gas

Bio-enhancement of coal bed methane resources in the Southern Sydney Basin
595

Dealing with carbon dioxide—threat or opportunity

B.S. Fisher, G.N. Jakeman, K.G. Woffenden, V.A. Tulpulé and S.T. Hester
Dealing with climate change: Possible pathways forward
611

W.G. Allinson, D.N. Nguyen and J. Bradshaw
The economics of geological storage of CO₂ in Australia
623

M.N. Watson, N. Zwingmann, N.M. Lemon and P.R. Tingate
Onshore Otway Basin carbon dioxide accumulations: CO₂-induced diagenesis in natural analogues for underground storage of greenhouse gas
637

Commercialising petroleum—investment issues

M.J. Lawry
The fiscal settings that are important to petroleum exploration and development in Australia
655

R.A. Hogarth
Avoiding capital cost blowouts on oil and gas projects
665

A.G. Thompson and V.W.C. Lok
Offshore petroleum exploration in Australia acreage bidding systems: Work bidding or cash bidding?
677
# CONTENTS

P.E. Williamson and C.B. Foster  
**Access to Australian exploration and production data: A critical factor in attracting investment**  
693

**Commercialising petroleum—corporate culture issues**

A. Lagan  
**Do business ethics really matter?**  
705

A.T. Keaney  
**The emergence of corporate social responsibility—Issues for the Australian oil and gas sector**  
717

**Commercialising petroleum—Community and stakeholder issues**

D. Young and G. Scott  
**Ward and Wilson v Anderson—Evolution or revolution in Native Title law?**  
729

J.R. Cook  
**Towards an internationalisation of Native Title and community relations**  
741

F.M. Baronie, M. Fenton, G. Harman and M. Jury  
**Can sustainable development thinking be applied to new oilfields? A case study of the early stages of the Enfield area development in an environmentally and socially sensitive area**  
753

**Developments in the marine environment**

S.H. Mustoe, M.C. Greenwood and J.F. Moore  
**Environmental management in the Bass Strait northern Fields 3D seismic survey**  
761

K. Heiden  
**Assessment and approval of petroleum activities under the Commonwealth Environment Protection and Biodiversity Conservation Act 1999—Lessons learned**  
779

**Hazardless development**

J.M. Gibbeson  
**Petroleum processing plants—Technical surveillance program**  
787

G.C. Marshall  
**Haz & Zard: Promoting hazard identification, risk assessment and positive safety behaviour in the petroleum industry**  
799

A. J. Mathers and S. Savva  
**Effective safety case development**  
805

**Miscellaneous**

THE 2003 APPEA CONFERENCE SPONSORS

Principal sponsors

BHP Billiton Petroleum Pty Ltd
Macquarie Bank

Papers Committee sponsor

Schlumberger Oilfield Australia Pty Ltd

Supporting sponsors

Conference Satchels
APPEA Journal
APPEA Exhibition
Conference Lunch
Conference Dinner
Morning/Afternoon Tea Breaks
Opening Presentation
Tuesday Plenary Presentation
Wednesday Plenary Presentation
Monday and Tuesday Happy Hour
Internet C@fe
Authors’ Lunch
Conference Writing Pads
Conference Pens
Conference Mouse Mats
Continuous Coffee
Media Room
Partners Program
